Long-Haired Kings and Other Studies in Frankish History J.M. Wallace-Hadrill, 1989 *The Long-Haired Kings* J.M. WALLACE-HADRILL, 2020-12-31 Originally published in 1962 *The Long Haired Kings* is split into two parts The first is concerned with the history of France in the period of gestation between the end of Roman imperial room in Gaul and the emergence of medieval France in the tenth century It is principally concerned with the Franks their institutions laws and writers The second half acts as an introduction to the hitherto unpublished study of Frankish kingship and surveys Merovingian rule from its beginning in the Rhineland wastes to the metamorphosis as Carolingian rule This book is a unique contribution to the study of medieval history and was one of the first books of its time to provide a unique study of European languages

The Long-haired Kings John Michael Wallace-Hadrill, 1982 Originally published by Methuen and Company Ltd 1962 **Language and History in the Early Germanic World** D. H. Green, Dennis Howard Green, 2000-08-28 This book presents linguistic evidence for many aspects of pre Christian and early medieval European culture *From Clovis to Charlemagne: Frankish History and Historians* Roger Collins, 2025-09-25 This book is a collection of papers on Frankish historiography in the Merovingian and early Carolingian periods from the late sixth to early ninth centuries and studies numerous individual texts evaluating their witness to the events they describe It also includes hitherto unpublished items on the so called Chronicle of Fredegar in both its original and eighth century versions and also an entirely new article on the

Merovingian dynastic crisis of 613 along with a general introduction and a bibliography of its author's writing. Particular attention is focused on the element of deception deliberate or otherwise in the narrative accounts of some of the Frankish histories and chronicles and on the way they were written in order to promote specific interpretations of certain individuals and events or in some cases to conceal their very existence. Certain central episodes such as the imperial coronation of Charlemagne are examined to detect the ways in which they were interpreted and presented in contemporary texts. From Clovis to Charlemagne Frankish History and Historians will appeal to academics and students interested in the history of early medieval France, the processes of historical composition in that period, the study of manuscripts relating to it and the wider questions about historical understanding and the interpretation of evidence. **New Approaches to State and Peasant in Ottoman History** Halil Berktaş, Suraiya Faroqhi, 2016-04-06. Debates on the world historical place of the Ottoman Empire in the last few decades have been conducted mainly in Turkey but increasingly concepts have been introduced into the conversation from the study of European, Chinese and Central Asian history. This book first published in 1992 examines the nature of the Ottoman state from a variety of perspectives: economic, political and social. *The Oxford Illustrated History of Medieval Europe* George Holmes, 1988. The individual chapters are scholarly and up to the minute without loss of accessibility or pace. The illustrations are many, apposite and refreshingly unhackneyed. Times Literary Supplement.
