Losing It All to Sprawl Bill Belleville, 2006-03-27 Losing It All to Sprawl is the poignant chronicle of award winning nature writer Bill Belleville and how he came to understand and love his historic Cracker farmhouse and relic neighborhood in central Florida even as it was all wiped out from under him Belleville's narrative is eloquent informed and impassioned a saga in which tractors and backhoes trample through the woods next to his home in order to build the backbone of Florida sprawl the mall As heavy machinery encircles Belleville and his community the noise growing louder and closer displacing everything Belleville has called home for the past fifteen years he tells a story that is much older 10 000 years older The story stretches back to the Timucua and the Mayaca living in harmony with Florida's environment the conquistadors who expected much from but also feared this land of flowers the turn of the century tourists modernizing and climatizing the state the original Cracker families who lived in Belleville's farmhouse In stark contrast to this millennia long transformation is the whiplash of unbridled growth and development that threatens the nearby wilderness of the Wekiva River system consuming Belleville's home and ultimately his very sense of place In Florida one of the nation's fastest growing states and where local and state governments encourage growth balancing use with preservation is an uphill battle Sprawl spreads into the countryside consuming not just natural lands but Old Florida neighborhoods and their unique history In Losing It All to Sprawl Belleville accounts for the impacts social political natural personal that a community in the crosshairs of unsustainable growth ultimately must bear but he also offers Floridians and anyone facing the blight of urban confusion the hope that can be found in the rediscovery and appreciation of the natural landscape The Tropic of Cracker Al Burt, 2009-03-01 Miami Herald columnist Al Burt's tribute to Crackers or lovers of the real Florida Zora Neale Hurston Marjorie Kinnan Rawlings Virgil Hawkins John DeGrove Harry Crews and lots of everyday folks who have in common their memory of Florida as a wild rare place Historic Osceola County Jim Robison, 2009 An illustrated history of Osceola County Florida paired with histories of the local companies **Al Burt's Florida** Al Burt, 2025-06-24 This book takes readers on a tour of Florida through the writing of Al Burt longtime reporter for the Miami Herald exploring the charm substance and fantasy of a complex and fascinating state **Come to My Sunland** Julia Winifred Moseley, Betty Powers Crislip, 2020-10-14 Like so many midwesterners since Julia Daniels and Charles Scott Moseley moved to Florida in the 1880s seeking a warmer climate This collection of Julia's letters mainly to her husband who made frequent business trips north and to her close friend Eliza Slade reveals the struggle of a cultured urban woman adjusting to the hardship and isolation of life in pioneer Florida And then coming to love it Tramping through the unsullied land surrounding the Limona community near Tampa where they settled she gloried in her neglected corner in the Garden of Eden where she could look up fifty feet and see air plants growing on the branches of great oaks and hundreds of ferns nodding in the sunlight and gray moss moving through the trees like mist Think of me gazing up among crane's nests with redbirds in my own oaks she wrote Even in the

nighttime a mocking bird often sings to me of all the beautiful things I love Julia herself a published writer selected these unedited letters and copied them for her family into a thick leather book Like characters in a novel the friends and relatives she describes crackle with personality a flamboyant Russian proclaims his version of communism a New England spinster counters with Utopian visions and a university professor retreats from the ivory tower to agricultural experimentation Readers observe Julia s flair for making daily life cheerful and they meet the couple s two adored sons and Scott s children by an earlier marriage as well as Cracker settlers cattle runners and assorted seekers of health or wealth An artist Julia created a distinctive home designed and decorated in the manner of the pre Raphaelites Her palmetto fiber wall covering was exhibited at the Chicago World s Fair in 1893 and survives today The Florida house named The Nest is on the National Register of Historic Places Accompanied by 71 photographs of Julia s home and family these letters transcend the life of one woman to capture the experience and spirit of 19th century Florida Paving Paradise Craig Pittman,Matthew Waite,2010-05-25 Florida possesses more wetlands than any other state except Alaska yet since 1990 more than 84 000 acres have been lost to development despite presidential pledges to protect them How and why the state s wetlands are continuing to disappear is the subject of Paving Paradise Journalists Craig Pittman and Matthew Waite spent nearly four years investigating the political expedience corruption and negligence on the part of federal and state agencies that led to a failure to enforce regulations on developers They traveled throughout the state interviewed hundreds of people dug through thousands of documents and analyzed satellite imagery to identify former wetlands that were now houses stores and parking lots Exposing the unseen environmental consequences of rampant sprawl Pittman and Waite explain how wetland protection creates the illusion of environmental protection while doing little to stem the tide of destruction *The Life World: Herman's Adventures in Sustainability* Shari Anker,2008-12-20 An unusual visitor teaches a young college student a radical new sustainability paradigm in this lighthearted fable From the smallest to the largest living systems from cells and bacteria to the human body to ecosystems to the planet as a whole readers will learn how it is all connected For students of sustainability of all ages looking to envision a new Big Picture The Life World explores very different assumptions about how evolution works in living systems Just Three Principles of Life are used to accomplish this both simple and yet most challenging paradigm change Not satisfied with outlining this new philosophy alone the author tackles its application to the Florida Everglades global warming pollution and human health Prepare to be surprised Prepare to see the world differently Begin the work of true sustainability as a W ecologist Alligators in B-Flat Jeff Klinkenberg,2013-04-16 With a keen eye for detail and a lyrical style Jeff Klinkenberg sets his sights on the contradictions that make up the Sunshine State No one else would think to engage a professional symphony orchestra tuba player to find out whether bull gators will thunderously bellow back at a low B flat during mating season they do but only to that pitch From fishing camps and country stores to museums and libraries Klinkenberg is forever unearthing the magic that makes Florida a place worth celebrating

