Mayhew Janet Berry Hess, 2014-05-06 African American and American Indian artist Richard Mayhew was a pivotal member of the movement headed by Romare Bearden of the most important black artists of the Abstract Expressionist era Bearden's group Spiral was formed as a visual response to the March on Washington Mayhew associated with Jackson Pollock Robert Motherwell and Bearden and formed alliances with such African American artists as Faith Ringgold Norman Lewis Ed Clark and Emma Amos his work is exhibited in major collections and museums throughout the world This book explores his art and discusses the critical exclusion from the history of art of Native Americans and African Americans who are not figurative or narrative and creates a framework for reconsideration of such art , The Vienna Conventions on the Law of Treaties , 2025-10-29 The 1969 and 1986 Vienna Conventions on the Law of Treaties are essential components of the contemporary international legal order Codifying to a significant extent the customary rules that pre-existed in the field they aim at regulating what has become the main source of public international law and a crucial tool in inter-state relations This fully updated second edition provides both international and national lawyers with an in-depth analysis of each provision of both Conventions taking into account the substantial developments of the last decade The structure of each commentary is essentially uniform the first part is dedicated to the exposition of that provision's object and purpose and to the assessment of its customary status while the second part focuses on the main issues of interpretation raised by the provision in question Extensive reference is made to the travaux préparatoires of both Conventions including the work of the UN International Law Commission and the proceedings of the 1969 and 1986 diplomatic conferences and to practice both prior to and following the adoption of the Conventions The volume contains contributions from over 120 authors from over thirty different countries including some of the most renowned experts in international law Not only does this ensure the high quality of the analysis but it also provides the reader with a reflection of the wide range of perspectives existing in the international scholarship on the law of treaties **Painting the Inhabited Landscape** Margaretta M. Lovell, 2023-03-27 The impulse in much

nineteenth-century American painting and culture was to describe nature as a wilderness on which the young nation might freely inscribe its future the United States as a virgin land that is unploughed unfenced and unpainted Insofar as it exhibited evidence of a past its traces pointed to a geologic or cosmic past not a human one The work of the New England artist Fitz H Lane however was decidedly different In this important study Margaretta Markle Lovell singles out the more modestly scaled explicitly inhabited landscapes of Fitz H Lane and investigates the patrons who supported his career with an eye to understanding how New Englanders thought about their land their economy their history and their links with widely disparate global communities Lane's works depict nature as productive and allied in partnership with humans to create a sustainable balanced political economy What emerges from this close look at Lane's New England is a picture not of a virgin wilderness but of a land deeply resonant with its former uses and a human history that incorporates rather than excludes

Native Americans as shapers of land and as agents in that history Calling attention to unexplored dimensions of nineteenth century painting *Painting the Inhabited Landscape* is a major intervention in the scholarship on American art of the period examining how that body of work commented on American culture and informs our understanding of canon formation **Art Books 1980-1984** R.R.
