Physical Characteristics of Early Films as Aids to Identification Camille Blot-Wellens,2022-01-19 Any archivists who have held a piece of film in their hands wondering how to go about identifying it recognize the true value of film preservationist Harold Brown s work In 1967 Brown delivered a pioneering lecture on the identification of early films at the annual Congress of the International Federation of Film Archives FIAF in East Berlin Years of working with Britain s National Film Archive collections and the close examination of thousands of nitrate prints of the silent period made Brown a leading authority on early film identification and an unsurpassed model of methodological consciousness in the archival field In 1990 FIAF published Brown s *Physical Characteristics of Early Films as Aids to Identification* an updated version and a continuation of his 1967 lecture This publication has long been archivists trusted companion constituting a concentrated encyclopedia on all the information that can be discovered or verified through aspects of the film other than the actual projected image such as perforation shapes embossed and punched marks stock manufacturers and producers edge marks frame characteristics title styles and production serial numbers It also included essays on key individual production companies of the silent era Over the last 30 years this manual a basic typewritten 100 page volume including 20 pages of black white illustrations with its easily recognizable red cover has been an invaluable reference for film archivists and scholars However as Brown himself acknowledged in the 1990 edition the manual was far from definitive Camille Blot Wellens the editor of this new expanded edition of Brown s 1990 book belongs to the new generation of researchers who have used *Physical Characteristics* extensively in their work and have gathered considerable new information on the subject This new edition is the result of a project she initiated in 2014 with FIAF s support Brown s original text is now augmented with new original research on key film manufacturers and producers by Camille Bolt Wellens and other leading archivists and researchers in the field Richly illustrated the book contains over 900 images including 125 in full color this new 336 page edition of Harold Brown s seminal manual will be welcomed by many and will no doubt become a must have working tool for many in the film archiving and academic fields **Nosferatu** Jim Shepard,2015-12-22 A New York Times Notable Book The richly imagined fictional life of one of cinema s founding fathers from National Book Award finalist Jim Shepard In 1907 while waiting for a train that would take him from his quiet rural hometown to university in cosmopolitan Berlin Friedrich Wilhelm Plumpe met Hans Ehrenbaum

Degele the great passion of his life Hans was the catalyst for Plumpe s transformation into F W Murnau the filmmaker best known for directing *Nosferatu* the iconic silent film adaption of Bram Stoker s *Dracula* as well as *The Last Laugh* *Sunrise* and *Tabu* As we follow Murnau from the airfields of the Great War to the caf s and clubs of Weimar Berlin to the virtual invention of filmmaking and from there to the South Seas we chart the progress of a man desperate to open himself to others but nonetheless continually at home in no house and in no country While devoted to those he loved Murnau remained hamstrung by self loathing and like his vampiric creation afraid of his own terrible inhumanness In his fascinating fictionalized biography of Murnau Jim Shepard author of the critically acclaimed *The Book of Aron* brings both Weimar era Germany and the early days of film to life in roaring irresistible detail delving into the heart and mind of a troubled genius and uncovering the inner turmoil of a reclusive and enigmatic cinema pioneer

Frank Borzage Hervé Dumont,2015-06-14 This work brings to readers of English a comprehensive and engaging treatment of one of America s greatest if largely forgotten film directors Dumont s celebrated 1993 study translated from the French by Jonathan Kaplansky offers complete coverage of Borzage s entire career the more than 100 films he made and the effect of those films on movie audiences especially between 1920 and 1940 Lavishly illustrated with 120 photographs the book also contains a complete filmography a chronological bibliography and an index

Expressionist Film Dietrich Scheunemann,2003 Beginning with a fundamentally new interpretation of *Dr Caligari* and with fresh views of other expressionist classics this book offers new perspectives on important alternative styles and genres that emerged in films by such eminent directors as Lubitsch Fritz Lang and E A Dupont

Nosferatu Cristina Massaccesi,2016-02-23 Unravels the never ending fascination exercised by the film and provides a clear guide to the film s contexts cinematography and possible interpretations covering the political and social contexts

The Visible and the Invisible in the Interplay between Philosophy, Literature and Reality Anna-Teresa Tymieniecka,2012-12-06 Merleau Ponty s categories of the visible and the invisible are investigated afresh and with originality in this penetrating collection of literary and philosophical inquiries Going beyond the traditional and current references to the mental and the sensory mind and body perceptual content and the abstract ideas conveyed in language etc these studies range from the hidden spheres of reality to the play of the visible and the invisible left as traces in works of human genius the origins of intellect and language the real and the imaginary in literature and the hidden realities in the philosophy of the everyday world These literary and philosophical probings collectively reveal the role of this disjoined conjoined pairing in the ontopoietic establishment of reality that is in the manifestation of the logos of life In tandem they bring to light the hidden play of the visible and the invisible in the emergence of our vital societal intimate intellectual and creative involvements

Panorámicas urbanas Gorostiza López, Jorge,2017-03-28 El cine naci cuando las ciudades comenzaron a transformarse en los complejos y problem ticos lugares que

habitamos hoy en día Las poblaciones desde entonces fueron el lugar donde se desarrollaron los argumentos de las películas y llegaron a tener en algunos casos un papel tan crucial como el de los protagonistas de carne y hueso En este libro se recorre desde el optimismo vivido en los años veinte del siglo pasado con la aparición de nuevas edificaciones como los rascacielos que transformaron las grandes ciudades hasta las fascinantes metrópolis actuales de países con economías en expansión que al mismo tiempo continúan sufriendo problemas de marginalidad y delincuencia Las 50 películas seleccionadas son primordiales para poder estudiar y al mismo tiempo entender y llegar a conocer cómo ha sido esa evolución de la ciudad hasta la actualidad así como para constatar la influencia de la imagen en movimiento en esas poblaciones
