

THE RISE OF THE COMPUTER STATE

**A CHILLING ACCOUNT OF
THE COMPUTER'S THREAT
TO SOCIETY**

DAVID BURNHAM

Rise Of The Computer State

Wolfgang Guggemos

Rise Of The Computer State:

The Rise of the Computer State David Burnham, 2015-01-13 The Rise of the Computer State is a comprehensive examination of the ways that computers and massive databases are enabling the nation's corporations and law enforcement agencies to steadily erode our privacy and manipulate and control the American people This book was written in 1983 as a warning Today it is a history Most of its grim scenarios are now part of everyday life The remedy proposed here greater public oversight of industry and government has not occurred but a better one has not yet been found While many individuals have willingly surrendered much of their privacy and all of us have lost some of it the right to keep what remains is still worth protecting *The Rise of the Computer State* David BURNHAM, 1980 *InfoWorld*, 1983-10-31 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **1984: Civil Liberties and the National Security State** United States. Congress. House. Committee on the Judiciary. Subcommittee on Courts, Civil Liberties, and the Administration of Justice, 1985

Intelligence Agencies, Technology and Knowledge Production Rüdiger Bergien, Dora Gerstenberger, Constantin Goschler, 2022-02-17 This volume examines intelligence services since 1945 in their role as knowledge producers Intelligence agencies are producers and providers of arcane information However little is known about the social cultural and material dimensions of their knowledge production processing and distribution This volume starts from the assumption that during the Cold War these core activities of information services underwent decisive changes of which scientization and computerisation are essential With a focus on the emerging alliances between intelligence agencies science and computer technology the chapters empirically explore these transformations and are characterised by innovative combinations of intelligence history with theoretical considerations from the history of science and technology and the history of knowledge At the same time the book challenges the bipolarity of Cold War history in general and of intelligence history in particular in favour of comparative and transnational perspectives The focus is not only the Soviet Union and the United States but also Poland Turkey the two German states and Brazil This approach reveals surprising commonalities across systems time and again the expansion and use of intelligence knowledge came up against the limits that resulted from intelligence culture itself The book enriches our global understanding of knowledge of the state and contributes to a historical framework for the past decade of debates about the societal consequences of intelligence data processing This book will be of much interest to students of intelligence studies science and technology studies security studies and International Relations *Information technologies for the control of money laundering*, **Digital Democracy** Kenneth L Hacker, Jan van Dijk, 2000-12-05 Increasing attention is being paid to the political uses of the new communication technologies Digital Democracy offers an invaluable in depth explanation of what issues of theory and application are most important to the emergence and development of computer mediated communication systems for political purposes The book provides a wide ranging critical

examination of the concept of virtual democracy as discussed in theory and as implemented in practice and policy that has been hitherto unavailable It addresses how the Internet World Wide Web and computer mediated political communication are affecting democracy and focuses on the various theoretical and practical issues involved in digital democracy Using international examples Digital Democracy attempts to connect theoretical analysis to considerations of practice and policy

The Known Citizen Sarah E. Igo, 2020-03-10 A Washington Post Book of the Year Winner of the Merle Curti Award Winner of the Jacques Barzun Prize Winner of the Ralph Waldo Emerson Award A masterful study of privacy Sue Halpern New York Review of Books Masterful and timely A marathon trek from Victorian propriety to social media exhibitionism Utterly original Washington Post Every day we make decisions about what to share and when how much to expose and to whom Securing the boundary between one's private affairs and public identity has become an urgent task of modern life How did privacy come to loom so large in public consciousness Sarah Igo tracks the quest for privacy from the invention of the telegraph onward revealing enduring debates over how Americans would and should be known The Known Citizen is a penetrating historical investigation with powerful lessons for our own times when corporations government agencies and data miners are tracking our every move A mighty effort to tell the story of modern America as a story of anxieties about privacy Shows us that although we may feel that the threat to privacy today is unprecedented every generation has felt that way since the introduction of the postcard Louis Menand New Yorker Engaging and wide ranging Igo's analysis of state surveillance from the New Deal through Watergate is remarkably thorough and insightful The Nation

