The Destruction of Medieval Manuscripts in England Krista A. Milne, 2025-03-28 The Dissolution of the Monasteries 1536 40 is widely held as the single most significant event in England's history of the destruction and loss of medieval manuscripts Despite this consensus the ultimate impact of the Dissolution and of medieval manuscript destruction during the centuries that followed remains unclear How did Reformation era losses compare to those which preceded the Reformation and to those that followed it How did the losses caused by sectarian conflicts compare to more quotidian kinds of loss such as improper storage or deliberate de acquisition Which manuscripts were targeted when were they targeted and how should one account for the inevitably skewed record In *The Destruction of Medieval Manuscripts in England* Krista A Milne asks these questions to better understand literary taste behavioural patterns and the circulation of knowledge throughout the medieval period Milne explores methods drawn from quantitative codicology to explore the most significant moments of manuscript loss in the history of England The evidence suggests that this destruction was much more limited in its targets but far more extensive in scope than is usually acknowledged Overwhelmingly throughout the investigation the manuscripts most at risk were those considered too new to qualify as antique but too old to be au courant This pattern of destruction which Milne describes as the principle of age without vintage remains apparent in many different domains today

The Cult of St Katherine of Alexandria in Early Medieval Europe Christine Walsh, 2017-05-15 St Katherine of Alexandria was one of the most popular saints in both the Orthodox and Latin Churches in the later Middle Ages yet there has been little study of how her cult developed before c 1200 This book redresses the balance providing a thorough examination of the way the cult spread from the Greek speaking lands of the Eastern Mediterranean and into Western Europe The author uses the full range of source material available including liturgical texts hagiographies chronicles and iconographical evidence bringing together these often disparate sources to map the way in which the cult of St Katherine grew from its early stages in the Byzantine Empire up to c 1100 its transmission to Italy and the introduction and development of the cult in Normandy and England up to c 1200 The book also includes appendices listing early manuscripts containing Katherine's Passio and including key original texts on St Katherine of the period This study will be welcomed by scholars of medieval history and the history of medieval art and as a case study for all those with an interest in the development of medieval saint's cults

Textual Magic Katherine Storm Hindley, 2023-08-16 An expansive consideration of charms as a deeply integrated aspect of the English Middle Ages Katherine Storm Hindley explores words at their most powerful words that people expected would physically change the world Medieval Europeans

often resorted to the use of spoken or written charms to ensure health or fend off danger Hindley draws on an unprecedented archive of more than a thousand such charms from medieval England more than twice the number gathered transcribed and edited in previous studies and including many texts still unknown to specialists on this topic Focusing on charms from 1100 to 1350 CE as well as previously unstudied texts in Latin French and English Hindley addresses important questions of how people thought about language belief and power She describes seven hundred years of dynamic shifting cultural landscapes where multiple languages alphabets and modes of transmission gained and lost their protective and healing power Where previous scholarship has bemoaned a lack of continuity in the English charms Hindley finds surprising links between languages and eras all without losing sight of the extraordinary variety of the medieval charm tradition a continuous deeply rooted part of the English Middle Ages

New Readings in the Vercelli Book Andy Orchard, Samantha Zacher, 2009-01-01

New Readings in the

Vercelli Book addresses central questions concerning the manuscript's intended use, mode of compilation and purpose and offers a variety of approaches on such topics as orthography, style, genre, theme and source study. **Bede** George Brown, Fred Biggs, 2025-10-01. This newest volume in a long running work of mapping the sources of Anglo-Saxon literary culture in England from 500 to 1100 CE takes up one of the most important authors of the period, the eighth-century monk scholar known as the Venerable Bede. Bede is best known as the author of the *Historia ecclesiastica gentis Anglorum* which is one of the key sources for our historical and cultural knowledge of the period. This collection covers that and more, drawing on manuscript evidence, medieval library catalogues, Anglo-Latin and Old English versions, citations, quotations and more, putting Bede and his work in the context of his period. Each entry in this case, the individual works by Bede have an introduction and encyclopaedic references.

The Sibyl and Her Scribes Anke Holdenried, 2017-05-15. The Sibylla Tiburtina is a Latin prophecy attributed to a prophetess from classical antiquity. It concludes with an account of the End of History involving the coming of the Antichrist and his battle with a Last World Emperor. Approximately 100 manuscripts written between the mid 11th and the 16th centuries survive which testify to the Tiburtina's immense popularity in the medieval West; as such, the Tiburtina is a key text for understanding medieval apocalypticism and occupies an important place in the intellectual history of the Middle Ages. However, studies of the manuscripts and the history of the text have been largely neglected in comparison with other similar works, so little is currently known about who copied and read the prophecy. Dr. Holdenried's research fills this gap. This study is based on an examination of all surviving manuscripts and includes an analysis of the textual material which accompanies the Tiburtina, a survey of titles and annotations as well as research on variant texts including several hitherto unknown. Modern historiography regards the Tiburtina solely as a vehicle for expressing contemporary political concerns triggered by crises thought to herald the End of the World. This book provides a much more varied picture and offers a new approach to the Tiburtina by placing it for the first time in the context of medieval traditions which saw Sibylline prophecy as independent, non-Christian evidence of Christ's life and as confirmation of His divinity. As is shown, these traditions had a major impact on the reception of the Tiburtina. The book concludes with a repertory of the manuscripts together with brief outlines of individual textual traditions as represented in groups of manuscripts which will constitute a valuable reference source for other scholars.
