Geoff Stray, 2009-05-21 An illustrated encyclopedic overview of the prophecies calendars and theories that indicate the year 2012 is a threshold of great change for humanity Looks at the scientific and anthropological evidence for the rare galactic alignment due to occur in December 2012 Sifts through the catastrophic theories to show what we might really expect in 2012 In December of 2012 the Mayan Calendar's Great Cycle will come to an end Opinion remains divided as to whether apocalyptic scenarios of worldwide destruction or utopian visions of a spiritually renewed humanity will prevail after this key date has passed What is certain however is that a rare galactic alignment will occur one so unique that it is found at the core of many wisdom traditions from around the globe Geoff Stray has been collecting the vast amounts of data relating to the 2012 phenomena since 1982 Far from confining his research to the Maya who provide the most prominent predictions indicating this date will herald significant changes for humanity he has studied the prophetic traditions of other cultures including the Tibetan Chinese Jewish Ethiopian and tribal cultures from around the globe to show the kind of convergence of cosmic purposes happening along a number of parallel tracks This book offers an extensive study of many modern theories including Terence McKenna's timewave zero and Maurice Cotterell's sunspot research as well as anomalous phenomena such as near death experiences and crop circles Sifting through all the scientific research and speculation that the year 2012 has inspired Geoff Stray provides an encyclopedic look at what we might really expect on this pivotal date **Jung and the Jungians on Myth** Steven Walker, 2014-04-08 Carl Gustav Jung 1875-1961 was never more insightful and intriguing than when he discussed mythology The key to understanding the Jungian approach to mythology lies in the concept of the image which provides the basis for his theory of the unconscious By emphasizing the image over the word Jungian psychology distinguishes itself dramatically from Freudian Lacanian and other psychologies that stress the task of interpreting the language the words of the unconscious In Jung and the Jungians on Myth Steven Walker carefully leads the reader through the essential lines of thought in Jungian psychology before developing his method for using Jungian ideas to approach mythological texts Whether one is sympathetic

toward Jung's ideas or critical of them one will find in Walker's discussion a lucid introduction to Jungian perspectives on myth and psychology

From the Bodies of the Gods Earl Lee, 2012-05-16 The origins of modern religion in human sacrifice ritual cannibalism visionary intoxication and the Cult of the Dead Explores ancient practices of producing sacred hallucinogenic foods and oils from the bodies of the dead for ritual consumption and religious anointing Explains how these practices are deeply embedded in the symbolism theology and sacraments of modern religion specifically Christianity and the Eucharist Documents the rites of Cults of the Dead from the prehistoric Minoans on Crete to the ancient Egyptians Greeks and Hebrews to early and medieval Christian sects such as the Cathars Long before the beginnings of civilization humans have been sacrificed and their flesh used to produce sacred foods and oils for use in religious rites Originating with the sacred harvest of hallucinogenic mushrooms from the corpses of shamans and other holy men these acts of ritual cannibalism and visionary intoxication are part of the history of all cultures including Judeo Christian ones and provided a way to commune with the dead These practices continued openly into the Dark Ages when they were suppressed and adapted into the worship of saintly bones or continued in secret by a few heretical sects such as the Cathars and the Knights Templar While little known today these rites remain deeply embedded in the symbolism theology and sacraments of modern religion and bring a much more literal meaning to the church's Holy Communion or symbolic consumption of the body and blood of Christ Documenting the sacrificial cannibalistic and psychoactive sacramental practices associated with the Cult of the Dead from the prehistoric Minoans on Crete to the ancient Egyptians and Hebrews and onward to early and medieval Christian sects Earl Lee shows how these religious rites influenced the development of Western religion In particular he reveals how Christianity originated with Jesus's effort to restore the sacred rites of Moses including the Marzeah or Feast for the Dead Examining the connections between these rites and the mysterious funeral of Father Sauniere in Rennes le Chateau the author explains why the prehistoric Cult of the Dead has held such power over Western civilization so much so that its echoes are still heard today in our literature film and arts
