The Age of Clinton Gil Troy, 2015-10-06 The 1990s was a decade of extreme change Seismic shifts in culture politics and technology radically altered the way Americans did business expressed themselves and thought about their role in the world At the center of it all was Bill Clinton the talented charismatic and flawed Baby Boomer president and his controversial polarizing but increasingly popular wife Hillary Although it was in many ways a Democratic Gilded Age the final decade of the twentieth century was also a time of great anxiety The Cold War was over America was safe stable free and prosperous and yet Americans felt more unmoored anxious and isolated than ever Having lost the script telling us our place in the world we were forced to seek new anchors This was the era of glitz and grunge when we simultaneously relished living in the Republic of Everything even as we feared it might degenerate into the Republic of Nothing Bill Clinton dominated this era a man of passion and of contradictions both revered and reviled whose complex legacy has yet to be clearly defined In this unique analysis historian Gil Troy examines Clinton s presidency alongside the cultural changes that dominated the decade By taking the 90s year by year Troy shows how the culture of the day shaped the Clintons even as the Clintons shaped it In so doing he offers answers to two of the enduring questions about Clinton s legacy how did such a talented politician leave Americans thinking he accomplished so little when he actually accomplished so much And to what extent was Clinton responsible for the catastrophes of the decade that followed his departure from office specifically 9 11 and the collapse of the housing market Even more relevant as we head toward the 2016 election The Age of Clinton will appeal to readers on both sides of the aisle

Broadway and Economics Matthew C. Rousu, 2018-06-27 Economics has often been described as the dismal science with TV and movies reinforcing this description However economics is a powerful tool that can be used to understand how the world works helping to answer confusing puzzles and solve the world s problems Surprisingly Broadway musicals are an excellent way to show this Musicals

tell engaging stories through song and many are rich with economic concepts This book analyzes 161 songs from 90 musicals to explore what they can teach us about supply and demand monetary policy and numerous other core economic concepts While some songs have an obvious connection to economics other connections may seem less apparent When you hear Let it Go from Frozen does your mind think about a firm's production decisions After reading this book it will Whether showing how Hamilton can illustrate concepts of central banking or how Stars from Les Miserables provides a perfect example of inelastic demand the author presents complicated topics in an understandable and entertaining way Featuring classic songs from some of the most popular shows ever produced along with some hidden gems Broadway and Economics will be of interest to anybody studying an introductory economics course as well as theatre aficionados *ELLEgirl*, 2006-12 *ELLEgirl* the international style bible for girls who dare to be different is published by Hachette Filipacchi Media U S Inc and is accessible on the web at ellegirl.elle.com *ELLEgirl* provides young women with insider information on fashion beauty service and pop culture in a voice that while maintaining authority on the subject includes and amuses them

A Year in the Life of a "Dead" Woman Lynnette Porter, 2019-10-08 Perhaps I should have realized that cancer runs in my family After all three grandparents and my father and brother perished from this disease Yet when I received my colorectal cancer diagnosis I was surprised I never expected to be primarily identified as a cancer patient Following a typical combination of chemotherapy radiation surgery and more chemo I was presumably cancer free when my post treatment scans looked clean Nonetheless within a year I received a terminal diagnosis cancer had metastasized in my lungs Thus began my year as a dead woman a time of chaotic emotions new priorities and rapid fire plans and changes Expecting the unexpected became a theme in my life but the things that turned out to be most shocking are social familial and even my expectations about what is realistic for a dead woman to be or do Preconceptions about a terminal cancer diagnosis frequently are based on popular culture depictions of cancer and dying which can be misleading as a guide for knowing what to expect when you're expecting to die This memoir provides one woman's often irreverent pop culture illustrated guide to life that deconstructs some common preconceptions about living with a terminal diagnosis

[Song of the Season](#) Thomas Hischak, 2024-03-21 What links the popular songs You'll Never Walk Alone Send in the Clowns Memory and I Am What I Am They all originated in Broadway musicals *Song of the Season* is for those who believe that the score is at the heart of a musical and is the essential building block on which the rest of a show is built Through a systematic historical survey from 1891 to 2023 it argues that the best musicals survive because of their songs from early 20th century classics such as *Show Boat* and *Oklahoma* through to the contemporary sound of *Dear Evan Hansen* and *Hamilton* looking at outstanding songs from each Broadway season the development and history of the musical is illustrated with a fresh perspective As song styles and popular music tastes changed throughout the decades this structure charts the progress of American showtunes alongside popular music forms as songs evolved from the waltz and ragtime to jazz rock rap and hip hop Factual analysis and historical context combine to

offer a rich picture of the American songbook from Irving Berlin to Elton John *Song of the Season* paints a fresh picture for musical theatre students and fans alike illustrating significant changes in the form through the music Analyzed in an accessible and engaging way that doesn't rely on music theory knowledge and including a link to playlist where all the songs of the seasons can be listened to it is a must have for those looking to expand their knowledge of the form and trace the social history of the American showtune