Land of Sunshine, State of Dreams Gary R Mormino, 2008-09-01 Florida is a story of astonishing growth a state swelling from 500 000 residents at the outset of the 20th century to some 16 million at the end As recently as mid century on the eve of Pearl Harbor Florida was the smallest state in the South At the dawn of the millennium it is the fourth largest in the country a megastate that was among those introducing new words into the American vernacular space coast climate control growth management retirement community theme park edge cities shopping mall boomburbs beach renourishment Interstate and Internet Land of Sunshine State of Dreams attempts to understand the firestorm of change that erupted into

modern Florida by examining the great social cultural and economic forces driving its transformation Gary Mormino ranges far and wide across the landscape and boundaries of a place that is at once America's southernmost state and the northernmost outpost of the Caribbean From the capital Tallahassee a day's walk from the Georgia border to Miami a city distant but tantalizingly close to Cuba and Haiti Mormino traces the themes of Florida's transformation the echoes of old Dixie and a vanishing Florida land booms and tourist empires revolutions in agriculture technology and demographics the seductions of the beach and the dynamics of a graying population and the enduring but changing meanings of a dreamstate Beneath the iconography of popular culture is revealed a complex and complicated social framework that reflects a dizzying passage from New Spain to Old South New South to Sunbelt

Ditch of Dreams Steven Noll, David Tegeder, 2009-11-22 For centuries men dreamed of cutting a canal across the Florida peninsula Intended to reduce shipping times it was championed in the early twentieth century as a way to make the mostly

rural state a center of national commerce and trade Rejected by the Army Corps of Engineers as not worthy the project received continued support from Florida legislators Federal funding was eventually allocated and work began in the 1930s but the canal quickly became a lightning rod for controversy Steven Noll and David Tegeder trace the twists and turns of the project through the years drawing on a wealth of archival and primary sources Far from being a simplistic morality tale of good environmentalists versus evil canal developers the story of the Cross Florida Barge Canal is a complex one of competing interests amid the changing political landscape of modern Florida Thanks to the unprecedented success of environmental citizen activists construction was halted in 1971 though it took another twenty years for the project to be canceled Though the land intended for the canal was deeded to the state and converted into the Cross Florida Greenway certain aspects of the dispute including the fate of Rodman Reservoir have yet to be resolved **Frank Lloyd Wright's Florida Southern**

Klinkenberg,2009-09-20 No wonder Jeff Klinkenberg loves Florida At any time of year he can find a place in the state that's ripe to enjoy or a person whose story has aged to perfection Arranged by season the book opens in the fall which Klinkenberg says is like spring in the north a time of celebration Having survived our harshest season we feel renewed Fair weather good food and the joys of nature lie ahead described here in essays that are like time capsules of old Florida values Preserving the past they reveal Klinkenberg's waggish appreciation of the state's history folkways and landscape not to mention its barbecued ribs smoked mullet stone crab claws and fresh lemonade Many pieces focus off the beaten path and on modern rogues who seem to turn their backsides to the subdivisions and shopping malls that pave the state Miss Ruby whose fruit stand features rutabagas boiled peanuts and her own brightly colored plywood paintings an 85 year old resident of the remote island of Cayo Costa who hums Beethoven while she hunts for shells the scientists who test mosquito repellent in Everglades National Park and the unofficial caretaker of Lilly Spring on the Santa Fe River who greets canoeists wearing glasses a necklace and on occasion a synthetic fur loincloth Other pieces pay homage to Klinkenberg's literary heroes who ve
