to observe the smallest changes of consciousness and to record the slightest movements of the body What another novelist would describe as a single act of consciousness Tolstoy convincingly breaks down into a series of infinitesimally small steps According to the English writer Virginia Woolf who took for granted that Tolstoy was the greatest of all novelists these observational powers elicited a kind of fear in readers who wish to escape from the gaze which Tolstoy fixes on us Those who visited Tolstoy as an old man also reported feelings of great discomfort when he appeared to understand their unspoken thoughts It was commonplace to describe him as godlike in his powers and titanic in his struggles to escape the limitations of the human condition Some viewed Tolstoy as the embodiment of nature and pure vitality others saw him as the incarnation of the world's conscience but for almost all who knew him or read his works he was not just one of the greatest writers who ever lived but a living symbol of the search for life's meaning
