True Crimes in Eighteenth-Century China Robert E. Hegel, 2011-12-01 The little examined genre of legal case narratives is represented in this fascinating volume the first collection translated into English of criminal cases most involving homicide from late imperial China These true stories of crimes of passion family conflict neighborhood feuds gang violence and sedition are a treasure trove of information about social relations and legal procedure Each narrative describes circumstances leading up to a crime and its discovery the appearance of the crime scene and the body the apparent cause of death speculation about motives and premeditation and whether self defense was involved Detailed testimony is included from the accused and from witnesses family members and neighbors as well as summaries and opinions from local magistrates their coroners and other officials higher up the chain of judicial review Officials explain which law in the Qing dynasty legal code was violated which corresponding punishment was appropriate and whether the sentence was eligible for reduction These records began as reports from magistrates on homicide cases within their jurisdiction that were required by law to be tried first at the county level then reviewed by judicial officials at the prefectural provincial and national levels with each administrator adding his own observations to the file Each case was decided finally in Beijing in the name of the emperor if not by the monarch himself before sentences could be carried out and the records permanently filed All of the cases translated here are from the Qing imperial copies most of which are now housed in the First Historical Archives Beijing

Defining and Defending the Open Door Policy Gregory Moore, 2015-05-27 There has been little examination of the China policy of the Theodore Roosevelt administration Works dealing with the topic fall either into brief discussions in biographies of Roosevelt general surveys of Sino American relations or studies of special topics such as the Chinese exclusion issue which encompass a portion of the Roosevelt years Moreover the subject has been overshadowed somewhat by studies of problems between Japan and the United States in this era The goal of this study is to offer a more complete examination of the American relationship with China during Roosevelt s presidency The focus will be on the discussion of major issues and concerns in the relationship of the two nations from the time Roosevelt took office until he left something that this book does for the first time Greater emphasis needs to be placed on creating a more complete picture of Teddy Roosevelt and China relations especially in regard to his and his advisers perceptual framework of that region and its impact upon the making of China policy The goal of this study is to begin that

process Special attention is paid to the question of how Roosevelt and the members of his administration viewed China as it is believed that their viewpoints which were prejudicial were very instrumental in how they chose to deal with China and the question of the Open Door The emphasis on the role of stereotyping gives the book a particularly unique point of view Readers will be made aware of the difficulties of making foreign policy under challenging conditions but also of how the attitudes and perceptions of policymakers can shape the direction that those policies can take A critical argument of the book is that a stereotyped perception of China and its people inhibited American policy responses toward the Chinese state in Roosevelt s Administration While Roosevelt s attitudes regarding white supremacy have been discussed elsewhere a fuller consideration of how his views affected the making of foreign policy particularly China policy is needed especially now that Sino American relations today are of great concern

constitution explicitly refers to its sovereign domain as sacred territory Why does an avowedly secular state make such a claim and what does this suggest about the relations between religion and the nation state Focusing primarily on China Stating the Sacred offers a novel approach to nation state formation arguing that its most critical element is how the state sacralizes the nation Michael J Walsh explores the religious and political dimensions of Chinese state ideology making the case that the sacred is a constitutive part of modern China He examines the structural connection among texts constitutions legal codes national histories ostensibly universal and normative categories race religion citizenship freedom human rights and territoriality the integrity of sovereignty and control over resources and people showing how they are bound together by the sacred Considering a variety of what he refers to as theopolitical techniques Walsh argues that nation states undertake sacralization in order to legitimate the violence of establishing and expanding their sovereignty Ultimately territorialization is a form of sacralization and the foundational role of the sacred makes all nation states religious states Stating the Sacred offers new ways of understanding China s approach to legality control of the populace religious freedom human rights and the structuring of international relations and it raises existential questions about the fundamental nature of the nation state
