**Indochina Chronology**, 1982      Loser's Luck Charles Tenney Jackson, 1905      Outlaws in Medieval and Early Modern England John C. Appleby, Paul Dalton, 2016-05-13

With some notable exceptions the subject of outlawry in medieval and early modern English history has attracted relatively little scholarly attention This volume helps to address this significant gap in scholarship and encourage further study of the subject by presenting a series of new studies based on original research that address significant features of outlawry and criminality over an extensive period of time The volume casts important light on and raises provocative questions about the definition ambiguity variety causes function adaptability impact and representation of outlawry during this period It also helps to illuminate social and governmental attitudes and responses to outlawry and criminality which involved the interests of both church and state From different perspectives the contributions to the volume address the complex relationships between outlaws the societies in which they lived the law and secular and ecclesiastical authorities and in doing so reveal much about the strengths and limitations of the developing state in England In terms of its breadth and the compelling interest of its subject matter the volume will appeal to a wide audience of social legal political and cultural historians
