Selected Essays Of R P Blackmur:

Selected Essays of R.P. Blackmur Richard P. Blackmur, 1986 In the years since Blackmur's death in 1965 literary criticism has changed significantly Partly in reaction to the 30 year sway of formalist New Criticism exemplified by Blackmur John Crowe Ransom and Allen Tate it has become fashionable to embrace structuralist and poststructuralist literary theory in an effort to shift attention from the art object and the artist's voice to the cultural and linguistic systems or codes that govern discourse In the process Blackmur has become part of literary history respected but unread In this carefully edited selection of Blackmur's essays Donoghue a keen critic of modern writing has rediscovered Blackmur's impressive independence and insight ISBN 0 88001 083 5 17 50 [Selected essays]; *Selected essays of R. Religion and Myth in T.S. Eliot's Poetry Michael Bell, Scott Freer, 2016-08-17 T S Eliot was arguably the most important poet of the twentieth century Nonetheless there remains much scope for reconsidering the content form and expressive nature of Eliot's religious poetry and this edited collection pays particular attention to the multivalent spiritual dimensions of his popular poems such as *The Lovesong of J Alfred Prufrock* *The Waste Land* *Journey of the Magi* *The Hollow Men* and *Choruses from The Rock* Eliot's sustained popularity is an intriguing cultural phenomenon given that the religious voice of Eliot's poetry is frequently antagonistic towards the unchurched or secular reader You Hypocrite lecteur This said Eliot's spiritual development was not a logical matter and his devotional poetry is rarely didactic The volume presents a rich and powerful range of essays by leading and emerging T S Eliot and literary modernist scholars considering the doctrinal religious humanist mythic and secular aspects of Eliot's poetry Anglo Catholic belief Barry Spurr the integration of doctrine and poetry Tony Sharpe the modernist mythopoeia of *Four Quartets* Michael Bell the felt significance of religious poetry Andy Mousley ennui as a modern evil Scott Freer Eliot's pre conversion encounter with modernist theology Joanna Rzepa Eliot's religious agrarianism Jeremy Diaper the maternal allegory of *Ash Wednesday* Matthew Geary and an autobiographical reading of religious conversion inspired by Eliot in a secular age Lynda Kong This book is a timely addition to the return of religion in modernist studies in the light of renewed interest in T S Eliot scholarship

Criticism and the Nineteenth Century Geoffrey Tillotson, 2014-07-23 The re emergence into critical esteem of the literature of the English mid nineteenth century has been one of the post war excitements for students and general readers Mid nineteenth century literature is not simply the best body of literature the English have produced It happens also to be literature that has a practical interest for ourselves We live so plainly in its wake The problems being faced a hundred years ago are the problems still facing ourselves such as the continued supremacy of science and its methods and the consequently progressive disappearance of what was called the supernatural Nineteenth century literature however is interesting for other reasons than extended topicality offering infinite aesthetic riches as Geoffrey Tillotson discusses in this volume of essays

The Collected Essays and Criticism, Volume 1 Clement Greenberg, 1986 Clement Greenberg is widely recognized as the most influential and articulate champion of modernism during its American ascendancy after World War II the period largely covered by these highly acclaimed volumes of *The Collected Essays and Criticism* Volume 3 *Affirmations and Refusals* presents Greenberg's writings from the period between 1950 and 1956 while Volume 4 *Modernism with a Vengeance* gathers essays and criticism of the years 1957 to 1969 The 120 works range from little known pieces originally appearing *Vogue* and *Harper's Bazaar* to such celebrated essays as *The Plight of Our Culture* 1953 *Modernist Painting* 1960 and *Post Painterly Abstraction* 1964 Preserved in their original form

these writings allow readers to witness the development and direction of Greenberg's criticism from his advocacy of abstract expressionism to his enthusiasm for color field painting. With the inclusion of critical exchanges between Greenberg and F R Leavis, Fairfield Porter, Thomas B Hess, Herbert Read, Max Kozloff and Robert Goldwater, these volumes are essential sources in the ongoing debate over modern art.

A Dictionary of Modern Critical Terms Roger Fowler, 1987. The book differs from other dictionaries of criticism in concentrating less on time honoured rhetorical terms and more on conceptually flexible powerful and contemporary critical terms. Each entry consists not simply of a dictionary definition but an essay exploring the history and full significance of the term and its possibilities in contemporary critical discourse. **The Routledge**

Dictionary of Literary Terms Peter Childs, Roger Fowler, 2006. Covering both established terminology as well as the specialist vocabulary of modern theoretical schools, this is an indispensable guide to the principal terms and concepts encountered in debates over literary studies in the twenty first century.

