Companion to the Archaeology of the Ancient Near East D. T. Potts, 2012-08-15 A COMPANION TO THE ARCHAEOLOGY OF THE ANCIENT NEAR EAST A Companion to the Archaeology of the Ancient Near East is a comprehensive and authoritative overview of ancient material culture from the late Pleistocene to Late Antiquity This expansive two volume work includes 58 new essays from an international community of ancient Near East scholars With coverage extending from Asia Minor the eastern Mediterranean and Egypt to the Caucasus Central Asia and the Indo Iranian borderlands the book highlights the enormous variation in cultural developments across roughly 11 000 years of human endeavor In addition to chapters devoted to specific regions and particular periods many contributors concentrate on individual industries and major themes in ancient Near Eastern archaeology ranging from metallurgy and agriculture to irrigation and fishing Controversial issues including the nature and significance of the antiquities market ethical considerations in archaeological praxis the history of the foundation of departments of antiquities and ancient attitudes towards the past make this a unique collection of studies that will be of interest to scholars students and interested readers alike *Harlot or Holy Woman?* Phyllis A. Bird, 2019-11-20 Harlot or Holy Woman presents an exhaustive study of qede ah a Hebrew word meaning consecrated woman but rendered prostitute or sacred prostitute in Bible translations Reexamining biblical and extrabiblical texts Phyllis A Bird questions how qede ah came to be associated with prostitution and offers an alternative explanation of the term one that suggests a wider participation for women as religious specialists in Israel s early cultic practice Bird s study reviews all the texts from classical antiquity cited as sources for an institution of sacred prostitution alongside a comprehensive analysis of the cuneiform texts from Mesopotamia containing the cognate qadi tu and

Ugaritic texts containing the masculine cognate *qd* Through these texts Bird presents a portrait of women dedicated to a deity engaged in a variety of activities from cultic ritual to wet nursing and sharing a common generic name with the *qede* *ah* of ancient Israel In the final chapter she returns to biblical texts reexamining them in light of the new evidence from the ancient Near East Considering alternative models for constructing women's religious roles in ancient Israel this wholly original study offers new interpretations of key texts and raises questions about the nature of Israelite religion as practiced outside the royal cult and central sanctuary

The Trojan War Barry Strauss, 2006-09-19 The Trojan War is the most famous conflict in history the subject of Homer's *Iliad* one of the cornerstones of Western literature Although many readers know that this literary masterwork is based on actual events there is disagreement about how much of Homer's tale is true Drawing on recent archeological research historian and classicist Barry Strauss explains what really happened in Troy more than 3 000 years ago For many years it was thought that Troy was an insignificant place that never had a chance against the Greek warriors who laid siege and overwhelmed the city In the old view the conflict was decided by duels between champions on the plain of Troy Today we know that Troy was indeed a large and prosperous city just as Homer said The Trojans themselves were not Greeks but vassals of the powerful Hittite Empire to the east in modern day Turkey and they probably spoke a Hittite related language called Luwian The Trojan War was most likely the culmination of a long feud over power wealth and honor in western Turkey and the offshore islands The war itself was mainly a low intensity conflict a series of raids on neighboring towns and lands It seems unlikely that there was ever a siege of Troy rather some sort of trick perhaps involving a wooden horse allowed the Greeks to take the city Strauss shows us where Homer nods and sometimes exaggerates and distorts as well He puts the Trojan War into the context of its time explaining the strategies and tactics that both sides used and compares the war to contemporary battles elsewhere in the eastern Mediterranean With his vivid reconstructions of the conflict and his insights into the famous characters and events of Homer's great epic Strauss masterfully tells the story of the fall of Troy as history without losing the poetry and grandeur that continue to draw readers to this ancient tale

Le-David Maskil Richard Elliott Friedman,William Henry Propp,2004 For the past half century David Noel Freedman has had an enormous impact on the study of the Bible both as an author and as an editor of the writings of others As his colleagues note in their comments at the beginning of this volume You are quintessentially the man of the book And perhaps what impresses us most is that your bibliography of hundreds of books is not limited to the extraordinary number of important books that you ve written yourself It also contains the books that you ve edited for others And we know what it means to have David Noel Freedman as one s editor For every page of manuscript that the author sends you you send back almost an equal number of pages of advice criticism corrections and improvements You can make a bad book good and a good book better And you can make its author a better scholar and a better writer In this volume his compatriots at the University of California San Diego contribute eight varied essays in celebration of his impact on them and in honor of his varied contributions to biblical studies

