Manual Of Definitive Surgical Trauma Care:

Manual of Definitive Surgical Trauma Care Kenneth D. Boffard, Jonathan White, 2024 Developed for the International Association for Trauma Surgery and Intensive Care IATSIC the Manual of Definitive Surgical Trauma Care 6e is ideal for training all surgeons and anaesthetists who manage trauma on an infrequent basis The Manual is updated every 4 years and reflects the most recent developments in patient management based on new evidence based information Its focus is on the importance of the multidisciplinary care of the trauma surgical patient This sixth edition has evolved and the all important section on the Non Technical Skills which are required has been expanded A significant number of the original guidelines in trauma have been archived as they are no longer pertinent or have been superseded The increasing and occasionally harmful role of non operative management NOM has been recognized The Military Environments and Austere Environments chapters have been substantially revised to reflect current multinational combat experience and broadened to reflect modern asymmetrical conflicts and the increased need for humanitarian intervention including military peacekeeping in which only one side wears a uniform Military weapons are used in major cities against the civilian population More recently urban non military populations have been the targets and victims of heavy military combat including use of ultra sophisticated weaponry Each situation carries its own spectrum of injury and responsibility of care Including website access to a selection of videos which provide an anatomic overview of surgical approaches this resource provides a gold standard educational and training resource to help prepare the relatively fully trained surgeon to manage the difficult injuries that might present to a major trauma centre

Manual of Definitive Surgical Trauma Care Kenneth D. Boffard, 2015-09-16 Few surgeons can both attain and sustain the necessary level of skill for decision making in major trauma without the necessary training Surgical training in the technical aspects of surgical care of the trauma patient allows for the development of appropriate judgement and decision making skills when treating traumatized patients with multiple injuries Developed for the International Association for Trauma Surgery and Intensive Care IATSIC the Manual of Definitive Surgical Trauma Care is ideal for training all surgeons who encounter major surgical trauma on an infrequent basis It is designed to support general surgeons who whether by choice or necessity are confronted with major surgical injury but may not necessarily have the experience or expertise required This edition is updated to incorporate recent developments and covers every aspect of surgical trauma care covered by the Definitive Surgical Trauma Care DSTC course It provides additional emphasis on anaesthesia and military components reflecting changes in worldwide surgical trauma experience Written by faculty who teach the DSTC Course this book will give you the confidence to focus on life saving surgical techniques when faced with challenging and unfamiliar incidents of trauma

Manual of Definitive Surgical Trauma Care 2E Kenneth Boffard, 2007-08-31 Unless dealing with injury regularly few surgeons can attain and sustain the level of skill necessary for decision making in major trauma This includes both the intellectual decisions and the manual dexterity required to perform all the manoeuvres needed

for surgical access and control These can be particularly challenging and may be infrequently required yet rapid access to and control of sites of haemorrhage following trauma can be life saving surgical intervention Many situations require specialist trauma expertise yet often this is simply not on hand within the available time frame Manual of Definitive Surgical Trauma Care Second Edition is written by the editorial board of the DSTCTM which is a short course focusing on the life saving surgical techniques and surgical decision making required for surgeons who deal with major surgical trauma on an infrequent basis This course supplements the well recognized and accepted American College of Surgeons Advanced Trauma Life Support ATLS course This manual is published in association with IATSIC the International Association for the Surgery of Trauma and Surgical Intensive Care and is written by an Editorial Board of surgeons who belong to that society IATSIC are broadening their reach and running more and more courses worldwide This new second edition has been updated to incorporate all recent developments in this rapidly progressing area It emphasizes how practical real life decisions on the care of the injured patient should be made and then covers in practical terms the surgical techniques required Every aspect of surgical trauma care is covered including the causation of injuries aids rapid understanding of presented trauma the initial pre hospital and emergency department care of the patient all of which may determine eventual outcome the resources required both physical and intellectual within the hospital to deal with the specific problems associated with patients with multiple injuries the limitations in providing specialist expertise within the time frame required It is an ideal practical manual for both trainees and qualified surgeons
