Political Society In Lancastrian England The Greater Gentry In Nottinghamshire:

Political Society in Lancastrian England Simon Payling,1991 A study of the political and social structure of late medieval England which examines the wealth and political influence of a dozen Nottinghamshire families who dominated their county during the first half of the 15th century

Political culture in later medieval England Michael J. Braddick,2020-01-03 This is an important collection of pioneering essays penned by the late Simon Walker a highly respected historian of late medieval England One of the finest scholars of his generation Walker's writing is lucid inspirational and has permanently enriched our understanding of the period The eleven essays featured here examine themes such as kingship lordship warfare and sanctity There are specific studies on subjects such as the changing fortunes of the family of Sir Richard Abberbury Yorkshire's Justices of the Peace the service of medieval man at arms Janico Dartasso Richard II's views on kingship political saints and an investigation of rumour sedition and popular protest in the reign of Henry IV An introduction by G L Harriss looks back across Walker's career and discusses the historiographical context of his work Both the new and previously published pieces here will be essential reading for those working on the late medieval period

The Baronage in the Reign of Richard II, 1377-1399 Dr Keith E. Fildes,2009-03-26 *The Bishopric of Durham in the Late Middle Ages* Christian Drummond Liddy,2008 New study sets the medieval palatinate of Durham firmly in the context of a community built round the cult of St Cuthbert

King Death Colin Platt,2014-07-10 This illustrated survey examines what it was actually like to live with plague and the threat of plague in late medieval and early modern England Colin Platt's books include *The English Medieval Town* *Medieval England A Social History and Archaeology from the Conquest to 1600* and *The Architecture of Medieval Britain A Social History* which won the Wolfson Prize for 1990 This book is intended for undergraduate 6th form courses on medieval England option courses on demography medicine family and social focus The black death and population decline is central to A level syllabuses on this period

The Order of the Garter, 1348-1461 Hugh E. L. Collins,2000 This is the first scholarly study of the political role of the Order of the Garter during the late middle ages It evaluates the relationship between the practical objectives served by the institution and its status as a chivalric elite Focusing on the years between the Garter's inception in 1348 and the deposition of Henry VI in 1461 the study considers the Order's conception companionship and collective activities and places them against the political backdrop of the fourteenth and fifteenth centuries Hugh Collins highlights the potential of the fraternity as an instrument of political patronage and attributes its success in this area to the important balance achieved in the Garter's constitution and fellowship between pragmatic considerations and knightly ideas His examination of the interdependence of these two facets thus reveals the extent to which political society in the late middle ages founded its ambitions and aspirations on the cult of chivalry

The Commercialisation of English Society, 1000-1500 R. H. Britnell,1996 The commercialisation of English society offers a major new interpretation of social and economic change in England over five centuries By 1500 English livelihoods depended more

upon money and commercial transactions than ever before the institutional framework of markets had been transformed and urban development was more pronounced These changes were not however caused by any unilinear development of population output or money supply This pioneering study examines both institutional and economic transformation and the social changes that resulted and stresses the limited importance of formal trading institutions for the development of local trade Commercial transition is throughout analysed from a broader perspective that looks at the changing power relations within medieval society which might loosely be described as feudal and considers how these relations were affected by such commercial development

A Companion to Britain in the Later Middle Ages S. H. Rigby, 2008-04-15 This authoritative survey of Britain in the later Middle Ages comprises 28 chapters written by leading figures in the field Covers social economic political religious and cultural history in England Ireland Scotland and Wales Provides a guide to the historical debates over the later Middle Ages Addresses questions at the leading edge of historical scholarship Each chapter includes suggestions for further reading

The Journey of a Knightly Family Elisabeth Meier Tetlow, 2024-11-12 This book follows a middle class knightly family from France to England in 1066 and its journey over the next six centuries It focuses on the development in the status and roles of the knight the roles of women and the changes in religion from Catholic to Church of England to Puritan

Henry IV Chris Given-Wilson, 2016-04-26 Henry IV 1399 1413 the son of John of Gaunt duke of Lancaster seized the English throne at the age of thirty two from his cousin Richard II and held it until his death aged forty five when he was succeeded by his son Henry V This comprehensive and nuanced biography restores to his rightful place a king often overlooked in favor of his illustrious progeny Henry faced the usual problems of usurpers foreign wars rebellions and plots as well as the ambitions and demands of the Lancastrian retainers who had helped him win the throne By 1406 his rule was broadly established and although he became ill shortly after this and never fully recovered he retained ultimate power until his death Using a wide variety of previously untapped archival materials Chris Given Wilson reveals a cultured extravagant and skeptical monarch who crushed opposition ruthlessly but never quite succeeded in satisfying the expectations of his own supporters

