War Department, 1916 Has suppl Compilation of orders Changes no 1 15 1917 1919 **Minnesota Law Review** , 1921 *Law of War: Can 20th-Century Standards Apply to the Global War on Terrorism?* , 2005 This monograph is the ninth offering in the Combat Studies Institute s CSI Global War On Terrorism GWOT Occasional Papers series The author a retired Army lieutenant colonel and CSI historian has produced a study that examines the evolution and continued applicability of the corpus that constitutes the law of war As background he provides a theoretical framework and the development of the law within Western and specifically U S Army doctrine and regulation He then presents a case study of the British suppression of the Mau Mau insurgency between 1952 and 1960 in Kenya a conflict with particular resonance today Some of the more relevant characteristics of the conflict include the clash between Western and non Western cultures and an initially asymmetric fight between conventional security forces and loosely organized poorly equipped insurgents It makes no claim that every lesson learned by the British during that counterinsurgency operation can be directly applied by the United States to the challenges of the GWOT but this analysis does offer some insight about applying the law of war to an unfamiliar non Western environment The genesis of this study is the public discourse asserting the possibility that the GWOT may require new rules and new law of war prescripts This important discussion is fraught with complexities and long term implications the moral force in warfare is incredibly significant and any changes to the legal framework in place must be very carefully considered Do we follow the law of war to the letter do we remain consistent with the principles of Geneva or do we approach the conflict as a new challenge requiring fundamental revisions to the law According to the author law of war violations are neither necessary nor excusable for successful prosecution of military operations in any environment and because the law of war in its current form is more than adequate to face the new GWOT challenges it does not warrant revision *Monthly Bulletin. General of the Army: 1918 United States. Army. Judge Advocate General's Department, United States. Army. Office of the Judge Advocate General, 1919 *DA Pam* , 1959 **International Law and the War with Islamic State** Saeed Bagheri, 2021-07-15 Armed non state actors ANSAs often have economic aims that international law needs to respond to This book looks at the aim of Islamic State to create an effective government with an economically independent regime which focused on key oilfields in Syria and Iraq Having addressed Islamic State s quest for energy resources in Iraq and Syria the book explores the lawfulness of the war with Islamic State from a variety of legal aspects It has been attempted to make inroads into the most controversial aspects of contradictions in the application of jus ad bellum and jus in bello particularly when discussing the use of extraterritorial armed force against ANSAs and the obligation to protect civilian objects including the natural environment The question is whether the targeting of energy resources should be regarded as a violation of the laws of armed conflict even though the war with Islamic State being classified as a non international armed conflict Ambitious in scope the study argues that legal theory and state practice are still problematic as to how and under what conditions states can justify resorting to military force in foreign territory and to what extent they can target natural resources as being part of state property Furthermore it goes on to examine the differences between international and non international armed conflicts to establish whether there is any difference in the targeting of energy resources as part of the war sustaining capabilities of either party Through an examination of the Islamic State case the book offers a comprehensive study to close the gaps in jus in bello by contextualising the questions of civilian protection victimisation and state responsibility by evaluating the US s war sustaining theory as a justification for the destruction of a territorial state s natural resources that are occupied by ANSAs **April 1, 1917 to December 31, 1917** United States.
