## **Lost Fathers The Politics Of Fatherlessness:**

*Lost Fathers* Cynthia R. Daniels, 2000-04 This book brings together the voices of a highly diverse group of scholars to reflect on the culturally and politically charged concept of fatherlessness in contemporary American politics *Fatherhood Politics in the United States* Anna Gavanas, 2010-10-01 Are fathers being marginalized in the contemporary family Responding to fears that they are the self proclaimed fatherhood responsibility movement FRM has worked since the mid 1990s to put fatherhood at the center of U S national politics Anna Gavanas's *Fatherhood Politics in the United States* analyzes the processes reveals the internal struggles and traces the myths that drive this powerful movement Unlike previous investigations that rely on literary or other secondary sources *Fatherhood Politics* works from primary ethnographic material to represent a wider range of voices and actors Interacting with and interviewing members of the most powerful and well known national fatherhood organizations Gavanas observed Promise Keeper rallies men's workshops and conferences on masculinity fatherhood and marriage Providing a detailed overview of the different organizations involved and their various rhetorical strategies Gavanas breaks down the FRM into two major wings The pro marriage wing sees marriage as the key to solving all social problems while the fragile family organizations worry about unemployment racism and discrimination Gavanas uses her extensive anthropological fieldwork as the basis for discussions of gender sexuality and race in her analysis of these competing voices Taking us inside the internal struggles tensions and political machinations of the FRM Gavanas offers a behind the scenes look at a movement having real impact on current social policy *Fatherhood Politics* is an essential work for anyone interested in the politics of masculinity parenthood marriage race and sexuality **Essential Dads** Jennifer M. Randles, 2020-10-13 In *Essential Dads* sociologist Jennifer Randles shares the stories of more than 60 marginalized men as they sought to become more engaged parents through a government supported responsible fatherhood program Dads experiences serve as a unique window into long standing controversies about the importance of fathering its connection to inequality and the state's role in shaping men's parenting With a compassionate and hopeful voice Randles proposes a more equitable political agenda for fatherhood one that carefully considers the social and economic factors shaping men's abilities to be involved in their children's lives and the ideologies that rationalize the necessity of that involvement **New Family Values** Karen Struening, 2002-06-25 How many different kinds of families are there *New Family Values* provides a critical analysis of scholars and authors who argue that law and policy should be used to foster one model of the family the intact two parent heterosexual family Karen Struening argues that this position does not adequately address the problem it supposedly solves family dissolution and unnecessarily constrains personal liberty Healthy families may be necessary for civic unity and individual stability but there can be many different kinds of families **Nurturing Dads** William Marsiglio, Kevin Roy, 2012-01-01 American fathers are a highly diverse group but the breadwinning live in biological dad prevails as the fatherhood ideal Consequently policymakers continue to emphasize marriage and residency over initiatives that might help

foster healthy father child relationships and creative co parenting regardless of marital or residential status In Nurturing Dads William Marsiglio and Kevin Roy explore the ways new initiatives can address the social cultural and economic challenges men face in contemporary families and foster more meaningful engagement between many different kinds of fathers and their children What makes a good father The firsthand accounts in Nurturing Dads show that the answer to this question varies widely and in ways that counter the mainstream provide and reside model of fatherhood Marsiglio and Roy document the personal experiences of more than 300 men from a wide range of socioeconomic backgrounds and diverse settings including fathers to be young adult fathers middle class dads stepfathers men with multiple children in separate families and fathers in correctional facilities They find that most dads express the desire to have strong close relationships with their children and to develop the nurturing skills to maintain these bonds But they also find that disadvantaged fathers including young dads and those in constrained financial and personal circumstances confront myriad structural obstacles such as poverty inadequate education and poor job opportunities Nurturing Dads asserts that society should help fathers become more committed and attentive caregivers and that federal and state agencies work sites grassroots advocacy groups and the media all have roles to play Recent efforts to introduce state initiated paternity leave should be coupled with social programs that encourage fathers to develop unconditional commitments to children to co parent with mothers to establish partnerships with their children s other caregivers and to develop parenting skills and resources before becoming fathers via activities like volunteering and mentoring kids Ultimately Marsiglio and Roy argue such combined strategies would not only change the policy landscape to promote engaged fathering but also change the cultural landscape to view nurturance as a fundamental aspect of good fathering Care is a human experience not just a woman s responsibility and this core idea behind Nurturing Dads holds important implications for how society supports its families and defines manhood The book promotes the progressive notion that fathers should provide more than financial support and in the process bring about a better start in life for their children A Volume in the American Sociological Association s Rose Series in Sociology Male Femininities Dana Berkowitz,Elroi J. Windsor,C. Winter Han,2023-02-14 Innovative essays that explore how men perform femininity and what femininity looks like without women What counts as male femininity Is it simply men behaving in effeminate ways or is it the absence of masculinity Male Femininities presents a nuanced critical collection of essays that highlight the extent to which male femininities are neither an imitation of femaleness nor an emptying of masculinity These innovative essays focus on both gay and straight men and transmasculine and genderqueer people in their construction and performance of femininity thereby revealing the possibilities that open up when we critically examine femininity without women Male Femininities asks What does femininity look like for men The contributors highly regarded scholars and rising stars cover a range of topics including drag queens cosmetic enhancements trans fertility and gender non conforming childhoods Male Femininities illuminates what happens when we decouple femininity from female bodies and how even the smallest cracks

