Mao Against Khrushchev A Short History:

Mao Against Khrushchev David Floyd, 1964 A Short History of Sino-Soviet Relations, 1917-1991 Zhihua Shen, 2019-10-31 Drawing on the rich trove of recently declassified Russian and Chinese archival materials this history of Sino Soviet relations in the 20th century sheds new light on key events during this period It offers fresh insights into the role of ideology and national interests in the evolution of the complex and turbulent relationship between not just the two countries but also their respective Communist Parties The chapters on the normalization of bilateral ties provide an in depth analysis of divisions in the socialist camp that culminated in both its collapse and the disintegration of the Soviet Union The book argues that 20th century Sino Soviet relations reflected both long standing and emerging political and geopolitical challenges facing members of the Cold War socialist camp in particular tensions between the ideal of internationalism and national aspirations between commitment to the principle of sovereignty and commitment to that of equality in international relations and between inter party relations and inter state relations This makes for a valuable addition to the reading lists of all those interested in the development of the relationship between two of the world s most important countries

Contending with Contradictions Mercy Kuo, 2001-01-01 A long overdue contribution to the study of Cold War history and Chinese foreign policy Contending with Contradictions provides an incisive interpretation of China s relations with Poland and its irreversible impact on the communist world Mercy A Kuo provides a unique contribution to the miniscule corpus of literature on the subject Her approach is threefold Kuo offers a comprehensive interpretation of the historical relevance of the PRC s policy towards Soviet Eastern Europe during this era she sheds new light on the intentions of the Chinese Communist Party and finally her research for the book was based on an archival approach utilizing post 1989 declassified sources Because this area of Cold War history has long been understudied and certainly without the benefit of newly available archival materials Kuo s study is the first of its kind **Triangles, Symbols, and Constraints** Charles M. Dobbs, 2010 In his five plus years as president of the United States Lyndon Johnson witnessed dramatic power struggles within and between the Soviet Union the People s Republic of China and the United States of America New Soviet leaders were determined to build Soviet power and extend Soviet influence Mao s revolutionary ideology so dominated China that there were few levers to move Sino American relations ahead Johnson wanted to ease Cold War tensions by reaching a range of agreements with the Soviet Union on nuclear weapons and establishing relations with the People s Republic of China in order to end its isolation in the world community However multiple events frustrated Johnson s good intentions The Soviet leadership that overthrew Nikita Khrushchev was committed to expanding its military might before negotiating with Washington it also began focusing more and more on the worsening Sino Soviet split Mao Zedong entered into the Great Proletarian Cultural Revolution and China seemed to devour itself Meanwhile the Vietnam War made negotiations among all three great powers more difficult limiting room to maneuver But Johnson persevered and by 1968 the apparent American

retreat symbolized by the North Korean seizure of the USS Pueblo and the Communist Tet Offensive in Vietnam along with the Soviet invasion of Czechoslovakia seemed to change the construct between the great powers Beijing emerging from the worst of the Cultural Revolution increasingly feared Soviet intentions and Moscow wanted to prevent a Sino American rapprochement Although Johnson did not achieve his lofty goals he created the pre conditions that Richard Nixon later harvested for the détente with Moscow and rapprochement with Beijing Johnson's best intentions fell prey to triangles symbols and constraints

American Foreign Policy and Political Ambition James Lee Ray, 2013-08-20 In his eagerly awaited second edition of *American Foreign Policy and Political Ambition* James Ray revisits his deceptively simple premise that the highest priority of leaders is to stay in power Looking at how political ambition and domestic pressures impact foreign policymaking is the key to understanding how and why foreign policy decisions are made The text begins by using this analytic approach to look at the history of foreign policymaking and then examines how various parties inside and outside government influence decision making In a unique third section the book takes a regional approach not only covering trends other books tend to miss but giving students the opportunity to think comprehensively about how issues intersect around the globe from human security and democratization to globalization and pollution Guided by input from adopters and reviewers Ray has thoroughly re organized the book and streamlined some coverage to better consolidate the historical institutional regional and topical chapters and focus the thematic lens of the book Ray has also brought the book fully up to date addressing the latest events in American foreign policy including the wars in Afghanistan and Iraq the killing of Bin Laden the WikiLeaks scandal and its aftermath the impact of social media on foreign policy and world affairs nuclear proliferation developments in U S Russian relations climate change and more

