Marcel Duchamp Man Ray 50 Years Of Alchemy:

Marcel Duchamp, Man Ray Marcel Duchamp, Man Ray, 2004 Essay by Chrissie Iles Introduction by Sean Kelly **Marcel Duchamp and the Architecture of Desire** Penelope Haralambidou, 2017-03-02 While much has been written on Marcel Duchamp one of the twentieth century's most beguiling artists the subject of his flirtation with architecture seems to have been largely overlooked Yet in the carefully arranged plans and sections organising the blueprint of desire in the Large Glass his numerous pieces replicating architectural fragments and his involvement in designing exhibitions Duchamp's fascination with architectural design is clearly evident As his unconventional architectural influences Nicéron Lequeu and Kiesler and diverse legacy Tschumi OMA Webb Diller Scofidio and Nicholson indicate Duchamp was not as much interested in built architecture as he was in the architecture of desire re-constructing the imagination through drawing and testing the boundaries between reality and its aesthetic and philosophical possibilities Marcel Duchamp and the Architecture of Desire examines the link between architectural thinking and Duchamp's work By employing design drawing and making the tools of the architect Haralambidou performs an architectural analysis of Duchamp's final enigmatic work *Given 1 The Waterfall 2 The Illuminating Gas* demonstrating an innovative research methodology able to grasp meaning beyond textual analysis This novel reading of his ideas and methods adds to but also challenges other art historical interpretations Through three main themes allegory visuality and desire the book defines and theorises an alternative drawing practice positioned between art and architecture that predates and includes Duchamp aka Marcel Duchamp Anne Collins Goodyear, James W. McManus, 2014-12-30 *aka Marcel Duchamp* is an anthology of recent essays by leading scholars on Marcel Duchamp arguably the most influential artist of the twentieth century With scholarship addressing the full range of Duchamp's career these papers examine how Duchamp's influence grew and impressed itself upon his contemporaries and subsequent generations of artists Duchamp provides an illuminating model of the dynamics of play in construction of artistic identity and legacy which includes both personal volition and contributions made by fellow artists critics and historians This volume is not only important for its contributions to Duchamp studies and the light it sheds on the larger impact of Duchamp's art and career on modern and contemporary art but also for what it reveals about how the history of art itself is shaped over time by shifting agendas evolving methodologies and new discoveries The Amazing Adventures of Bob Brown Craig Saper, 2016-05-12 Contemporary publishing e media and writing owe much to an unsung hero who worked in the trenches of the culture industry for pulp magazines Hollywood films and advertising and caroused and collaborated with the avant garde throughout the first half of the twentieth century Robert Carlton Brown 1886-1959 turned up in the midst of virtually every significant American literary artistic political and popular or countercultural movement of his time from Chicago's Cliff Dweller's Club to Greenwich Village's bohemians and the Imagist poets from the American vanguard expatriate groups in Europe to the Beats Bob Brown churned out pulp fiction and populist cookbooks created the first movie tie-ins and invented a

surreal reading machine more than seventy five years ahead of e books He was a real life Zelig of modern culture With The Amazing Adventures of Bob Brown Craig Saper disentangles for the first time the many lives and careers of the intriguing figure behind so much of twentieth century culture Saper s lively and engaging yet erudite and subtly experimental style offers a bold new approach to biography that perfectly complements his multidimensional subject Readers are brought along on a spirited journey with Bob and the Brown clan Cora his mother Rose his wife and Bob a creative team who sometimes went by the name of CoRoBo through globetrotting fortune making and fortune spending culture creating and culture exploring adventures Along the way readers meet many of the most important cultural figures and movements of the era and are witness to the astonishingly prescient vision Brown held of the future of American cultural life in the digital age Although Brown traveled and lived all around the world he took Manhattan with him and his New York City had boroughs around the world

Camera Constructs Andrew Higgott, Timothy Wray, 2016-12-05 Photography and architecture have a uniquely powerful resonance architectural form provides the camera with the subject for some of its most compelling imagery while photography profoundly influences how architecture is represented imagined and produced *Camera Constructs* is the first book to reflect critically on the varied interactions of the different practices by which photographers artists architects theorists and historians engage with the relationship of the camera to architecture the city and the evolution of Modernism The title thus on the one hand opposes the medium of photography and the materiality of construction but on the other can be read as saying that the camera invariably constructs what it depicts the photograph is not a simple representation of an external reality but constructs its own meanings and reconstructs its subjects Twenty three essays by a wide range of historians and theorists are grouped under the themes of Modernism and the Published Photograph Architecture and the City Re imagined Interpretative Constructs and Photography in Design Practices They are preceded by an Introduction that comprehensively outlines the subject and elaborates on the diverse historical and theoretical contexts of the authors approaches *Camera Constructs* provides a rich and highly original analysis of the relationship of photography to built form from the early modern period to the present day

