Lind, 2017-11-01 Whereas biomedical and feminist literature treat abortion miscarriage and stillbirth as differently conceptualized events this collection explores the connections between these three categories How have feminist debates and strategies around reproductive choice invigorated the cultural conversation about miscarriage and stillbirth How can we imagine more nuanced engagements with the spectrum of experiences that are at stake when a pregnancy ends And how can we effectively create a space where pregnant people contend with the ways that loss makes meaning for those who grieve and or celebrate the end of pregnancy This collection centres pregnancy loss as an embodied and social phenomenon within a framework that understands pregnancy as a process with no guaranteed outcomes Interrogating Pregnancy Loss considers pregnancy as an epistemic source one that has the capacity to reveal the limits of our collective assumptions about temporality expectation narrative and social legitimacy By interrogating loss this collection argues that the lessons learned from loss have the capacity to serve our collective understandings of both the expected and unexpected rhythms of social and reproductive life [A Guide to](#)

**Grieving Pregnancy** Maureen L. Walsh, 2024-12-13 *In Grieving Pregnancy: Memorializing Loss in Japanese Buddhism and American Catholicism* Maureen L. Walsh compares how the two religious traditions respond ritually and discursively to miscarriage, stillbirth, and abortion experiences marked by grief for the women involved. The experience of pregnancy loss has always been a part of women's lives, yet only recently has it garnered attention from religious leaders and scholars commensurate with its prevalence. This book examines pregnancy loss as a theological problem for both Buddhism and Catholicism and analyzes the rites and memorials that have developed to address it, such as Japanese Buddhist *mizuko kuy* (water children) rites and emergent American Catholic memorial practices focused on pregnancy loss. These parallel practices have emerged within distinct religious landscapes, a fact reflected in their forms and purposes, and when considered together they raise questions of keen interest to theological and religious studies about the goals of religious practice and the imagination of human life at its earliest stages.