States of Confinement NA, 2017-12-11 The United States has the highest incarceration and execution rate in the industrialized world Due to bias in policing and sentencing seventy percent of the nearly two million people incarcerated in U S prisons and immigration detention centers are people of color Statistics like these and the often unsafe conditions under which people are imprisoned make an analysis of incarceration urgent and timely Using a broad multicultural approach States of Confinement uncovers the political social and economic biases in our policing and punishment systems The distinguished authors of this collection such as Angela Y Davis Manning Marable Gary Marx Robert Meeropol the son of Julius and Ethel Rosenberg Julie Su an attorney for immigrants rights and Judi Bari a founder of Earthfirst use their diverse experiences and expertise to discuss troubling abuses of police powers in our society The issues they expose include racial profiling and sentencing disparities that target African Americans and Latinos the sexual exploitation of women in prison and police custody racist and homophobic violence the policing of Asian Americans and Arabs the adverse conditions of HIV positive prisoners and the use of the Grand Jury and police to undermine political activity These twenty seven cogent and accessible essays will appeal to students and educators as well as anyone concerned about the erosion of democracy and equality in this era of increasing incarceration and police powers

Computerization and Controversy Rob Kling, 1996-02-28 The Second Edition of Computerization and Controversy Value Conflicts and Social Choices is a collection of 78 articles that examine the social

aspects of computerization from a variety of perspectives many presenting important viewpoints not often discussed in the conventional literature A number of paired articles comprise thought provoking head on debate Fields represented include computer science information systems management journalism psychology law library science and sociology This volume introduces some of the major controversies surrounding the computerization of society and helps readers recognize the social processes that drive and shape computerization Division into eight provocatively titled sections facilitates course planning for classroom or seminar use A lead article for each section frames the major controversies locates the selections within the debates and points to other relevant literature A fully revised and updated version of the first anthological treatment of the subject Organized to facilitate course planning for classroom or seminar use Provides coverage of the influence of computers on a wide variety of fields including computer science information systems management journalism psychology law library science and sociology

Surveillance Society Lyon, David,2001-02-01 This book gives an overview of current research on and developments in surveillance including closed circuit TV and biometrics illustrated by empirical examples Such proliferating surveillance is encountered especially in the modern city with its watchful cameras and the demand for plastic card ID and eligibility checks People depend on it for security convenience and efficiency

Publication University of Missouri. Freedom of Information Center,1984

Regulating Privacy Colin J. Bennett,2018-07-05 The information revolution has brought with it the technology for easily collecting personal information about individuals a facility that inherently threatens personal privacy Colin J Bennett here examines political responses to the data protection issue in four Western democracies comparing legislation that the United States Britain West Germany and Sweden forged from the late 1960 s to the 1980 s to protect citizens from unwanted computer dissemination of personal information Drawing on an extensive body of interviews and documentary evidence Bennett considers how the four countries each with different cultural traditions and institutions formulated fair information policy He finds that their computer regulatory laws are based on strikingly similar statutory principles but that enforcement of these principles varies considerably the United States relies on citizen initiative and judicial enforcement Britain uses a registration system Germany has installed an ombudsman and Sweden employs a licensing system Tracing the impact of key social political and technological factors on the ways different political systems have controlled the collection and communication of information Bennett also deepens our understanding of policymaking theory *Regulating Privacy* will be welcomed by political sciences especially those working in comparative public policy American politics organization theory and technology and politics political economists information systems analysts

and others concerned with issues of privacy Making Public Employment a Model of Equal Opportunity ,1975 **Times of the Technoculture** Kevin Robins, Frank Webster, 2003-09-02 Times of the Technoculture explores the social and cultural impact of new technologies tracing the origins of the information society from the coming of the machine with the industrial revolution to the development of mass production techniques in the early twentieth century The authors look at how the military has controlled the development of the information society and consider the centrality of education in government attempts to create a knowledge society Engaging in contemporary debates surrounding the internet Robins and Webster question whether it can really offer us a new world of virtual communities and suggest more radical alternatives to the corporate agenda of contemporary technologies **Intellectual property rights in an age of electronics and information.** , *Paradoxes of Modernization* Helen Margetts, Perri 6, Christopher Hood, 2012-02-16 This book explores the unintended and unanticipated effects associated with modernization projects and tackles the key question that they provoke why do policy makers persist in such enterprises in the face of evidence that they tend to fail Paradoxes of Modernization first discusses what is meant by modernization and unintended consequences placing public policy reform within more general intellectual and social trends It presents eight case study modernization projects Their architects promised faster trains a more efficient and reactive health service a more motivated public service better performing local government enhanced information for prospective US university students reduced rates of child malnutrition in developing countries and a free open safe interconnected cyberspace for people to conduct their social and political life Each case provides a neat story with a paradox that varies the modernization theme and tackles the question why was the project pursued The conclusion categorizes the cases in terms of their outcome from success to disappointment and suggests some strategies for a more balanced version of modernization for current and future policy makers *Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations for 1993* United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies, 1992
