Mao's China And Post-mao China: Revolution, Recovery And Rejuvenation Robert Weatherley, 2022-09-06 If the history of modern China was written as a book its author would be accused of losing touch with reality During the twentieth century China underwent two revolutions a number of wars endured a radical and destabilising form of communism and then hurried quickly towards a system of open market economics whilst remaining under the control of a nominally communist party Currently the fastest growing economy in the world with an increasingly sophisticated and expanding military China is widely expected to emerge as the world's next superpower eclipsing the United States in the not too distant future However not everything is going smoothly for Beijing Unemployment rates are spiralling inequality is rife and official corruption at all levels remains an Achilles heel for the Chinese Communist Party despite Xi Jinping's best endeavours to wipe it out Worst of all environmental degradation is at such a serious level that it threatens the success of the Chinese economy and the stability

of Chinese society Against this scarcely believable backdrop and based on a series of lectures seminars and research conducted by the author Mao's China and Post Mao China captures the dynamics dynamism and disasters of Chinese politics since the establishment of the People's Republic of China in 1949 This advanced textbook identifies three key themes that have underpinned the post revolutionary era the so called three Rs Revolution Recovery and Rejuvenation and is essential reading for anyone interested in the politics of modern China at the undergraduate and postgraduate level *Radicalism, Revolution, and Reform in Modern China* Catherine Lynch, Robert B. Marks, Paul G. Pickowicz, 2011-03-31 This volume illuminates the relationship of China's radical past to its reformist present as China makes a way forward through very differently conceived and contested visions of the future In the context of early twenty first century problems and the failures of global capitalism is China's history of revolutionary socialism an aberration that is soon to be forgotten or can it serve as a resource for creating a more fully human and radically democratic China with implications for all of us Ranging from the early years of China's revolutionary twentieth century to the present the essays collected here look at the past and present of China with a view toward better understanding the ideas ideals and people who have dared to imagine radical transformation of their worlds and to assess the conceptual political and social limitations of these visions and their implementations The volume's chapters focus on these issues from a range of vantage points representing a spectrum of current scholarship The first half of the book brings new insights to understanding how early twentieth century intellectuals interpreted ideas that allowed them to break with China's past and to envision new paths to a modern future It treats of Chen Duxiu a founder of the Communist party Mao Zedong and Mao in relation to the non Communist Liang Shuming and with the Dalai Lama With continuing threads of nation and nationalities of peasants utopias and dystopias linking the chapters the book's second half looks broadly at the consequences of the implementations of radical ideas at the same time critiquing our accepted frameworks of analysis Moving up to the present the book investigates the effects of the reforms since the 1980s on long term environmental degradation and on the emergence of a capitalist rural economy It gives an unsparing view into contemporary rural China through independent films The book concludes with an analysis of the unshakable persistence of the shibboleth the rise of China in popul City Versus Countryside in Mao's China Jeremy Brown, 2012-06-18 The gap between those living in the city and those in the countryside remains one of China's most intractable problems As this powerful work of grassroots history argues the origins of China's rural urban divide can be traced back to the Mao Zedong era While Mao pledged to remove the gap between the city worker and the peasant his revolutionary policies misfired and ended up provoking still greater discrepancies between town and country usually to the disadvantage of villagers Through archival sources personal diaries untapped government dossiers and interviews with people from cities and villages in northern China the book recounts their personal experiences showing how they retaliated against the daily restrictions imposed on them while traversing between the city and the countryside Vivid and harrowing accounts of forced and illicit

migration the staggering inequity of the Great Leap Famine and political exile during the Cultural Revolution reveal how Chinese people fought back against policies that pitted city dwellers against villagers

Environmental Change and Security Project Report ,2001 China Robert B. Marks,2011-12-16 This deeply informed and beautifully written book provides a comprehensive and comprehensible history of China from prehistory to the present Focusing on the interaction of humans and their environment Robert B Marks traces changes in the physical and cultural world that is home to a quarter of humankind Through both word and image this work illuminates the chaos and paradox inherent in China s environmental narrative demonstrating how historically sustainable practices can in fact be profoundly ecologically unsound The author also reevaluates China s traditional heroic storyline highlighting the marginalization of nature that followed the spread of Chinese civilization while examining the development of a distinctly Chinese way of relating to and altering the environment Unmatched in his ability to synthesize a complex subject clearly and cogently Marks has written an accessible yet nuanced history for any reader interested in China past or present Indeed he argues successfully that all of humanity has a stake in China s environmental future

