**Ornithology in Laboratory and Field** Olin Sewall Pettingill, 2013-10-02

Ornithology in Laboratory and Field is intended as an aid to ornithological study at the college or university level. Students who lack the background knowledge usually acquired during a course in general zoology or biology should keep it handy for ready reference. A standard elementary text on the subject. This book contains extensive material for purely informational reading, possibly enough to supplant the need of an additional textbook. Its principal purpose still complies with the title of its predecessors for it is essentially a manual to guide and assist the student in direct observations. All twenty sections except the last, 'The Origin, Evolution and Decrease of Birds', suggest methods and provide instructions for studies and all conclude with an extensive list of references frequently annotated for further information. The twenty sections of the book can be taken up in almost any order and some may be omitted without affecting the instructional value of the others. A feature of this new edition is an introduction to birds and ornithology intended for reading at the beginning of a course. The purpose is twofold: to show the significance of birds for study and to give an overall preview of ornithology, the subject with emphasis on its wide scope, how it is studied, and some of the continuing and exciting opportunities that it offers for investigation.

Too Many Bird Books Geoffrey Dabb, 2023-08-01 This is a chronicle of encounters with a lot of bird books in fact a lifetime of such encounters. The world of bird books is vast and varied, defying coherent descriptions. The author's qualification for making this attempt to describe it is that he owns several hundred of them gathered over more than 70 years. To help make sense of this obsession, the description of the books is linked to life in which traditional birdwatching and book hunting went on in different places and in between other things.

**Anderson's Travel Companion** Compiled by Sarah Anderson, 2016-12-05 A selection of the best in travel writing with both fiction and non-fiction presented together, this companion is for all those who like travelling, like to think about travelling, and who take an interest in their destination. It covers guidebooks as well as books about food, history, art, and architecture, religion, outdoor activities, illustrated books, autobiographies, biographies, and fiction, and lists books both in and out of print. Anderson's Travel Companion is arranged first by continent, then alphabetically by country, and then by subject, cross-referenced where necessary. There is a separate section for guidebooks and comprehensive indexes. Sarah Anderson founded the Travel Bookshop in 1979 and is also a journalist and writer on travel subjects. She is known by well-known travel writers such as Michael Palin and Colin Thubron. Michael Palin chose her bookshop as his favourite shop, and Colin Thubron and Geoffrey Moorhouse among others made suggestions for titles to include in the Travel Companion.