Art and Immortality in the Ancient Near East Mehmet-Ali Ataç,2018-03-08 Discussions of apocalyptic thought and its sources in the ancient Near East particularly Mesopotamia have a long scholarly history with a renewed interest and focus in the recent decades Outside Assyriological scholarship as well studies of the apocalyptic give significant credit to the ancient Near East especially Babylonia and Iran as potential sources for the manifestations of this phenomenon in the Hellenistic period The emphasis on kingship and empire in apocalyptic modes of thinking warrants special attention paid to the regal art of ancient Mesopotamia and adjacent areas in its potential to express the relevant notions In this book Mehmet Ali Ata demonstrates the importance of visual evidence as a source for apocalyptic thought Focusing on the so called investiture painting from Mari he relates it to parallel evidence from the visual traditions of the Assyrian Empire ancient Egypt and Hittite Anatolia

[Crafting Minoanisation](#) Joanne Elizabeth Cutler,2021-10-31 The mid second millennium BC material record of the southern Aegean shows evidence of strong Cretan influence This phenomenon has traditionally been seen in terms of

Minoanisation but the nature and degree of Cretan influence and the process processes by which it was spread and adopted have been widely debated This new study addresses the question of Minoanisation through a study of the adoption of Cretan technologies in the wider southern Aegean principally weaving technology By the early Late Bronze Age Cretan style discoid loom weights had appeared at a number of settlements across the southern Aegean In most cases this represents not only the adoption of a particular type of loom weight but also the introduction of a new weaving technology the use of the warp weighted loom The evidence for and the implications of the adoption of this new technology is examined Drawing upon recent advances in textile experimental archaeology the types of textiles that are likely to have been produced at a range of sites both on Crete itself and in the wider southern Aegean are discussed and the likely nature and scale of textile production at the various settlements is assessed A consideration of the evidence for the timing and extent of the adoption of Cretan weaving technology in the light of additional evidence for the adoption of other Cretan technologies is used to gain insight into the potential social and economic strategies engaged in by various groups across the southern Aegean as well as the motivations that may have driven the adoption and adaptation of Cretan cultural traits and accompanying behaviors By examining how technological skills and techniques are learned and considering possible mechanisms for the transmission of such technical knowledge and know how new perspectives can be proposed concerning the processes through which Cretan techniques were taken up and imitated abroad

Womens Work E. J. W. Barber, 1994 The author presents the previously untold human side of the story of prehistoric textiles the relations of women and their textile work to society and economics over the huge span of prehistoric and early historic times

Women's Work: The First 20,000 Years Women, Cloth, and Society in Early Times Elizabeth Wayland Barber, 1995-09-17 A fascinating history of a craft that preceded and made possible civilization itself New York Times Book Review New discoveries about the textile arts reveal women s unexpectedly influential role in ancient societies Twenty thousand years ago women were making and wearing the first clothing created from spun fibers In fact right up to the Industrial Revolution the

fiber arts were an enormous economic force belonging primarily to women Despite the great toil required in making cloth and clothing most books on ancient history and economics have no information on them Much of this gap results from the extreme perishability of what women produced but it seems clear that until now descriptions of prehistoric and early historic cultures have omitted virtually half the picture Elizabeth Wayland Barber has drawn from data gathered by the most sophisticated new archaeological methods methods she herself helped to fashion In a brilliantly original book Katha Pollitt Washington Post Book World she argues that women were a powerful economic force in the ancient world with their own industry fabric

An Ox of One's Own T. M. Sharlach, 2017-09-11

Shulgi simti is an important example of a woman involved in sponsoring religious activities though having a family life An Ox of One's Own will be of interest to Assyriologists particularly those interested in Early Mesopotamia and scholars working on women in religion An Ox of One's Own centers on the archive of a woman who died about 2050 B C one of King Shulgi's many wives Her birth name is unknown but when she married she became Shulgi simti Suitable for Shulgi Attested for only about 15 years she existed among a court filled with other wives who probably outranked her A religious foundation was run on her behalf whereby courtiers male and female donated livestock for sacrifices to an unusual mix of goddesses and gods Previous scholarship has declared this a rare example of a queen conducting women's religion perhaps unusual because they say she came from abroad The conclusions of this book are quite different An Ox of One's Own lays out the evidence that another woman was queen at this time in Nippur while Shulgi simti lived in Ur and was a third ranking concubine at best with few economic resources Shulgi simti's religious exercises concentrated on a quartet of north Babylonian goddesses