Mileaf, Francis M. Naumann, Michael R. Taylor, 2009-04-10 An old genre is given a new look as portraits and self portraits of Marcel Duchamp invent and cover up as much as they reveal and portray One of the most influential artists of the twentieth century Marcel Duchamp 1887-1968 was a master of self invention who carefully regulated the image he projected through self portraiture and through his collaboration with those who portrayed him During his long career Duchamp recast accepted modes for assembling and describing identity indelibly altering the terrain of portraiture This groundbreaking book which accompanies a major exhibition at the Smithsonian Institution s National Portrait Gallery demonstrates the ways in which Duchamp willfully manipulated the techniques of portraiture both to secure his reputation as an iconoclast and to establish himself as a major figure in the art world Although scholars have explored Duchamp s use of aliases little attention has been paid to how this work played into and against existing portrait conventions Nor has any study yet compared these explicitly self constructed projects with the large body of portraits of Duchamp by others *Inventing Marcel Duchamp* showcases approximately one hundred never before assembled portraits and self portraits of Duchamp The broadly defined self portraits and self representations include the famous autobiographical suitcase *Boîte en Valise* and *Self Portrait in Profile* a torn silhouette that became very influential for future generations of artists The portraits by other artists include works by Duchamp s contemporaries Man Ray Alfred Stieglitz Francis Picabia Beatrice Wood and Florine Stettheimer as well as portraits by more recent generations of artists including Andy Warhol Jasper Johns Sturtevant Yasumasa Morimura David Hammons and Douglas Gordon Since the mid twentieth century as abstraction assumed a position of dominance in fine art portraiture has been often derided as an art form the images and essays in *Inventing Marcel Duchamp* counter this and invite us to rethink the role of portraiture in modern and contemporary art **A Private Eye** Herbert F. Johnson Museum of Art, 2006 *Marcel Duchamp and Max Ernst* David Hopkins, 1998 David Hopkins analyses the extensive network of shared concerns and images in the work of Marcel Duchamp and Max Ernst the greatest names associated with Dada and Surrealist art This book covers a broad period from c 1912 to the mid 1940s during which the emergence of Dada and Surrealism in

Europe and the United States challenged earlier movements such as Cubism and Expressionism creating scope for the expression of the unconscious fears and desires of artists acutely sensitive to the troubled nature of their times Examining Duchamp s and Ernst s subversion and manipulation of religious and hermetic beliefs such as Catholicism Rosicrucianism and Masonry David Hopkins demonstrates the ways in which these esoteric concerns intersect with themes of peculiarly contemporary relevance including the social construction of gender and notions of ordering and taxonomy This detailed comparison of components of Duchamp s and Ernst s work reveals fascinating structural patterns enabling the reader to discover an entirely new way of understanding the mechanisms underlying Dada and Surrealist iconography

Remaking the Readymade Adina Kamien-Kazhdan,2018-05-11 Replication and originality are central concepts in the artistic oeuvres of Marcel Duchamp and Man Ray Remaking the Readymade reveals the underlying and previously unexplored processes and rationales for the collaboration between Duchamp Man Ray and Arturo Schwarz on the replication of readymades and objects The 1964 editioned replicas of the readymades sent shock waves through the art world Even though the replicas undermined ideas of authorship and problematized the notion of identity and the artist they paradoxically shared in the aura of the originals becoming stand ins for the readymades Scholar poet dealer Arturo Schwarz played a crucial role opening the door to joint or alternate authorship an outstanding relationship between artist and dealer By unearthing previously unpublished correspondence and documentary materials and combining this material with newly conducted exclusive interviews with key participants Remaking the Readymade details heretofore unrevealed aspects of the technical processes involved in the re creation of iconic long lost Dada objects Launched on the heels of the centenary of Duchamp s Fountain this new analysis intensifies and complicates our understanding of Duchamp and Man Ray initial conceptions and raises questions about replication and authorship that will stimulate significant debate about the legacy of the artists the continuing significance of their works and the meaning of terms such as creativity originality and value in the formation of art

The Duchamp Book Gavin Parkinson,2008-05 Marcel Duchamp 1887 1968 was without doubt one of the most controversial artists of the twentieth century Associated with cubism Dada and Surrealism his invention of the readymade led him to produce some of the most iconic works of his era While he is often cited as the most influential artist of his generation and is seen by many to be the progenitor of much of the conceptual and postmodern art of today the writing published to date on Duchamp is often obscure and mired in theory Extensively illustrated and featuring Duchamp s own writings The Duchamp Book provides a much needed accessible introduction to the artist
