Practices of Wonder Sophia Vasalou, 2012-10-29 Wonder has often occupied a place of unique importance across a variety of human practices and intellectual activities At different times and historical periods it has been hailed as the beginning of philosophy and as the end that philosophy should aspire to pursue as the motive force of scientific quests and their fruit as the aim of art and the means art uses to accomplish its aims and as the religious experience par excellence and the hallmark of a deeper spiritual life Yet despite the special relationship it has borne to many of our most highly valued intellectual and spiritual practices wonder remains a neglected and understudied notion This volume aims to redress this neglect bringing together a collection of essays drawn from different disciplines to consider the sense of wonder from a number of complementary perspectives What is wonder What role has it historically played in philosophy science art and aesthetics and the religious or spiritual life Can wonder be dangerous Is wonder an experience in which we should or indeed could aspire to dwell Why among human experiences should it be prized Contributors Mary Jane Rubenstein Stephen Mulhall Sylvana Chrysakopoulou Derek Matravers Michel Hulin Alexander Rueger Robert Fuller David Burrell Claude Olivier Doron Sophia Vasalou

readers on a journey back to one amazing season in American life The summer of 1927 began with one of the signature events of the twentieth century on May 21 1927 Charles Lindbergh became the first man to cross the Atlantic by plane nonstop and when he landed in Le Bourget airfield near Paris he ignited an explosion of worldwide rapture and instantly became the most famous person on the planet Meanwhile the titanically talented Babe Ruth was beginning his assault on the home run record which would culminate on September 30 with his sixtieth blast one of the most resonant and durable records in sports history In between those dates a Queens housewife named Ruth Snyder and her corset salesman lover garroted her husband leading to a murder trial that became a huge tabloid sensation Alvin Shipwreck Kelly sat atop a flagpole in Newark New Jersey for twelve days a new record The American South was clobbered by unprecedented rain and by flooding of the Mississippi basin a great human disaster the relief efforts for which were guided by the uncannily able and insufferably pompous Herbert Hoover Calvin Coolidge interrupted an already leisurely presidency for an even more relaxing three month vacation in the Black Hills of South Dakota The gangster Al Capone tightened his grip on the illegal booze business through a gaudy and murderous reign of terror and municipal corruption The first true talking picture Al Jolson's *The Jazz Singer* was filmed and forever changed the motion picture industry The four most powerful central bankers on earth met in secret session on a Long Island estate and made a fateful decision that virtually guaranteed a future crash and depression All this and much much more transpired in that epochal summer of 1927 and Bill Bryson captures its outsized personalities exciting events and occasional just plain weirdness with his trademark vividness eye for telling detail and delicious humor In that year America stepped out onto the world stage as the main event and *One Summer* transforms it all into narrative nonfiction of the highest order *The Global Nomad* Greg Richards, Julie Wilson, 2004-01-01 Backpackers have shifted from the margins of the travel industry into the global spotlight This volume explores the international backpacker phenomenon drawing together different disciplinary perspectives on its meaning impact and significance Links are drawn between theory and practice setting backpacking in its wider social cultural and economic context *1,000 Books to Read Before You Die* James Mustich, 2018-10-02 The ultimate literary bucket list THE WASHINGTON POST Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that's as compulsively readable entertaining surprising and enlightening as the 1 000 plus titles it recommends Covering fiction poetry science and science fiction memoir travel writing biography children's books history and more 1 000 Books to Read Before You Die ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the recommendation You have to read this But it's not a proscriptive list of the great works rather it's a celebration of the glorious mosaic that is our literary heritage Flip it open to any page and be transfixed by a fresh take on a very favorite book Or come across a title you always meant to read and never got around to Or like browsing in the best kind of bookshop stumble on a completely unknown author and work and feel that tingle of discovery There are classics of course and

unexpected treasures too Lists to help pick and choose like Offbeat Escapes or A Long Climb but What a View And its alphabetical arrangement by author assures that surprises await on almost every turn of the page with Cormac McCarthy and The Road next to Robert McCloskey and Make Way for Ducklings Alice Walker next to Izaak Walton There are nuts and bolts too best editions to read other books by the author if you like this you ll like that recommendations and an interesting endnote of adaptations where appropriate Add it all up and in fact there are more than six thousand titles by nearly four thousand authors mentioned a life changing list for a lifetime of reading 948 pages later you still want more THE
