themselves and their circumstances are not only articulated in but attained through the medium of their monologues

The Great Wall John Man, 2008-08-05 John Man brings the past to life by traveling along China's Great Wall vividly describing its obscure origins remarkable expansion and stunning physical presence *Human Cargo* Caroline Moorehead, 2024-09-04 An arresting portrait of the lives of today's refugees and a searching look into their future The word refugee is more often used to invoke a problem than it is to describe a population of millions of people forced to abandon their homes possessions and families in order to find a place where they may quite literally be allowed to live In spite of the fact that refugees surround us the latest UN estimates suggest that 20 million of the world's 6.3 billion people are refugees few can grasp the scale of their presence or the implications of their growing numbers Caroline Moorehead has traveled for nearly two years and across four continents to bring us their unforgettable stories In prose that is at once affecting and informative we are introduced to the men women and children she meets as she travels to Cairo Guinea Sicily the U.S. Mexico border Lebanon England Australia and Finland She explains how she came to work and for a time live among refugees and why she could not escape the pressing need to understand and describe the chain of often terrifying events that mark their lives *Human Cargo* is a work of deep and subtle sympathy that completely alters our understanding of what it means to have and lose a place in the world *Dark Continents* Ranjana Khanna, 2003-04-22 Argues that the psychoanalytic self was constituted through the specifically national colonial encounters of the late 19th and early 20th centuries and that therefore somewhat paradoxically perhaps psychoanalysis is crucial for understanding postcoloniality **Literature Connections to World History 712** Lynda G. Adamson, 1998-06-15 Identifying thousands of historical fiction novels biographies history trade books CD ROMs and videotapes these books help you locate resources on world history for students Each is divided into two sections In the first part titles are listed according to grade levels within specific geographic areas and time periods They are further organized by product type Both books cover world history from Prehistory and the Ancient World to 54 B.C. to the modern era Other chapters include Roman Empire to A.D. 476 Europe and the British Isles Africa and South Africa Australia New Zealand Pacific Islands and Antarctica Canada China India Tibet and Burma Israel and Arab Countries Japan Vietnam Korea Cambodia and Thailand and South and Central America and the Caribbean The second section has an annotated bibliography that describes each title and includes publication information and awards The focus is on books published since 1990 and all have received at least one award *Four Shakespearean Period Pieces* Margreta de Grazia, 2021-05-03 In the study of Shakespeare since the eighteenth century four key concepts have served to situate Shakespeare in history chronology periodization secularization and anachronism Yet recent theoretical work has called for their reappraisal Anachronisms previously condemned as errors in the order of time are being hailed as alternatives to that order Conversely chronology and periods its mainstays are now charged with having distorted the past they have been entrusted to represent and secularization once considered the driving force of the modern era no longer holds sway over the past or the present In light of this reappraisal can Shakespeare studies continue unshaken This is the question *Four Shakespearean Period Pieces*

takes up devoting a chapter to each term on the rise of anachronism the chronologizing of the canon the staging of plays in period and the use of Shakespeare in modernity's secularizing project To read these chapters is to come away newly alert to how these fraught concepts have served to regulate the canon's afterlife Margreta de Grazia does not entirely abandon them but deftly works around and against them to offer fresh insights on the reading editing and staging of the author at the heart of our literary canon
