to Islamicize the country while at the same time international globalization forces have been pulling in a different direction. Concluding that forces for change in Iran are currently building up, this is an extremely topical book that makes an important contribution to current debates surrounding democracy in Iran. Modernity, Sexuality, and Ideology in Iran Kamran Talattof, 2011-06-01. In Iran since the mid nineteenth century one issue has been a common concern: how should Iran become modern. More than a century of struggle for or against modernity has constituted much of the social, political, and cultural history of the country. In the decades since the 1979 Revolution, the question has become even more critical. In *Modernity, Sexuality, and Ideology in Iran*, Talattof finds that the process of modernity never truly unfolded due in large part to Iran's reluctance to embrace the seminal subjects of gender and sexuality. Talattof's approach reflects a unique look at modernity as advancement not only in industry and economy but also toward an open intellectual discourse on sexuality. Exploring the life and times of Shahrzad, a dancer, actress, filmmaker, and poet, Talattof illuminates the country's struggle with modernity and the ideological, traditional, and religious resistance against it. Born in 1946, she performed in several theater productions, became an acclaimed film star in the 1970s, and pursued a career as a journalist and poet. Following the revolution, she was imprisoned and eventually became homeless on the streets of Tehran. Her success and eventual decline as a female artist and entertainer illustrate the conflict between modernity and tradition and Iran's failure to embrace an overt expression of sexuality. Talattof also profiles several other female artists of the 1970s, analyzing their lives and work as windows through which to examine what Iranian culture allowed and what it repudiated. A pioneering and timely work, *Modernity, Sexuality, and Ideology in Iran* explores the integral role of popular culture and female artists in the shaping of modern Iran, constructing a new framework for understanding such crucial concepts as ideology and modernity. Sectarian Politics in the Persian Gulf Lawrence G. Potter, 2014-06-01. Long a taboo topic as well as one that has alarmed outside powers, sectarian conflict in the Middle East is on the rise. The contributors to this book examine sectarian politics in the Persian Gulf, including the GCC states, Yemen, Iran, and Iraq, and consider the origins and consequences of sectarianism broadly construed as it affects ethnic, tribal, and religious groups. They also present a theoretical and comparative framework for understanding sectarianism as well as country-specific chapters based on recent research in the area. Key issues that are scrutinized include the nature of sectarianism, how identity moves from a passive to an active state, and the mechanisms that trigger conflict. The strategies of governments, such as rentier economies and the invention of partisan national histories that encourage or manage sectarian differences, are also highlighted, as is the role of outside powers in fostering sectarian strife. The volume also seeks to clarify whether movements such as the Islamic revival or the Arab Spring obscure the continued salience of religious and ethnic cleavages. *Forced Into Faith* Innaiah Narisetti, 2010-10-28. In 1989, the United Nations General Assembly adopted the Convention on the Rights of the Child, proclaiming elementary rights for children worldwide. Among other provisions, the Convention safeguards children's religious freedom and their freedom of thought. But because child rearing is recognized as

the primary responsibility of parents the question of what children are raised to believe is left up to their mothers and fathers In this controversial critique of the UN Convention humanist Innaiah Narisetti forcefully argues that children s rights should include complete freedom from religious belief Narisetti proposes that the choice of religious belief or nonbelief should be deferred till adulthood Just as most societies recognize that marriage and civic responsibilities such as voting are adult prerogatives that children should not be allowed to exercise so should the choice of a belief system wait till an individual is competent to exercise mature judgment Narisetti cites numerous examples of the ways in which early religious indoctrination leads to later negative attitudes such as intolerance suspicion and outright hostility directed toward those who believe differently He also notes that religion provides a cloak for such obvious evils as sexual abuse genital mutilation and corporal punishment of children While most societies are quick to condemn such abuses Narisetti suggests that they should be willing to take the next logical step and look to the role of religion in such problems Including the complete text of the Convention on the Rights of the Child this candid unflinching critique of childhood religious education will provoke much thoughtful discussion

Postcolonizing the Commonwealth Rowland Smith,2006-01-01 Women and resistance in Iran cowboy songs fetal alcohol syndrome the conquest of Everest women settlers in Natal What do these topics have in common The study of what used to be called Commonwealth literature or the new literatures has by now come to be known as postcolonial study This collection of essays investigates the status of postcolonial studies today The contributors come from three generations the pioneers who introduced study of the new literatures into university English departments the next generation who refined and developed many of the theoretical positions embodied in postcolonial study and the next much younger generation who use the established practices of the discipline to investigate the application of this theory in a wide range of cultural contexts Although the authors write from such different starting points a surprisingly similar set of images phrases and topics of concern emerge in their essays They return constantly to issues of difference and similarity the re examination of categories that often appear to be too rigidly defined in current postcolonial practices and to concepts of sharing experience ideas of home and even the use of land Postcolonizing the Commonwealth Studies in Literature and Culture offers an intriguing analysis of the state of postcolonial criticism today and of the application of postcolonial methods to a variety of texts and historical events It is an invaluable contribution to the current debate in both literary and cultural studies The News Sorority Sheila Weller,2015-11-10 A provocative critique of three influential women in television broadcast news draws on exclusive interviews with colleagues and confidantes to reveal how their ambition intellect and talent rendered them cultural icons *Persian Mirrors* Elaine Sciolino,2000-10-03 No American reporter has more experience covering Iran or more access to the private corners of Iranian society than Elaine Sciolino As a correspondent for Newsweek and The New York Times she has reported on the key events of the past two decades She was aboard the airplane that brought Ayatollah Ruhollah Khomeini to Tehran in 1979 she was there for the Iranian revolution the hostage crisis the Iran Iraq war the rise of

President Mohammad Khatami and the riots of the summer of 1999 In Persian Mirrors Sciolino takes us into the public and private spaces of Iran the bazaars beauty salons aerobics studios courtrooms universities mosques and the presidential palace to capture the vitality of a society so often misunderstood by Americans She demystifies a country of endless complexity where on the streets women swathe themselves in black and behind high walls they adorn themselves with makeup and jewelry where the laws of Islam are the law of the land and yet the government advertises as tourist attractions the ruins of the pre Islamic imperial capital at Persepolis and the synagogue where Queen Esther is said to be buried and where even the most austere clerics recite sensual romantic poetry insisting that it refers to divine and not earthly love Iran is also a place with a dark side where unpredictable repression is carried out officially and unofficially by forces intent on maintaining power and influence Sciolino deftly uses her travels throughout Iran and her encounters with its people to portray the country as an exciting daring laboratory where experiments with two highly volatile chemicals Islam and democracy are being conducted Like the mirror mosaics found in Iran s royal palaces and religious shrines there is more to the whole of the country than the fragments revealed to outsiders Persian Mirrors captures this elusive Iran Sciolino paints in astonishing detail and rich color the surprising inner life of this country where a great battle is raging not for control over territory but for the soul of the nation