The Eagle and the Hart Helen Castor, 2025-10-07 The dual biography of Richard II and Henry IV two cousins whose lives played out in extraordinary parallel until Henry deposed the tyrant Richard and declared himself King of England

Historical Dictionary of Late Medieval England, 1272-1485 Ronald H. Fritze, William B. Robison, 2002-03-30 Providing the chronological setting for many of Shakespeare's plays various swashbuckling novels from Sir Walter Scott's to Robert Louis Stevenson's and such Hollywood films as *Braveheart* late Medieval England is superficially well known Yet its true complexity remains elusive locked in the covers of specialized monographs and journal articles In over 300 entries written by 80 scholars this book makes the factual information and historical interpretations of the era readily available Covering political military religious and constitutional subjects as well as social and economic topics the volume is easy to use comprehensive and authoritative It provides a useful resource for undergraduate and graduate

students scholars and educated laymen Rightly characterized as an age of crisis the 14th century saw the Hundred Years War the Black Death the Peasants Revolt of 1381 the Avignon Papacy and the Great Schism of the Western Church All placed great stresses on English society aggravating old problems and creating new ones In the late Middle Ages parliament became an important element in English government Cambridge and Oxford universities attained European wide reputations and general literacy increased The Church remained a paramount religious political and social institution but its independence and intellectual monopoly slipped The entries in this book synthesize recent scholarship on these and other historical events While emphasizing political religious constitutional and military topics the book also provides brief introductions to social economic cultural and intellectual topics It is a valuable guide for those wishing to understand this complex tumultuous and until recently poorly understood era

The Politics of Magnate Power in England and Wales, 1389-1413 Alastair Dunn, 2003 This book offers a dramatic revision to the historical understanding of the events surrounding the fall of Richard II and the establishment of the Lancastrian regime Rather than halting at 1399 it charts the shifting balance of power between crown and nobility until the death of Henry IV in 1413 The first major work ever to analyse the financial element of land forfeitures for treason it concludes that Richard II experienced only limited success in profiting from the destruction of his enemies This work is also the first for more than thirty years to chart the political resistance to Henry IV and assess the reasons for his avoiding the fate of his predecessor It draws the radically new conclusions that Henry IV recognized the practical limitations of his power as a usurper and in coming to a modus vivendi with his many enemies traded actual security for a diminution in the Crown's authority to command the obedience of its subjects

Boundaries of the Law Anthony Musson, 2017-07-05 Exploring the boundaries of the law as they existed in medieval and early modern times and as they have been perceived by historians this volume offers a wide ranging insight into a key aspect of European society Alongside and inexorably linked with the ecclesiastical establishment the law was one of the main social bonds that shaped and directed the interactions of day to day life Posing fascinating conceptual and methodological questions that challenge existing perceptions of the parameters of the law the essays in this book look especially at the gender divide and conflicts of jurisdiction within an historical context In addition to seeking to understand the discrete categories into which types of law and legal rules are sometimes placed consideration is given to the traversing of boundaries to the overlaps between jurisdictions and between customs and laws In so doing it shows how law has been artificially compartmentalised by historians and lawyers alike and how existing perceptions have been conditioned by particular approaches to the sources It also reveals in certain case studies how the sources themselves and attitudes towards them have determined the limitations of historical enterprise Adopting an interdisciplinary approach to the subject the contributors demonstrate the fruitfulness of examining the interfaces of apparently diverse disciplines Making fresh connections across subject areas they examine for example the role of geography in determining litigation strategies how the law interacted with

social and theological issues and how fact and fiction could intertwine to promote notions of justice and public order The main focus of the volume is upon England but includes useful comparative papers concerning France Flanders and Sweden The contributors are a mixture of young and established scholars from Europe and North America offering a new and revisionist perspective on the operation of law in the medieval and early modern periods

