Manufacturing The News:

Manufacturing the News Mark Fishman, 1988-09-01 Argues that the bias of mass media is largely created by its dependence on government and corporate bureaucracies as the main source of raw news material Manufacturing the News Mark Steven Fishman, 1900 *Manufacturing the News* Mark Fishman, 2014-11-17 There is little argument that mass media news projects a particular point of view The question is how that bias is formed Most media critics look to the attitudes of reporters and editors the covert news policy of a publisher or the outside pressures of politicians and advertisers Manufacturing the News takes a different tack Mark Fishman's research shows how the routine methods of gathering news rather than any hidden manipulators determine the ideological character of the product News organizations cover the world mainly through beats which tend to route reporters exclusively through governmental agencies and corporate bureaucracies in their search for news Crime for instance is covered through the police and court bureaucracies local politics through the meetings of the city council county commissioners and other official agencies Reporters under daily deadlines come to depend upon these organizations for the predictable steady flow of raw news material they provide It is part of the function of such bureaucracies to transform complex happenings into procedurally defined cases Thus the information they produce for newswriters represents their own bureaucratic reality Occurrences which are not part of some bureaucratic phase are simply ignored Journalists participate in this system by publicizing bureaucratic reality as hard fact while accounts from other sources are treated as unconfirmed reports which cannot be published without time consuming investigation Were journalists to employ different methods of news gathering Fishman concludes a different reality would emerge in the news one that might challenge the legitimacy of prevailing political structures But under the traditional system news reports will continue to support the interests of the status quo independently of the attitudes and intentions of reporters editors and news sources *The Decomposition of Sociology* Irving Louis Horowitz, 1994 The author examines the field of sociology and the closing of many sociology departments and then proposes an alternative positive view of social research Jacket Farm Implement News Buyer's Guide Farm Implement News Co., Chicago, Farm Implement News Company, 1909 **The Audience in the News** Dwight DeWerth-Pallmeyer, 2013-11-05 In recent years communication scholars have taken a renewed interest in analyzing the audience and its impact on the communication process Similarly news editors and producers have often turned toward a marketing orientation which seeks to give new readers and viewers what they want or at least what they say they want Yet there has still been little written about just how the audience factors into the news which is produced Seeking to fill that niche this book argues that audience images are quite important in the construction of news but not easily detected That is because journalists are not principally interested in their audience they are interested in the news USE THIS PARAGRAPH ONLY FOR GENERAL CATALOGS This volume argues that although journalistic images of the audience may be incomplete they do exist and powerfully help shape the work of journalists in producing journalistic texts

Using a case study of news workers and news texts at two Chicago newsgathering organizations the Chicago Tribune and WGN TV this book examines notions of audience and how they have been treated by academicians presents a detailed description of the ways in which audience is embedded within the news construction process presents a very representative set of journalistic news values presents differing ideas of audience at three key levels of the news organizations reporters and news gatherers editors and producers and senior editors producers and news directors and seeks to summarize and position this study within the larger body of mass communication research

Manufacturers' News ,1929 *Engineering News-record* ,1917 **The Paper Mill and Wood Pulp News** ,1921 **Manufacturing Consent** Edward S.

Herman,Noam Chomsky,2011-07-06 A compelling indictment of the news media s role in covering up errors and deceptions The New York Times Book Review due to the underlying economics of publishing from famed scholars Edward S Herman and Noam Chomsky With a new introduction In this pathbreaking work Edward S Herman and Noam Chomsky show that contrary to the usual image of the news media as cantankerous obstinate and ubiquitous in their search for truth and defense of justice in their actual practice they defend the economic social and political agendas of the privileged groups that dominate domestic society the state and the global order Based on a series of case studies including the media s dichotomous treatment of worthy versus unworthy victims legitimizing and meaningless Third World elections and devastating critiques of media coverage of the U S wars against Indochina Herman and Chomsky draw on decades of criticism and research to propose a Propaganda Model to explain the media s behavior and performance Their new introduction updates the Propaganda Model and the earlier case studies and it discusses several other applications These include the manner in which the media covered the passage of the North American Free Trade Agreement and subsequent Mexican financial meltdown of 1994 1995 the media s handling of the protests against the World Trade Organization World Bank and International Monetary Fund in 1999 and 2000 and the media s treatment of the chemical industry and its regulation What emerges from this work is a powerful assessment of how propagandistic the U S mass media are how they systematically fail to live up to their self image as providers of the kind of information that people need to make sense of the world and how we can understand their function in a radically new way

Canadian Machinery and Manufacturing News ,1978 **The New Domestic Automakers in the United States and Canada** A.J. Jacobs,2015-12-16 Over the past forty years state provincial and local governments in the United States and Canada have provided foreign automakers with approximately 4 80 billion in incentives in order to lure light vehicles assembly plants to their areas This has included tax abatements infrastructure construction land giveaways job training programs and other subsidies As of early 2015 ten foreign vehicle makers operated 20 light vehicles in developed North America Despite the fact that all ten of these automakers have pursued a similar pattern first exporting vehicles into the United States and Canada before launching vehicle plants in developed North America each has followed its own specific historical development path and has created its own unique growth trajectory This book

provides a unique historical and qualitative review of these ten vehicle makers from their early beginnings to their export entry into the United States and or Canada through early 2015 In addition it chronicles the histories of more than a dozen former automakers and potential future foreign light motor vehicle assembly plants in the United States and Canada This includes the first foreign automaker to build its cars in the United States De Dion Bouton of France in July 1900 the early 20th Century endeavors of Fiat Mercedes and Rolls Royce and the present day hopes of Chinese and Indian automakers In the process the text also provides an assessment of the top competing states and sites for any future plants the possible incentives packages governments may offer to attract such facilities and an estimated incentive value for each automaker Overall the goal of this book is to expand the knowledge of policymakers at all tiers of government in the United States and Canada and to help them take a more holistic look at the pros and cons of attracting Automobile Manufacturing FDI It is hoped that this will enable them to make more informed decisions when pursuing a new foreign motor vehicle assembly plant Its findings should also prove informative to urban and regional planning political science sociology economics labor and international development scholars and students in North America and worldwide
