The Crisis of Détente in Europe Leopoldo Nuti, 2008-11-11 This edited volume is the first detailed exploration of the last phase of the Cold War taking a critical look at the crisis of détente in Europe in the late 1970s and early 1980s The transition from détente to a new phase of harsh confrontation and severe crises is an interesting indeed crucial phase of the evolution of the international system This book makes use of previously unreleased archival materials moving beyond existing interpretations of this period by challenging the traditional bipolar paradigm that focuses mostly on the role of the superpowers in the transformation of the international system The essays here emphasize the combination and the interplay of a large number of variables political ideological economic and military and explore the topic from a truly international perspective Issues covered include human rights the Euromissiles the CSCE Commission on Security and Cooperation in Europe the Revolution in Military Affairs economic growth and its consequences Distorting Defense Stephen P. Aubin, 1998-11-30 Using journalists own standards as the measure an exhaustive analysis of nearly 3000 network news reports from the Reagan Bush and Clinton administrations reveals that the networks may do more to misinform than inform on a whole range of complex issues related to national defense This study paints a disturbing picture of the inadequate coverage ABC World News Tonight CBS Evening News and NBC Nightly News provide to millions of viewers each night Aubin concludes that network coverage of defense issues was too often tainted by preconceived attitudes and lapses in journalistic standards While as much as twenty five cents of every dollar went to the defense budget during some of the periods reviewed the networks hardly covered the key issues surrounding the Reagan defense buildup or the dramatic cuts that followed the end of the Cold War In addition to their inadequate coverage the networks also deprived Americans of balanced coverage of the investments made in high tech weapons that ultimately prevailed in the Gulf War Though the networks receive good marks for foreign policy coverage they need to improve the quality of defense reports This book provides them with the lessons and prescriptions for doing so and it serves as a primer for all Americans who want to know just what it was that the networks failed to tell them SDI, 1987 *Restive Partners* W.
