**Search for Modern Nationalism** Young-tsu Wong, 1989 This is the first full length study of Zhang Binglin 1869 1936 in English Drawing on both Chinese and English sources Young tsu Wong s explores the life and work of one of modern China s most outstanding thinkers scholars and political activists a man whose intellectual prestige and influence attracted educated Chinese towards the republican revolution during the closing decade of the Qing dynasty One of the first studies to analyse and comment neutrally on the range of views Zhang held the book challenges prevailing views on the subject and contributes to a better understanding of the dynamics of Chinese revolution It sheds new light on the political landscape of Republican China and on hitherto obscure personalities and events *China in War and Revolution, 1895-1949* Peter Gue Zarrow, 2005 Providing historical insights essential to the understanding of contemporary China this text presents a nation s story of trauma and growth during the early twentieth century It explains how China s defeat by Japan in 1895 prompted an explosion of radical reform proposals and the beginning of elite Chinese disillusionment with the Qing government The book explores how this event also prompted five decades of efforts to strengthen the state and the nation democratize the political system and build a fairer and more unified society Peter Zarrow weaves narrative together with thematic chapters that pause to address in depth themes central to China s transformation While the book proceeds chronologically the chapters in each part examine particular aspects of these decades in a more focused way borrowing from methodologies of the social sciences cultural studies and empirical historicism Essential reading for both students and instructors alike it draws a picture of the personalities ideas and processes by which a modern state was created out of the violence and trauma of these decades

*China Reconnects: Joining A Deep-rooted Past To A New World Order* Gungwu Wang, 2019-07-02 The book is engaging informative and provocative and can profitably be read by undergraduates and professors alike You do not have to agree with the dean of China studies to learn from him China Review International The book shows how the Chinese are now confident of their capacity to learn all they need from the developed world and are keen to know which parts of the past they would need to build a modern Chinese civilization They are very conscious of the challenges coming from the United States and are looking for ways and means to respond to a superpower that wants to preserve its dominant position in the international status quo The book seeks to explain what China is doing and what its immediate and long term interests are It is not to defend or judge China It does not employ theoretical frameworks that are not appropriate for describing Chinese conditions It calls for understanding why history is particularly relevant to the Chinese state and most of its people That way we also see how the present and hopes for the future changes our perspectives of the past Related Link s *Central Asia* Adeeb Khalid, 2022-11-29 A major history of Central Asia and how it has been shaped by modern world events Central Asia is often seen as a remote and inaccessible land on the peripheries of modern history Encompassing Uzbekistan Tajikistan Turkmenistan Kyrgyzstan Kazakhstan and the Xinjiang province of China it in fact stands at the crossroads of world events

Adeeb Khalid provides the first comprehensive history of Central Asia from the mid eighteenth century to today shedding light on the historical forces that have shaped the region under imperial and Communist rule Predominantly Muslim with both nomadic and settled populations the peoples of Central Asia came under Russian and Chinese rule after the 1700s Khalid shows how foreign conquest knit Central Asians into global exchanges of goods and ideas and forged greater connections to the wider world He explores how the Qing and Tsarist empires dealt with ethnic heterogeneity and compares Soviet and Chinese Communist attempts at managing national and cultural difference He highlights the deep interconnections between the Russian and Chinese parts of Central Asia that endure to this day and demonstrates how Xinjiang remains an integral part of Central Asia despite its fraught and traumatic relationship with contemporary China The essential history of one of the most diverse and culturally vibrant regions on the planet this panoramic book reveals how Central Asia has been profoundly shaped by the forces of modernity from colonialism and social revolution to nationalism state led modernization and social engineering

**Imagining a Postnational World** Marc Andre Matten,2016-11-01 This book analyzes the historical significance of rivaling concepts of world order in 20th century East Asia Since the arrival of European imperialism in 19th century coupled with its different schools of political philosophy and international law China has struggled to combine ideas on national sovereignty spatiality and hegemony in its quest of either imitating or replacing European norms of world order By analyzing Chinese visions of regional and international order and comparing them with Japanese proposals of that era this book discusses in detail the relationship of territoriality and political rule discourses of amity and enmity and finally the role of hegemoniality in the process of imagining a possible postnational world in 21st century East Asia and beyond

