Los Heroes Errantes Historia De Agustin Codazzi 17931822:

Cartographic Expeditions and Visual Culture in the Nineteenth-Century Americas Ernesto Capello, Julia B.

Rosenbaum, 2020-11-16 During the nineteenth century gridding graphing and surveying proliferated as never before as nations and empires expanded into hitherto unknown territories Though nominally geared toward justifying territorial claims and collecting scientific data expeditions also produced vast troves of visual and artistic material This book considers the explosion of expeditionary mapping and its links to visual culture across the Americas arguing that acts of measurement are also aesthetic acts Such visual interventions intersect with new technologies with sociopolitical power and conflict and with shifting public tastes and consumption practices Several key questions shape this examination What kinds of nineteenth century visual practices and technologies of seeing do these materials engage How does scientific knowledge get translated into the visual and disseminated to the public What are the commonalities and distinctions in mapping strategies between North and South America How does the constitution of expeditionary lines reorder space and the natural landscape itself The volume represents the first transnational and hemispheric analysis of nineteenth century cartographic aesthetics and features the multi disciplinary perspective of historians geographers and art historians Los héroes errantes Giorgio

Walters Pomare, 2023-04-01 El Departamento Archipiélago de San Andrés Providencia y Santa Catalina tiene el nombre más largo de los Entes Territoriales de la República de Colombia Es el único departamento desconectado territorialmente del país Es el único bilingüe inglés español Es el único con régimen jurídico especial en el cual se limita la observancia de algunos derechos fundamentales del orden constitucional es el único oceánico y con el más extenso mar territorial 300 000 km² aproximadamente cuyo territorio terrestre es apenas de 48 km² estimado Sin embargo en su inmensa mayoría no se aplican las especiales disposiciones constitucionales conferidas por el constituyente y del congreso El país se está perdiendo la experiencia en ver funcionar a una nación atípica dentro del macro Estado colombiano Por qué Este trabajo propende estudiar el marco histórico y jurídico de este territorio **Mapping the Country of Regions** Nancy P. Appelbaum, 2016-05-23 The

nineteenth century was an era of breathtakingly ambitious geographic expeditions across the Americas The seminal Chorographic Commission of Colombia which began in 1850 and lasted about a decade was one of Latin America's most extensive The commission's mandate was to define and map the young republic and its resources with an eye toward modernization In this history of the commission Nancy P Appelbaum focuses on the geographers fieldwork practices and visual production as the men traversed the mountains savannahs and forests of more than thirty provinces in order to delineate the country's territorial and racial composition Their assumptions and methods Appelbaum argues contributed to a long lasting national imaginary What jumps out of the commission's array of reports maps sketches and paintings is a portentous tension between the marked differences that appeared before the eyes of the geographers in the field and the

visions of sameness to which they aspired The commissioners and their patrons believed that a prosperous republic required a unified and racially homogeneous population but the commission s maps and images paradoxically emphasized diversity and helped create a country of regions By privileging the whiter inhabitants of the cool Andean highlands over those of the boiling tropical lowlands the commission left a lasting but problematic legacy for today s Colombians **El caribe**
