## **Mao And China Inside Chinas Cultural Revolution:**

*Mao and China* Stanley Karnow,1984      Agents of Disorder Andrew G. Walder,2019-10-08 Why did the Chinese Communist Party state collapse so rapidly during the Cultural Revolution Consulting over 2 000 local annals chronicling some 34 000 revolutionary episodes across China Andrew Walder offers a new answer showing how the army brought in to quiet brewing rebellions escalated the violence that took nearly 1 6 million lives      **Mao Cult** Daniel Leese,2011-10-31 Although many books have explored Mao s posthumous legacy none has scrutinized the massive worship that was fostered around him during the Cultural Revolution This book is the first to do so By analyzing secret archival documents Daniel Leese traces the history of the cult within the Communist Party and at the grassroots level The party leadership s original intention was to develop a prominent brand symbol which would compete with the nationalists elevation of Chiang Kai shek However they did not anticipate that Mao would use this symbolic power to mobilize Chinese youth to rebel against party bureaucracy itself The result was anarchy and when the army was called in it relied on mandatory rituals of worship such as daily reading of the Little Red Book to restore order Such fascinating detail sheds light not only on the personality cult of Mao but also on hero worship in other traditions      *China During the Cultural Revolution, 1966-1976* Tony H. Chang,1999-01-30 One of the most tumultuous periods in modern Chinese history the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life including art music and drama education factory management economic planning and medical care Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades This comprehensive easy to use bibliography provides a guide to published English language sources on the Cultural Revolution With over a thousand entries it includes books monographs dissertations and audio visual materials on a broad range of topics from the military education religion and economics to foreign relations population art literature and drama Including titles published through the end of 1997 and a few in 1998 the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history      Mao Zedong and China's Revolutions NA NA,2016-04-30 Whether one views Mao Zedong as a hero or a demon the Great Helmsman was undoubtedly a pivotal figure in the history of 20th century China The first part of this volume is an introductory essay that traces the history of 20th century China from Mao s early career up to the Chinese Communist Party s victory in 1949 through three decades of revolution to Mao s death I 1976 The second half offers a selection of Mao s writings including such seminal pieces as On the New Democracy and selections from the Little Red Book and writings about Mao and his legacy by both his contemporaries and modern scholars Also included are headnotes a chronology Questions for Consideration photographs a selected bibliography and index      The Capitalist Dilemma in China's Cultural Revolution Sherman Cochran,2014-12-31 How can capitalists motivations during a Communist revolution be reliably documented and fully understood Up to now the answer to this question has generally eluded scholars

who for lack of nonofficial sources have fallen back on Communist governments official explanations But the essays in this volume confirm that at least in the case of the Communist revolution in China it is finally possible to make new and fresh interpretations By focusing closely on individuals and probing deeply into their thinking and experience the authors of these essays have discovered a wide range of reasons for why Chinese capitalists did or did not choose to live and work under communism The contributors to this volume have all concentrated on the dilemma for capitalists in China s Communist revolution But their approach to their subject through archival research and rigorous analysis may also serve as a guide for future thinking about a variety of other historical figures This approach is well worth adopting to explain how any members of society not only capitalists have resolved comparable dilemmas in all revolutions the ones in China Russia Vietnam Cuba or anywhere else
