NATO and European Security Alexander Moens, Lenard J. Cohen, Allen G. Sens, 2003-03-30 From the end of the Cold War to the terrorist attacks on the United States in September 2001 the NATO Alliance has changed profoundly This book explores the multifaceted consequences of NATO's adjustment to new international and domestic political and security realities Internal Alliance politics and matters of relative power within the membership have strongly influenced recent NATO developments Several major issues challenging the Alliance are examined including how the impact of efforts to develop an enhanced common European security and defense policy have affected NATO whether missile defense is driving the United States and its European allies closer or further apart how the experience of NATO in the Balkans and elsewhere brought alliance members together or made NATO cohesion more difficult to maintain and in what way the changing role of NATO has influenced American and Canadian participation in the Alliance An important guidepost to pivotal changes and likely NATO developments scholars and policymakers of Atlantic and international politics will find these meditations indispensable A number of authors also speculate on the likely changes for the alliance that will ensue in the wake of the September 11 terrorist attacks and the possibility that NATO will soon modify its mission and responsibilities in reaction to the threat of international terrorism Indeed many of the same strategies and strains that affected NATO cohesion over the past decade are likely to complicate efforts to maintain Alliance unity as part of the anti terrorist coalition

Laqueur,L. Sloss,2013-11-11 Rarely if ever have the political economic and military foundations of the Western Alliance been in such a state of flux Walter Laqueur and Leon Sloss therefore deserve credit not just for the quality of the analysis in this superb book but also for the timeliness of its appearance As Laqueur says in his chapter Touring the Western European Defense Horizon if the likely development of European defense policies is not particularly reassuring at least it gives no grounds for despair The list of problems we face is a daunting one First there is the spiralling cost of defense expenditures particularly in the absence of significant NATO or inter European cooperation This is particularly serious in light of the reluctance to increase or even maintain current expenditures in the midst of Mikhail Gorbachev's peace offensive and the extraordinary changes in Eastern Europe both of which have had a dramatic impact on Western public opinion There is also a problem in the perceived relative economic decline of the United States vis a vis Western Europe and Japan which only exacerbates calls to reduce the number of American troops in Europe Other dangers to the political cohesion and military credibility of the alliance include demographic trends that threaten current manpower levels transatlantic acrimony over the burden sharing issue and political pressures particularly in West Germany toward denuclearization and even neutralism *The United States, Russia, and European Security* Amphas-Mampoua,2004
