Farewell to the Party of Lincoln Nancy Joan Weiss,2020-09-01 This book examines a remarkable political phenomenon the dramatic shift of black voters from the Republican to the Democratic party in the 1930s a shift all the more striking in light of the Democrats indifference to racial concerns Nancy J Weiss shows that blacks became Democrats in response to the economic benefits of the New Deal and that they voted for Franklin Roosevelt in spite of the New Deal's lack of a substantive record on race By their support for FDR blacks forged a political commitment to the Democratic party that has lasted to our own time The last group to join the New Deal coalition they have been the group that remained the most loyal to the Democratic party This book explains the sources of their commitment in the 1930s It stresses the central role of economic concerns in shaping black political behavior and clarifies both the New Deal record on race and the extraordinary relationship between black voters and the Roosevelts *Fighting Organized Crime* Mary M. Stolberg,1995 From Samuel

Tilden's fight against Tammany Hall to George Bush's references to Willie Horton politicians have routinely exploited issues of crime to achieve success at the polls. Nowhere has this been more evident than in New York City in the 1930s. *Fighting Organized Crime* brings to life the dramatic interplay between crime and politics in New York City during this period and in the process provides the first major examination of how politicians manipulate the justice system for their own ends. All in all a colorful saga of major New York figures jockeying for headlines and political gain in their battles against notorious gangsters.

Senator Sam Ervin, Last of the Founding Fathers Karl E. Campbell, 2007 Drawing on newly opened archival material, Karl Campbell illuminates the character of the man and the historical forces that shaped him. The senator's distrust of centralized power, Campbell argues, helps explain his ironic reputation as a foe of civil rights and a champion of civil liberties from publisher description.

Fortitudine, 1990 **Historical Materials in the John Fitzgerald Kennedy Library** John F. Kennedy Library, 1993 **Neptune** Craig L. Symonds, 2014-04-10 Seventy years ago more than six thousand Allied ships carried more than a million soldiers across the English Channel to a fifty mile wide strip of the Normandy coast in German occupied France. It was the greatest sea borne assault in human history. The code names given to the beaches where the ships landed, the soldiers have become immortal: Gold, Juno, Sword, Utah, and especially Omaha, the scene of almost unimaginable human tragedy. The sea of crosses in the cemetery sitting today atop a bluff overlooking the beaches recalls to us its cost. Most accounts of this epic story begin with the landings on the morning of June 6, 1944. In fact, however, D Day was the culmination of months and years of planning and intense debate. In the dark days after

the evacuation of Dunkirk in the summer of 1940 British officials and soon enough their American counterparts began to consider how and where and especially when they could re enter the European Continent in force The Americans led by U S Army Chief of Staff General George C Marshall wanted to invade as soon as possible the British personified by their redoubtable prime minister Winston Churchill were convinced that a premature landing would be disastrous The often sharp negotiations between the English speaking allies led them first to North Africa then into Sicily then Italy Only in the spring of 1943 did the Combined Chiefs of Staff commit themselves to an invasion of northern France The code name for this invasion was Overlord but everything that came before including the landings themselves and the supply system that made it possible for the invaders to stay there was code named Neptune Craig L Symonds now offers the complete story of this Olympian effort involving transports escorts gunfire support ships and landing craft of every possible size and function The obstacles to success were many In addition to divergent strategic views and cultural frictions the Anglo Americans had to overcome German U boats Russian impatience fierce competition for insufficient shipping training disasters and a thousand other impediments including logistical bottlenecks and disinformation schemes Symonds includes vivid portraits of the key decision makers from Franklin Roosevelt and Churchill to Marshall Dwight Eisenhower and Admiral Sir Bertram Ramsay who commanded the naval element of the invasion Indeed the critical role of the naval forces British and American Coast Guard and Navy is central throughout In the end as Symonds shows in this gripping account of D Day success depended mostly on the men themselves the junior officers and enlisted men who drove the landing craft cleared the mines seized the beaches and assailed the bluffs behind them securing the foothold for the eventual campaign to Berlin and the end of the most terrible war in human history
