Alien Abductions Conrad Bauer,2020-10-18 The ideas of alien abductions have our fueled our imagination What if it happened to you Discover true cases of alien abductions from people claiming being taken by aliens and that came back to tell their story Imagine you re out alone at a park somewhere taking in the scenery and simply enjoying the exercise of a nice walk Suddenly there s a strange feeling in the air You don t know what it is but things somehow just don t seem quite right You look up and there s a light in the sky You see a bright flash and then moments later the light is gone and you resume your hike through the park According to many alleged alien abductees these experiences are often the few sparse moments of conscious recall of an abduction The individual does not know it at the time but he has been an unwilling participant in an extraordinary event In such a situation the only real clue would be a quick glance at the time Our hypothetical hiker looks down at his watch and realizes that over an hour has passed completely unaccounted for Abductees and UFO researchers contend that it is within such an hour of so called missing time that alien entities from who knows where conduct examinations and experiments on us hapless humans Once the aliens have finished their tasks these diligent ET scientists wipe our conscious memories and return us safely to Earth But their technology is apparently not perfect because some Earth dwellers have allegedly been able to uncover these supposedly lost memories through hypnotic regression This book takes a look at some of these startling claims of alien human interactions that the world has come to know as alien abductions This is not an attempt to prove the veracity of these claims but simply to present them as they are reported so that readers can decide for themselves Scroll