**Transforming Consciousness** John Makeham,2014-03-03 Yogacara is one of the most influential philosophical systems of Indian Buddhism Competing traditions of Yogacara thought were first introduced into China during the sixth century By the Yuan dynasty 1271 1368 however key commentaries of this school had ceased being transmitted in China and it was not until the end of the nineteenth century that a number of them were re introduced from Japan where their transmission had been uninterrupted Within a few short years Yogacara was being touted as a rival to the New Learning from the West boasting not only organized systematized thought and concepts but also a superior means to establish verification This book accomplishes three goals The first is to explain why this Indian philosophical system proved to be so attractive to influential Chinese intellectuals at a particular moment in history The second is to demonstrate how the revival of Yogacara thought informed Chinese responses to the challenges of modernity in particular modern science and logic The third goal is to highlight how Yogacara thought shaped a major current in modern Chinese philosophy New Confucianism Transforming Consciousness illustrates that an adequate understanding of New Confucian philosophy must include a proper grasp of Yogacara thought

*The Oxford History of Historical Writing* Stuart Macintyre,Juan Manguashca,Attila Pók,2011-10-27 Volume 4 of The Oxford History of Historical Writing offers essays by leading scholars on

the writing of history globally from 1800 to 1945 Divided into four parts it first covers the rise consolidation and crisis of European historical thought and the professionalization and institutionalization of history The chapters in Part II analyze how historical scholarship connected to various European national traditions Part III considers the historical writing of Europe s Offspring the United States Canada South Africa Australia New Zealand Mexico Brazil and Spanish South America The concluding part is devoted to histories of non European cultural traditions China Japan India South East Asia Turkey the Arab world and Sub Saharan Africa This is the fourth of five volumes in a series that explores representations of the past from the beginning of writing to the present day and from all over the world This volume aims at once to provide an authoritative survey of the field and especially to provoke cross cultural comparisons      *Anarchy in the Pure Land* Justin

Ritzinger,2017-08-31 *Anarchy in the Pure Land* investigates the twentieth century reinvention of the cult of Maitreya the future Buddha conceived by the reformer Taixu and promoted by the Chinese Buddhist reform movement The cult presents an apparent anomaly It shows precisely the kind of concern for ritual supernatural beings and the afterlife that the reformers supposedly rejected in the name of modernity This book shows that rather than a concession to tradition the reimagining of ideas and practices associated with Maitreya was an important site for formulating a Buddhist vision of modernity Justin Ritzinger argues that the cult of Maitreya represents an attempt to articulate a new constellation of values integrating novel understandings of the good clustered around modern visions of utopia with the central Buddhist goal of Buddhahood In Part One he traces the roots of this constellation to Taixu s youthful career as an anarchist Part Two examines its articulation in the Maitreya School s theology and its social development from its inception to World War II Part Three looks at its subsequent decline and contemporary legacy within and beyond orthodox Buddhism Through these investigations *Anarchy in the Pure Land* develops a new framework for alternative understandings of modernity in Buddhism      *The Qing Dynasty and Traditional Chinese Culture* Richard J. Smith,2015-10-23

The Qing dynasty 1636 1912 a crucial bridge between traditional and modern China was remarkable for its expansiveness and cultural sophistication This engaging and insightful history of Qing political social and cultural life traces the complex interaction between the Inner Asian traditions of the Manchus who conquered China in 1644 and indigenous Chinese cultural traditions Noted historian Richard J Smith argues that the pragmatic Qing emperors presented a Chinese face to their subjects who lived south of the Great Wall and other ethnic faces particularly Manchu Mongolian Central Asian and Tibetan to subjects in other parts of their vast multicultural empire They were attracted by many aspects of Chinese culture but far from being completely sinicized as many scholars argue they were also proud of their own cultural traditions and interested in other cultures as well Setting Qing dynasty culture in historical and global perspective Smith shows how the Chinese of the era viewed the world how their outlook was expressed in their institutions material culture and customs and how China s preoccupation with order unity and harmony contributed to the civilization s remarkable cohesiveness and continuity Nuanced and wide ranging his authoritative book provides an essential

