Lost in the Supermarket Georgios Kyroglou,2024-12-17 Political consumerism refers to citizens use of boycotting and buycotting as they seek to influence political outcomes within the marketplace rather than through more traditional routes such as voting It is commonly understood as reflective of the progressively converging roles of the citizens and the consumers in late modernity In the aftermath of the Recession young people in particular are attempting to harness their individual consumer power to collectively express their political ethical and environmental considerations via their consumer choices The expansion of political consumerism among young people across several advanced liberal democracies has been theorised as a result of a wider cultural shift towards cosmopolitanism and postmaterialist value orientations and therefore as an outcome of affluence However the persistence of political consumerism as a preferred form of political participation among young people who were socialised under conditions of neoliberal austerity during and after the 2008 Global Financial Crisis calls for a re evaluation of these assumptions In particular given the susceptibility of political consumerism to a neoliberal modus operandi that attempts to commercialise citizenship itself the lack of literature problematising its emergence within a neoliberal socioeconomic context is indeed surprising This book addresses this gap by offering a detailed re evaluation of the underlying motivations values and identity orientations of young political consumers in a country of the European north United Kingdom as opposed to one of the European south Greece It will be of interest to academic specialists working in the areas of Political Sociology Youth Studies and Consumer Studies and scholars interested in political participation and political engagement

Lost in Transition Yiu-Wai Chu, 2013-05-13 In this timely and insightful book Yiu Wai Chu takes stock of Hong Kong s culture since its transition to a Special Administrative Region of the People s Republic of China in 1997 Hong Kong had long functioned as the capitalist and democratic stepping stone to China for much of the world Its highly original popular culture was well known in Chinese communities and its renowned film industry enjoyed worldwide audiences and far reaching artistic influence Chu argues that Hong Kong s culture was lost in transition when it tried to affirm its international visibility and retain the status quo after 1997 In an era when China welcomed outsiders and became the world s most rapidly developing economy Hong Kong s special position as a capitalist outpost was no longer a privilege By drawing on various cultural discourses such as film popular music and politics of everyday life Chu provides an informative and critical analysis of the impact of China s ascendancy on the notion of One Country Two Cultures Hong Kong can no longer function as a bridge between China and the world writes Chu and must now define itself from global local and national perspectives
