Long Slow Burn Sexing Up The Social Sciences:

Long Slow Burn Kath Weston, 2013-09-13 Kath Weston's powerful collection of essays *Long Slow Burn* challenges the preconception that queer studies is the brainchild of the humanities and argues that social science has been talking about sex all along To deny this one would have to overlook Kinsey's pioneering sex research in the 1950s or the psychiatrist Evelyn Hooker's pathbreaking study of homosexuality but also in the sex talk that lies at the heart of classic debates on kinship inequality cognition and other foundational topics in the social sciences What is different now Weston claims is the way sexuality has been isolated from other contemporary issues Not content with its ghettoization as a contained subfield Weston refuses to draw an artificial line around sexuality

Gender in Real Time Kath Weston, 2018-10-24 After decades of innovative scholarship that galvanized a field and shattered a world of preconceptions the study of gender now appears to languish It has been a long while since the publication of a provocative and influential text like Judith Butler's *Gender Trouble* Kath Weston argues that the problem is one of time For too long gender studies has been preoccupied with the visual with ample attention given to issues of performativity and embodiment all at the expense of time *Gender in Real Time* makes a provocative and important new argument that will revolutionize the field of gender studies Introducing temporality into the equation and examining the ways gender exists Weston uses the tools of political economy the history of mathematics Darwinian evolution and a bit of physics to propel gender studies toward the future Startling new concepts like zero gender and the meaning of time claims are introduced Moreover the impact of our time sensitive society with its ever increasing need for speed and accelerated development is explored for its effect on the production of gender With chapter titles including *Unsexed The Ghosts of Gender Past and The Global Economy Next Time* this book offers a pioneering addition to the field that will forever change our notion of gender

Forthcoming Books Rose Arny, 1998-04 [Lesbians in Television and Text after the Millennium](#) R. Beirne, 2008-09-15 Taking up such issues as mainstreaming the male gaze and female masculinity this book puts forward provocative readings of little explored texts and offers new insights into the contemporary representation of lesbians

Children, Sexuality and Sexualization Jessica Ringrose, 2016-04-29 This volume presents a ground breaking collection of interdisciplinary chapters from international scholars which complicate and offers new ways to make sense of children's sexual cultures across complex political social and cultural terrains

Internet Inquiry Annette N. Markham, Nancy K. Baym, 2008-07-17 This collection of dialogues is the only textbook of its kind *Internet Inquiry Conversations About Method* takes students into the minds of top internet researchers as they discuss how they have worked through critical challenges as they research online social environments Editors Annette N Markham and Nancy K Baym illustrate that good research choices are not random but are deliberate studied and internally consistent Rather than providing single how to answers this book presents distinctive and divergent viewpoints on how to think about and conduct qualitative internet studies Key Features and Benefits Presents each chapter in the form of a question in order to provoke

explicit consideration of key issues Illustrates choices made within larger disciplinary contexts to help students blend approaches think broadly and conduct internet research with the benefit of multiplicity Offers a range of perspectives in each chapter to vividly demonstrate that there are many ways to answer methodological challenges well Includes contributors from multiple disciplines and across the globe Provides a highly reflexive writing style that allows readers to see processes that are rarely visible in finished research reports Intended Audience This edited volume is an excellent supplementary text for a variety of advanced undergraduate and graduate courses such as Internet Research Research Methods Qualitative Research Methods and Computer Mediated Communication in the departments of communication media studies sociology and anthropology It will assist new scholars as well as seasoned practitioners in this arena make informed choices in how they conduct inquiry

movements and allies to center an analysis that critiques the relationship between colonialism and heteropatriarchy By answering critical turns in Indigenous scholarship that center Indigenous epistemologies and methodologies contributors join in reshaping Native studies queer studies transgender studies and Indigenous feminisms Based on the reality that queer Indigenous people experience multilayered oppression that profoundly impacts our safety health and survival this book is at once an imagining and an invitation to the reader to join in the discussion of decolonizing queer Indigenous research and theory and by doing so to partake in allied resistance working toward positive change Lesbian Motherhood Róisín Ryan-Flood, 2009-05-27 This book studies the growing number of lesbian women embarking on parenthood after coming out Theoretical debates about lesbian motherhood often consider its assimilative or transgressive dimensions This book offers a different approach contextualising lesbian motherhood in relation to sexual citizenship and hegemonic discourses of kinship