introduction to late imperial Chinese culture and society

**How China Sees the World** John M. Friend, Bradley A.

Thayer, 2018-11-01 Han centrism a virulent form of Chinese nationalism asserts that the Han Chinese are superior to other peoples and have a legitimate right to advance Chinese interests at the expense of other countries Han nationalists have called for policies that will allow China to reclaim the prosperity stolen by foreign powers during the Century of Humiliation The growth of Chinese capabilities and Han centrism suggests that the United States its allies and other countries in Asia will face an increasingly assertive China one that thinks it possesses a right to dominate international politics John M Friend and Bradley A Thayer explore the roots of the growing Han nationalist group and the implications of Chinese hypernationalism for minorities within China and for international relations The deeply rooted chauvinism and social Darwinism underlying Han centrism along with China's rapid growth threaten the current stability of international politics making national and international competition and conflict over security more likely Western thinkers have yet to consider the adverse implications of a hypernationalistic China as opposed to the policies of a pragmatic China were it to become the world's dominant state

and photographs to look at the political history of the period and to understand the ways in which politics intersected with the thoughts and feelings of ordinary people To be a modern citizen of the Chinese republic meant repudiating much of the very ritual that had previously defined one as Chinese As we follow the changes in everyday life ranging from the unbinding of women's feet to the commemoration of the events of the new republican history we see the complex interactions between an ever more activist state and its new citizens

Behind the Gate Fabio Lanza, 2010-08-13 On May 4 1919 thousands of students protested the Versailles treaty in Beijing Seventy years later another generation demonstrated in Tiananmen Square Climbing the Monument of the People's Heroes these protestors stood against a relief of their predecessors merging with their own mythology while consciously deploying their activism Through an investigation of twentieth century Chinese student protest Fabio Lanza considers the marriage of the cultural and the political the intellectual and the quotidian that occurred during the May Fourth movement along with its rearticulation in subsequent protest He ultimately explores the political category of the student and its making in the twentieth century Lanza returns to the May Fourth period 1917 1923 and the rise of student activism in and around Beijing University He revisits reform in pedagogical and learning routines changes in daily campus life the fluid relationship between the city and its residents and the actions of allegedly cultural student organizations Through a careful analysis of everyday life and urban space Lanza radically reconceptualizes the emergence of political subjectivities categories such as worker activist and student and how they anchor and inform political action He accounts for the elements that drew students to Tiananmen and the formation of the student as an enduring political category His research underscores how during a time of crisis the lived realities of university and student became unsettled in Beijing and how political militancy in China arose only when the boundaries of identification were challenged

*Global Space and the Nationalist Discourse of Modernity* Xiaobing Tang, 1996-04 This book reexamines the historical thinking of Liang Qichao 1873 1929 one of the few modern Chinese thinkers and cultural critics whose appreciation of the question of modernity was based on first hand experience of the world space in which China had to function as a nation state It seeks to demonstrate that Liang was not only a profoundly paradigmatic modern Chinese intellectual but also an imaginative thinker of worldwide significance By tracing the changes in Liang's conception of history the author shows that global space inspired both Liang's longing for modernity and his critical reconceptualization of modern history Spatiality or the mode of determining spatial organization and relationships offers a new interpretive category for understanding the stages in Liang's historical thinking Liang's historical thinking culminated in a global imaginary of difference which became most evident in the shift from his earlier proposal for a uniform national history to one that mapped cultural history His reaffirmation of spatiality a critical concept overshadowed by the modernist obsession with time and history made it both necessary and possible for him to redesign the project of modernity Finally the author suggests that the reconciliation of anthropological space with historical time that Liang achieved makes him abundantly contemporary with our

own time both inextricably modern and postmodern