The Cultural Revolution Frank Dikötter,2016-05-05 Acclaimed by the Daily Mail as definitive and harrowing this is the final volume of The People s Trilogy begun by the Samuel Johnson prize winning Mao s Great Famine The seminal English language work on the subject Sunday Times A major contribution to scholarship on modern China one that is unequalled certainly in the English language both revealing and rewarding reading for specialists and non specialists alike Literary Review After the economic disaster of the Great Leap Forward that claimed tens of millions of lives between 1958 and 1962 an ageing Mao launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy The stated goal of the Cultural Revolution was to purge the country of bourgeois capitalist elements he claimed were threatening genuine communist ideology But the Chairman also used the Cultural Revolution to turn on his colleagues some of them longstanding comrades in arms subjecting them to public humiliation imprisonment and torture Young students formed Red Guards vowing to defend the Chairman to the death but soon rival factions started fighting each other in the streets with semi automatic weapons in the name of revolutionary purity As the country descended into chaos the military intervened turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people When the army itself fell victim to the Cultural Revolution ordinary people used the political chaos to resurrect the market and hollow out the party s ideology In short they buried Maoism In depth interviews and archival research at last give voice to the people and the complex choices they faced undermining the picture of conformity that is often understood to have characterised the last years of Mao s regime By demonstrating that decollectivisation from below was an unintended consequence of a decade of violent purges and entrenched fear Frank Dikötter casts China s most tumultuous era in a wholly new light Written with unprecedented access to

previously classified party documents from secret police reports to unexpurgated versions of leadership speeches this third chapter in Frank Dik tter s extraordinarily lucid and ground breaking People s Trilogy is a devastating reassessment of the history of the People s Republic of China

Empire and Ecology in the Bengal Delta Debjani Bhattacharyya,2018-05-24 What happens when a distant colonial power tries to tame an unfamiliar terrain in the world s largest tidal delta This history of dramatic ecological changes in the Bengal Delta from 1760 to 1920 involves land water and humans tracing the stories and struggles that link them together Pushing beyond narratives of environmental decline Bhattacharyya argues that property thinking a governing tool critical in making land and water discrete categories of bureaucratic and legal management was at the heart of colonial urbanization and the technologies behind the draining of Calcutta The story of ecological change is narrated alongside emergent practices of land speculation and transformation in colonial law Bhattacharyya demonstrates how this history continues to shape our built environments with devastating consequences as shown in the Bay of Bengal s receding coastline

Modernization and Revolution in China June Grasso,Michael G. Kort,2015-05-18 Extensively revised and updated this popular text conveys the drama of China s struggle to modernize against the backdrop of a proud and difficult history Spanning the years from China s humiliating defeat in the Opium Wars to its triumphant hosting of the 2008 summer Olympics the authors narrate the major developments of that journey the breakdown of imperial China in the face of Japanese and Western encroachments Sun Yatsen and the founding of the Chinese republic the early struggles between the ideologies and armies of Chiang Kai shek and Mao Zedong China s bitter and costly war with Japan the final shootout that sent Chiang to Taiwan and Mao to Beijing the turbulent first decades of the People s Republic and the dramatic shift to a globalizing economic strategy This edition features all new analysis of issues facing China s leaders today including environmental challenges rural economic developments corruption the current economic climate China s relations with its neighbors and the United States the latest Tibet crisis and the reelection of Hu Jintao The authors have also incorporated some of the latest scholarship on Chinese historical events making this the best and most up to date brief text on modern China currently available

