Los Nuevos Movimientos Sociales De La Ideología A La Identidad:

A Social History of Spanish Labour José A. Piqueras, Vicent Sanz Rozalén, 2007 Focusing on organization resistance and political culture this collection represents some of the best examples of recent Spanish historiography in the field of modern Spanish labor movements Topics range from socialism to anarchism from the formation of the liberal state in the 19th century to the Civil War and from women in the work place to the fate of the unions under Franco BOOK JACKET

Política del disenso Xavier Godàs i Pérez, 2007 Política del disenso es un libro que contribuye a clarificar cómo se desarrollan los movimientos sociales contemporáneos Fija su atención en aquel tipo de movilizaciones que tienen como propósito general la radicalización de la democracia en contextos democráticos y para ello se apoya en las teorías sociológicas que han estudiado diferentes fenómenos de protesta política desde el fin de la segunda guerra mundial hasta hoy día **Los Nuevos movimientos sociales** Enrique Laraña, Joseph R. Gusfield, 1994 El rea de los movimientos sociales constituye una perspectiva clave para el análisis de los conflictos que se multiplican en los países avanzados porque permite vincular el nivel abstracto desde el que suele formularse su interpretación con datos empíricos sobre las organizaciones y los actores que las protagonizan Al comienzo de los años noventa el papel central de los movimientos sociales en la brusca transformación de los sistemas comunistas en los países de Europa del Este de Europa represent un desafío a las teorías prevalecientes en este campo que no permitían unas explicaciones satisfactorias de los hechos al tiempo que mostr sus dificultades para precedir estos fenómenos En Occidente el desafío que ha supuesto el surgimiento de nuevas formas de acción colectiva constituye un fenómeno paralelo al declive del movimiento obrero Este desafío es abordado en este libro y es conceptualizado como un positivo impacto epistemológico de los movimientos sociales contemporáneos ya que ha contribuido al desarrollo de este rea de estudio y a la creciente influencia de las perspectivas constructivistas compartidas por la mayoría de los autores El libro se ocupa de las principales cuestiones planteadas por los cambios en las formas de acción colectiva y contiene datos e ideas que permiten entenderlos mejor *Political Power and Social Theory* Diane E. Davis, Julian Go, 2009-12-21 It is time to consider changes in the field of comparative historical sociology as the discipline seeks to accommodate old and new trends as well as the transforming spatial scales in which political power and social theory are increasingly embedded This title showcases articles that pursue similar themes *Participando en la Red* Elena Grau, 2001 **Ciudadanía y solidaridad** Ángel Calle Collado, 2000 En la primera parte se estudian los movimientos sociales en general y en la segunda parte se estudian los movimientos sociales solidarios en España y el presente y el futuro de los movimientos solidarios internacionales 01 10

Movimientos sociales. Subjetividad y acción de los trabajadores desocupados en Argentina Martín Retamozo, 2009 Un excelente estudio de la experiencia de los desocupados que elaboraron una demanda por trabajo y construyeron formas de organización y movilización social sin precedentes en América Latina A partir de entrevistas con los participantes de base la visita a las organizaciones y el registro de acciones de protesta se analiza la conformación de una

subjetividad colectiva subalterna capaz de significar el desempleo como un da o una injusticia y producir acciones que cuestionan un orden de dominaci n

Handbook of Social Movements across Latin America Paul Almeida, Allen Cordero Ulate, 2015-07-14 This handbook covers social movement activities in Latin American countries that have had profound consequences on the political culture of the region It examines the developments of the past twenty years such as a renewed upswing in popular mobilization the ending of violent conflicts and military governments new struggles and a relatively more democratic climate It shows that from southern Chiapas to Argentina social movements in the 1990s and especially in the 2000s have reached new heights of popular participation There is a lack of research on the politics of this region in the contemporary era of globalization this volume partially fills the void and offers a rich resource to students scholars and the general public in terms of understanding the politics of mass mobilization in the early twenty first century The contributors each address social movement activity in their own nation and together they present a multidisciplinary perspective on the topic Each chapter uses a case study design to bring out the most prominent attributes of the particular social struggle s for instance the main protagonists in the campaigns the grievances of the population and the outcomes of the struggles This Handbook is divided into seven substantive themes providing overall coherence to a broad range of social conflicts across countries issues and social groups These themes include 1 theory of Latin American social movements 2 neoliberalism 3 indigenous struggles 4 women s movements 5 movements and the State 6 environmental movements and 7 transnational mobilizations

The Social Roots Of Basque Nationalism Alfonso Pérez-Agote, 2006-03-08 Translated by Cameron Watson and William A Douglass Foreword by William A Douglass The Basque people have preserved their ethnic identity and sense of themselves as a separate community despite centuries of repression diaspora and economic and social upheaval one of the most remarkable achievements in the history of the phenomenon we call nationalism In *The Social Roots of Basque Nationalism* sociologist Alfonso P rez Agote addresses the social mechanisms that Basques employed to sustain their ethnic identity under the Franco Regime and demonstrates how persecution actually encouraged the extension of Basque nationalist consciousness He also reveals how state political pressure radicalized one element of the Basque nationalist movement resulting in the formation of ETA an armed terrorist wing that itself became a

mechanism for extending nationalist consciousness Finally he examines the subsequent changes in Basque nationalism following Franco's death and the extension of democracy in Spain which resulted in the institutionalization of the movement into an autonomous political power This work is based in part on interviews and polls with informants in the Basque Country and abroad eliciting such data as the role that family education social contacts and religious environment play in the evolution of political attitudes the place of violence in the Basque world view and contemporary political culture regional variations in Basque nationalism and the factors that contributed to the resilience of Basque nationalism in adapting to new historical conditions The result is a sophisticated discussion of the various ways in which Basque social reality is constituted and how this reality helps to create political culture Because Pérez Agote situates his discussion within the broader frameworks of ethnic identity group dynamics and the nature of nationalism the book makes a significant contribution not only to our understanding of the Basques but to the broader study of the evolution of nationalism and the nation state political violence and the complicated transition of any society from dictatorship to democracy

sociales de la década ganada Astor Massetti, Marcelo Gómez, 2018-11-12 De qué manera impacta el proceso político comandado por los Kirchner sobre las trayectorias de politización que observamos? Cómo leer los cambios en la movilización colectiva durante la década ganada? Los movimientos sociales en la década ganada avanza en la comprensión de las transformaciones sociopolíticas iniciadas en 2003 comprendiendo al período como uno de reconfiguración de la politización de los sectores populares y una transformación en la cultura política de manera integral que dislocó el rol del Estado impuesto por el neoliberalismo en la década de los 90. Los diversos autores y movimientos sociales se encuentran atravesados por 3 ejes analíticos: el estado y la política, la relación de estos movimientos con la emergencia de nuevas demandas, intereses o aspiraciones y la generación de nuevos marcos interpretativos y la producción de sentido en torno a su movilización.
