*The Shamanic Themes in Chechen Folktales* Michael Berman, 2009-03-26 All intellectuals driven by nationalist sentiments directly or indirectly are always preoccupied

with searching for the most ancient roots of their budding nations in order to ground their compatriots in particular soil and to make them more indigenous Znamenski 2007 p 28 In Chechnya as in the neighbouring countries of Georgia and Armenia these roots lie in shamanism and the stories in this collection clearly show this to be the case The history of the Nokhchii the name the Chechens have given themselves and their land is filled with rich and colourful stories which have survived for thousands of years through oral traditions that have been passed down generation by generation through clan elders

However legends have blended with actual events so that the true history is difficult to write The 1994 1996 war destroyed most of Chechnya's treasured archaeological and historical sites though fortunately ancient burial sites architectural monuments and several prehistoric cave petroglyphs still remain in the mountains These valuable relics coupled with the histories and stories of the elders provide the people with virtually the only remaining evidence of who their ancient ancestors were This book contains both the texts of some of the tales and commentaries on them focusing in particular on their shamanic elements

**American Resolve and the Art of War** John Proctor, 2012-09-28 Since the end of World War II Americans realized that the only way to keep America out of war is to keep the world out of war Americans also realize that today their country is the leader of the Western World if not the whole world The leadership role was thrust upon the United States when its traditional allies are weak Thus all decisions made by the United States must also be implemented by the United States A Chinese general said Ultimate excellence lies not in winning every battle but defeating the enemy without ever fighting This should be Americas goal but it seems that this can only be achieved with a large standing army However there is an alternative This goal can be achieved with a strong disciplined reserve force which will cost only a fraction of a large standing army The reserve force should be trained to implement skillful and innovative tactics Excellent training will also accomplish another significant goal minimize American casualties