and fissures in the normative order can disrupt challenge and in some cases reaffirm our existing sex gender regime This volume pluralizes the concept of male femininities and leads readers through an exploration of how gender sex and sexuality are manifested in the United States today *Healthy Work* Namir Khan,Nina Nakajima,Willem H. Vanderburg,2004 The latest in a series focused on improving health conditions this volume addresses work environments bringing together diverse sources of literature that support preventive approaches to work design and organization This reference provides an overview of relevant literature to engineers managers accountants occupational health and safety specialists and industrial hygienists so that they and other professionals can understand what has caused our workplaces to become primary sources of physical and mental illness By focusing on diagnostic and prescriptive approaches managers can implement designs and decisions that prevent or greatly reduce undesired and harmful effects Other titles in the series include *Healthy Cities Sustainable Production Sustainable Energy* *Contemporary Fathering* Brid Featherstone,2009-04-15 APPROVED BY AUTHOR Since 1997 child welfare services have been faced with new demands to engage fathers or to develop father inclusive services This book emerges from work by the author as a researcher and educator over many years on the issues posed by this agenda for child welfare practitioners in a variety of contexts In locating fathers fathering and fatherhood within historical and social landscapes the book addresses issues seldom taken up in practice settings It explores diversity and complexity in fathering in different disciplines such as psychoanalysis sociology and psychology and analyses contemporary developments in social policies and welfare practices The author employs a feminist perspective to highlight the opportunities and dangers in contemporary developments for those wishing to advance gender equity A key strength of *Contemporary fathering* is its interdisciplinary focus It will be required reading for graduate and postgraduate students of social work social policy sociology and child and family studies Academic researchers will also find the book invaluable because of its breadth of scholarship **Rebuilding Catholic Culture** Ryan Nathan Scott Topping,Ryan Topping,2013-01-18 Rarely does a book come along that so succinctly explains the decline of modern culture articulates a defense of the Church s teachings and offers a hope filled path for building a civilization grounded in Catholic truth In these pages Dr Ryan Topping does all three pulling back the curtain on the false philosophies of the secularists and showing that in the West today the most formidable threat to freedom is not failing economies or Islam but secularism Our best defense he claims is a vibrant Catholic culture and our best hope for creating it lies in the principles found in the Catechism of the Catholic Church In *Rebuilding Catholic Culture* you ll discover sensible ways to begin restoring Catholic culture right now in your own life and family and in our larger communities as well in the theater in the classroom in our hospitals and even in the public square This profoundly accessible book will renew your confidence in the world transforming character of our Creed and in the potency of our Faith to shape and redefine the culture of the West Book jacket *Rights, Gender and Family Law* Julie Wallbank,Shazia Choudhry,Jonathan Herring,2009-12-04 There has been a widespread resurgence of rights talk in

social and legal discourses pertaining to the regulation of family life as well as an increase in the use of rights in family law cases in the UK the US Canada and Australia Rights Gender and Family Law addresses the implications of these developments and in particular the impact of rights based approaches upon the idea of welfare and its practical application There are now many areas of family law in which rights and welfare based approaches have been forced together But whilst to many they are premised upon different ethics respectively of justice and of care for others they can nevertheless be reconciled In this respect a central concern is the gender blind character of rights based approaches and the ontological and practical consequences of their employment in the gendered context of the family Rights Gender and Family Law explores the tensions between rights based and welfare based approaches explaining their differences and connections considering whether if at all they are reconcilable and addressing the extent to which they can advantage or disadvantage the interests of women children and men It may be that rights based discourses will dominate family law at least in the way that social policy and legislation respond to calls of equality of rights between mothers and fathers This collection however argues that rights cannot be given centre stage without thinking through the ramifications for gendered power relations and the welfare of children It will be of interest to researchers and scholars working in the fields of family law gender studies and social welfare