Chinese Society Elizabeth J. Perry,Mark Selden,2010 This bestselling introduction to Chinese society uses the themes of resistance and protest to explore the complexity of life in contemporary China An interdisciplinary and international team of China scholars draw on perspectives from sociology anthropology psychology history and political science and covers a broad range of issues Topics covered include labour and environmental disputes rural and ethnic conflict migration legal challenges intellectual and religious dissidence opposition to family planning The newly revised third edition adds two new chapters on gender and the family and the reform of the Hukou system thus providing a comprehensive text for both undergraduates and specialists in the field encouraging the reader to challenge conventional images of contemporary Chinese society

Perspectives on Environmental History in East Asia Ts'ui-jung Liu, Micah Muscolino, 2021-02-23 This edited volume engages with some of the most dynamic themes in current research on East Asian environmental history including agricultural science war and the environment imperial forestry oceanic history and the history of energy Chapters in this book supply an overview of environmental history as a rapidly expanding field continuing to generate valuable insights into the mutually constitutive relationship between human societies and the biophysical environment The book is divided into three parts Part I consists of three chapters related to land use while Part II includes five chapters that focus on water a topic of perennial concern among environmental historians of East Asia especially as it relates to irrigation food production and marine fisheries Part III consists of two chapters discussing the impact of new technologies on air quality in addition to the history of energy in East Asia which has emerged as an important area of inquiry at the intersection between both environmental history and the history of science and technology Perspectives on Environmental History in East Asia Changes in the Land Water and Air will appeal to students and scholars of East Asian studies environmental history and environmental sciences

Contested Environmentalisms Cheng Li, 2025-01-21 For decades tree planting and forestry have been pivotal to Chinese environmentalism During the Mao era while forests were razed to fuel rapid increases in industrial production the Greening the Motherland campaign promoted conservationist tree planting nationwide Contested Environmentalisms explores the seemingly contradictory rhetoric and desires of Chinese conservation from the early twentieth century through to the present Drawing on literary cinematic scientific archival and digital media sources Cheng Li investigates the emergence evolution and devolution of Chinese conservationist ideas Combining literary historical and environmental studies approaches he shows that these ideas acquired their value and assumed their power precisely because of their malleability and adaptability Li historicizes authoritarian environmentalism and probes the global local dynamics underlying conservationist ideas that energize environmental impulses in China Examining ethnic borderlands the Beijing political center and China's growth on the world stage this book demonstrates the strength of Chinese environmentalism to adapt and survive through tumultuous change lies in what seems to be a weakness its inconsistency and contestation

Tunguska Andy Bruno, 2022-06-30 In 1908 thunderous blasts and blazing fires from the sky descended upon the desolate Tunguska territory of Siberia The explosion knocked down an area of forest larger than London and was powerful enough to obliterate Manhattan The mysterious nature of the event has prompted a wide array of speculation and investigation including from those who suspected that aliens from outer space had been involved In this deeply researched account of the Tunguska explosion and its legacy in Russian society culture and the environment Andy Bruno recounts the intriguing history of the disaster and researchers attempts to understand it Taking readers inside the numerous expeditions and investigations that have long occupied scientists he

foregrounds the significance of mystery in environmental history His engaging and accessible account shows how the explosion has shaped the treatment of the landscape how uncertainty allowed unusual ideas to enter scientific conversations and how cosmic disasters have influenced the past and might affect the future **Fish versus Power** Matthew D. Evenden, 2004-05-03 Fish versus Power is an environmental history of the Fraser River British Columbia and the attempts to dam it for power and to defend it for salmon Amid contemporary debates over large dam development and declines in fisheries this book offers a case study of a river basin where development decisions did not ultimately dam the river but rather conserved its salmon Although the case is local its implications are global as Evenden explores the transnational forces that shaped the river the changing knowledge and practices of science and the role of environmental change in shaping environmental debate The Fraser is the world s most productive salmon river it is also a large river with enormous waterpower potential Very few rivers in the developed world have remained undammed On the Fraser however fish not dams triumphed and this book seeks to explain why *Environmental Law in China* Charles R. McElwee, 2011 Environmental Law in China Managing Risk and Ensuring Compliance is the most comprehensive up to date account of China s environmental laws and regulations This book is a practical guide for foreign invested businesses aiming to maintain compliance throughout their various areas of operation It is also useful to academics and organizations attempting to understand China s complex system of law on the environment
