Lost Childhoods:

Lost Childhoods Michaela Soyer, 2018-11-20 *Lost Childhoods* focuses on the life course histories of thirty young men serving time in the Pennsylvania adult prison system for crimes they committed when they were minors. The narratives of these young men, their friends and relatives reveal the invisible yet deep seated connection between the childhood traumas they suffered and the violent criminal behavior they committed during adolescence. By living through domestic violence, poverty, the crack epidemic and other circumstances, these men were forced to grow up fast while familial ties that should have sustained them were broken at each turn. The book goes on to connect large scale social policy decisions and their effects on family dynamics and demonstrates the limits of punitive justice. *Lost Childhoods* Gregory J. Jurkovic, 2014-06-17 Parentification, the assumption of responsibility for the welfare of family members by children and adolescents, is increasing as a result of various forces both inside and outside of the family. Evidence suggests that pathological parentification of children has serious consequences for them and for succeeding generations as do other forms of maltreatment. This work is an exploration of the forces at work in families with parentified children and the treatment strategies that hold the promise of interrupting a cycle of destructive behaviour. The author begins by guiding the reader from conceptualization to possible causes and manifestations of parentification, facilitating a clear understanding of how and why this scenario is common. The second part of the book builds on this foundation to introduce methods of assessment, treatment and prevention. This part of the text includes insights into the professional, ethical and personal challenges faced by therapists who themselves have a history of pathological parentification. *Finding Lost Childhoods* Suellen Murray, 2017-08-01 This book explores care leavers' access to their personal records. People who grew up in care in previous decades may know little about their family nor understand why they were placed in care nor how decisions were made about their lives. Personal records can be a source of this information. Murray posits that it is crucial that those releasing these records understand their significance. Taking a person-centred approach, the book is based on the moving life history accounts of people who have sought their records. *Finding Lost Childhoods* highlights the importance of records to their identity formation, recounts what they discovered about themselves and their family and discusses the consequences of finding this information. With a focus on policy and practice implications, the book will be of particular interest to those engaged in the work of releasing records as well as care leavers themselves, professional bodies and students and scholars with an interest in social work, policy studies, welfare studies and youth work. *Lost Childhoods* Gregory J. Hoffman, 2024-01-11 This book offers a critical anthropological perspective on contemporary childhood in Haiti It is based on longitudinal ethnographic fieldwork carried out over a period of 13 years with vulnerable children in Haiti Diane M Hoffman raises important questions about how interventions by well meaning foreigners and white saviors often misrepresent Haitian culture and society as deficient while privileging their own emotions alongside supposedly universal ideas about children that reinforce their own power to define and intervene in Haitian lives She argues for a new approach to Haitian childhood that centers children s informal learning and self education alongside indigenous spirituality and constructions of personhood that can resist the hegemony of neo colonial and neo liberal forces Instead of representing the country and its children as a place of problems to be solved the book shows the importance prioritizing

aspects of Haitian world views in order to develop a more culturally informed understanding of childhood in Haiti that can support genuine social change

Childhood in a Global Perspective Karen Wells, 2015-02-02 The second edition of this compelling and popular book offers a unique global perspective on children's lives throughout the world. It shows how the notion of childhood is being radically re-shaped in part as a consequence of globalization. Taking an engaging historical and comparative approach, the book explores social issues such as how children are constituted as raced, classed and gendered subjects; how children's involvement in war is connected to the globalization of capitalism and organized crime; and how school and work operate as sites for the governing of childhood. The book discusses wide-ranging topics including children's rights, the family, children and war, child labour and young people's activism around the globe. In addition to updated literature throughout, the revised edition includes new chapters on migration and trafficking and the role of play. The book will continue to be of great value to students and scholars in the fields of sociology, geography, social policy and development studies. It will also be a valuable companion to practitioners of international development and social work as well as to anyone interested in childhood in the contemporary world.

Children, Childhood and Cultural Heritage Kate Darian-Smith, Carla Pascoe, 2013 Explores how the everyday experiences of children and their imaginative and creative worlds are collected, interpreted and displayed in museums and on monuments and represented through objects and cultural lore.

Equity as Praxis in Early Childhood Education and Care Zuhra Abawi, Ardavan Eizadirad, Rachel Berman, 2021-05-22 Equity as Praxis in Early Childhood Education and Care aims to map, deconstruct and engage with different models of equity as they pertain to the early childhood education landscape in Ontario. Drawing on marginalized narratives of gender, race, Indigeneity, disability and inclusion and migration, immigration and displacement, the authors discuss how to advance the field and make it more equitable for children, families, early childhood educators and all other practitioners. This edited collection outlines the current political climate of early childhood education and care in Ontario through a critical analysis of policies and dominant discourses of equity and inclusion. By prompting readers to reflect on and critique their understandings of children, families, communities and practices in the field, the authors seek to provide counternarratives to Eurocentric developmentalist hegemonies and an alternative strength-based approach to critical and transformative praxis. This vital text encourages rethinking how narratives of equity and inclusion are constructed and what this means for young children and their families in Ontario as well as throughout Canada. This is an essential resource for students in early childhood education and care, early childhood studies and education programs.

FEATURES Includes perspectives from multiple positionalities in the field to provide a critical and interdisciplinary approach. Draws on a reconceptualist lens to present a critique of developmentalist approaches. Encourages readers to engage with the content by practising critical self-examination and considering social factors and forces that inform their own concepts.