The Routledge Companion to World History since 1914 Chris Cook, John Stevenson, 2006-01-27 The Routledge Companion to World History since 1914 is an outstanding compendium of facts and figures on World History Fully up to date reliable and clear this volume is the indispensable source of information on a thorough range of topics such as the Arab Israeli conflict anti semitism and the Holocaust all the world's major famines and natural disasters since 1914 whether all countries of the world have a king president prime minister or other governance GNP of the world's major states year by year biographies of key figures civil rights movements the Vietnam War the rise of terrorism globalization Thematically presented the book covers topics relevant from the First World War to the Iraq war of 2003 and from post colonial Africa to conflicts and movements in Southeast Asia With maps chronologies and full bibliography this user friendly reference work is the essential companion for students of history politics and international relations and for all those with an interest in world history

Two Suns in the Heavens Sergey Radchenko, 2009 Using newly available archival sources *Two Suns in the Heavens* examines the dramatic deterioration of relations between the USSR and China in the 1960s whereby once powerful allies became estranged competitive and increasingly hostile neighbors Sergey Radchenko's authoritative account of these years shows how the intrinsic inequality of the Sino Soviet alliance seen

as entirely natural by the Russians but bitterly resented by the Chinese resulted in its ultimate collapse Through a careful and comprehensive investigation of policymaking in both Moscow and Beijing Radchenko creates a new framework for understanding the role of power struggle ideology personalities and culture in Sino Soviet relations *The Faces of Janus* A. James Gregor, 2004-03-04 Attempting to understand the catalogue of horrors that has characterised much of twentieth century history Western scholars generally distinguish between violent revolutions of the right and the left Fascist regimes are assigned to the evil right Marxist Leninist regimes to the benign left But this distinction has left us without a coherent understanding of the revolutionary history of the twentieth century contends A James Gregor in this insightful book He traces the evolution of Marxist theory from the 1920s through the 1990s and argues that the ideology of Marxism Leninism devolved into fascism Fascist regimes and Communist regimes both anti democratic ideocracies are far more closely related than has been recognised Employing wide ranging primary source materials in Italian German Russian and Chinese the book opens with an examination of the first standard Marxist interpretation of Mussolini s fascism in the early 1920s and proceeds through the emergence of fascist phenomena in post Communist Russia A clearer understanding of the relation between fascism and communism provides a sharper lens through which to view twentieth century history as well as the present and future politics of Russia Communist China and other non democratic states Gregor concludes **China and Russia** Philip Snow, 2023-03-14 A compelling expansive history of the relationship between China and Russia from the seventeenth century to the present Russia and China the largest and most populous countries in the world respectively have maintained a delicate relationship for four centuries In addition to a four thousand kilometer border they have periodically shared a common outlook on political and economic affairs But they are in essence profoundly different polities and cultures and their intermittent alliances have proven difficult and at times even volatile Philip Snow provides a full account of the relationship between these two global giants Looking at politics religion economics and culture Snow uncovers the deep roots of the two nations alignment We see the shifts in the balance of power from the wealth and strength of early Qing China to the Tsarist and Soviet ascendancies and episodes of intense conflict followed by harmony He looks too at the experiences and opinions of ordinary people which often vastly differed from those of their governments and considers how long the countries current amicable relationship might endure **The Origins of the Cultural Revolution** Roderick MacFarquhar, 1999-11 This is the final volume in a trilogy that examines the politics personalities economics culture and international relations of China from the mid 1950s to the mid 1960s It seeks to answer the central question Why did Chairman Mao Zedong launch the Cultural Revolution 1966 76 which plunged China into chaos and almost destroyed its Communist Party The Coming of the Cataclysm starts with the great famine of the early 1960s which resulted in tens of millions of deaths and set in train a series of emergency measures that increasingly divided Mao from his comrades in arms His anger that they were prepared to adopt capitalist methods to rescue the country was sharpened by his belief that Moscow had actually gone capitalist and sold out to

the imperialist West From 1961 to 1966 the period covered by this volume the increasingly urgent question for Mao was how to prevent a similar revolutionary degeneration in China The Cultural Revolution was his answer Drawing upon new evidence from Party documents personal interviews books and journals MacFarquhar details the growing rift between Mao and his colleagues as they attempted to cope with domestic privation and an increasingly hostile international environment until the Chairman finally decided to smash the unity of the Yan an Round Table by unleashing society against the party state