Women and Gender in Medieval Europe Margaret C. Schaus, 2006-09-20 From women's medicine and the writings of Christine de Pizan to the lives of market and tradeswomen and the idealization of virginity gender and social status dictated all aspects of women's lives during the middle ages A cross disciplinary resource Women and Gender in Medieval Europe examines the daily reality of medieval women from all walks of life in Europe between 450 CE and 1500 CE i.e. from the fall of the Roman Empire to the discovery of the Americas Moving beyond biographies of famous noble women of the middle ages the scope of this important reference work is vast and provides a comprehensive understanding of medieval women's lives and experiences Masculinity in the middle ages is also addressed to provide important context for understanding women's roles Entries that range from 250 words to 4 500 words in length thoroughly explore topics in the following areas Art and Architecture Countries Realms and Regions Daily Life Documentary Sources Economics Education and Learning Gender and Sexuality Historiography Law Literature Medicine and Science Music and Dance Persons Philosophy Politics Political Figures Religion and Theology Religious Figures Social Organization and Status Written by renowned international scholars Women and Gender in Medieval Europe is the latest in the Routledge Encyclopedias of the Middle Ages Easily accessible in an A to Z format students researchers and scholars will find this outstanding reference work to be an invaluable resource on women in Medieval Europe

Great Cloister: A Lost Canterbury Tale Paul A. Fox, 2020-01-09 A new study of the heraldry genealogy and history of the Canterbury Cathedral cloister this book is the first comprehensive study of this monument ever undertaken It provides a detailed chronology and details on the 856 heraldic shields badges and devices representing some 365 families principalities religious foundations and individuals

The Making of the Neville Family in England, 1166-1400 Charles R. Young, 1996 A study of power in the middle ages the Nevilles of Raby who included among their members Warwick the Kingmaker was one of the major baronial families in England The story of the Neville family is a fascinating one From their inconspicuous beginnings in Lincolnshire after the Norman Conquest by the fourteenth century the Nevilles of Raby were among the most influential groups in the north of England virtually ruling the area by means of the royal offices they held and their political power reached its zenith in the fifteenth century with Richard de Neville earl of Warwick the so called Kingmaker This new study aims to answer the question of how a family of knightly status but with no special prominence was able to rise to such heights tracing its growth and development through a careful examination of surviving documents it also illustrates how the governance of medieval England worked with the cooperation of baronial families in a pragmatic manner quite apart from any abstract legal or constitutional principles CHARLES R YOUNG is Professor Emeritus of History at Duke

University War, State, and Society in England and the Netherlands 1477-1559 Steven Gunn, David Grummitt, Hans Cools, 2007-11-15 Exploring the effects of war on state power in early modern Europe this book asks if military competition increased rulers power over their subjects and forged more modern states or if the strains of war broke down political and administrative systems Comparing England and the Netherlands in the age of warrior princes such as Henry VIII and Charles V it examines the development of new military and fiscal institutions and asks how mobilization for war changed political relationships throughout society Towns in England such as Norwich York Exeter and Rye are compared with towns in the Netherlands such as Antwerp Leiden s Hertogenbosch and Valenciennes to see how the magistrates relations with central government and the urban populace were modified by war Great noblemen from the Howard and Percy families are set alongside their equivalents from the houses of Cro and Egmond to examine the role of recruitment army command and heroic reputation in maintaining noble power The wider interactions of subjects and rulers in wartime are reviewed to measure how effectively war extended princes claims on their subjects loyalty and service their ambitions to control news and opinion and to promote national identity and their ability to manage the economy and harness religious change to dynastic purposes The result is a compelling but nuanced picture of societies and polities tested and shaped by the pressures of ever more demanding warfare

The Foremost Man of the Kingdom James Ross, 2015 First book to deal with de Vere s life and extraordinary career during the Wars of the Roses and beyond Earl of Oxford for fifty years and subject of six kings of England during the political strife of the Wars of the Roses John de Vere s career included more changes of fortune than almost any other He recovered his earldom after the execution of his father and brother for treason but his resistance to Edward IV led to a decade in prison He escaped in time to lead Henry Tudor s vanguard at Bosworth in 1485 and subsequently enjoyed twenty five years as perhaps the foremost man of the kingdom virtually ruling East Anglia for the king This is the first full length study of de Vere s life and career Through this lens it also tackles a number of broader themes It reconsiders the role of the nobility under Henry VII challenging the common perception of Henry as an anti aristocratic king It also explores East Anglian political society in the second half of the fifteenth century how the earl came to dominate it how successfully he exercised his power and the personnel including the Paston family he used to run the region JAMES ROSS is Senior Lecturer in Late Medieval History at the University of Winchester

The Fourteenth-century Sheriff Richard Gorski, 2003 A study of the careers of over 1200 sheriffs appointed in England during the fourteenth century