Radical Empiricists Helen Thaventhiran, 2015-08-13. *Radical Empiricists* presents a new history of criticism in the first half of the twentieth century against the backdrop of the modernist crisis of meaning. Our received idea of modernist criticism is that its novelty lay in being very empirical: critics believed in looking closely at words on the page. Such close reading has since been easy to ridicule but my book seeks to consider whether this is fair. Have we in the rush either to dismiss or even to defend the idea of close reading often failed to look closely at what it involves in practice? Against this oversight, *Radical Empiricists* turns close reading back on itself, proposing some innovative readings of the prose of five major modernist poet-critics: I A Richards, T S Eliot, William Empson, R P Blackmur and Marianne Moore. The book is divided into two parts preceded by an introduction that explores what these five writers share: a radical self-consciousness about the key critical concept, meaning. Part I, 'How to read', considers the prose techniques of Eliot, Richards and Empson as they push at the boundaries of verbal analysis in other disciplines: experimental psychology and anthropology, classical commentary and textual criticism. Part II introduces Blackmur and Moore alongside Empson and takes a more polemical look at how their critical styles defy various modernist orthodoxies about how not to read: for example, that paraphrase always destroys poetic meaning. Many of these orthodoxies remain current: re-visiting their history and attending to the rich detail of critical prose styles can allow us to lift some old unreflective constraints on our ways of knowing about poems. *A Companion to Literary Theory* David H.

Richter, 2018-02-16. Introduces readers to the modes of literary and cultural study of the previous half century. *A Companion to Literary Theory* is a collection of 36 original essays, all by noted scholars in their field, designed to introduce the modes and ideas of contemporary literary and cultural theory. Arranged by topic rather than chronology in order to highlight the relationships between earlier and most recent theoretical developments, the book groups its chapters into seven convenient sections: I Literary Form: Narrative and Poetry; II The Task of Reading; III Literary Locations and Cultural Studies; IV The Politics of Literature; V Identities; VI Bodies and Their Minds; and VII Scientific Inflections. Allotting proper space to all areas

of theory most relevant today this comprehensive volume features three dozen masterfully written chapters covering such subjects as Anglo American New Criticism Chicago Formalism Russian Formalism Derrida and Deconstruction Empathy Affect Studies Foucault and Poststructuralism Marx and Marxist Literary Theory Postcolonial Studies Ethnic Studies Gender Theory Freudian Psychoanalytic Criticism Cognitive Literary Theory Evolutionary Literary Theory Cybernetics and Posthumanism and much more Features 36 essays by noted scholars in the field Fills a growing need for companion books that can guide readers through the thicket of ideas systems and terminologies Presents important contemporary literary theory while examining those of the past The Wiley Blackwell Companion to Literary Theory will be welcomed by college and university students seeking an accessible and authoritative guide to the complex and often intimidating modes of literary and cultural study of the previous half century

The Ground of Our Beseeking Peter Sharpe, 2004 The Ground of Our Beseeking Metaphor and the Poetics of Meditation describes the signature styles of meditation in three American poets and shows how each generated language out of spiritual yearning The author's inquiry in this area grew out of an interest in the interplay of creativity language and religion and a need to know as both critic and practicing poet how metaphor arises particularly in the context of poetry which hearkens after the sacred How far in other words has metaphor taken some of our central poets T S Eliot Wallace Stevens and Theodore Roethke in matters of belief No other critique of American poetry prior to this study has systematically linked the idea of the sacred with the practice of metaphor Nor has a compelling case been made until now for viewing meditation a style of thinking close to prayer as the source or ground of these poets BOOK

On Eloquence Denis Donoghue, 2008-10-01 On Eloquence questions the common assumption that eloquence is merely a subset of rhetoric a means toward a rhetorical end Denis Donoghue an eminent and prolific critic of the English language holds that this assumption is erroneous In this book Donoghue maintains that eloquence should be examined independent of mere rhetoric and that it has its own intrinsic value

Professing Criticism John Guillory, 2022-12-30 A sociological history of literary study both as a discipline and as a profession As the humanities in higher education struggle with a labor crisis and with declining enrollments the travails of literary study are especially profound No scholar has analyzed the discipline's contradictions as authoritatively as John Guillory In this much anticipated new book Guillory shows how the study of literature has been organized both historically and in the modern era both before and after its professionalization The traces of this volatile

history he reveals have solidified into permanent features of the university. Literary study continues to be troubled by the relation between discipline and profession both in its ambivalence about the literary object and in its anxious embrace of a professionalism that betrays the discipline's relation to its amateur precursor criticism. In a series of timely essays *Professing Criticism* offers an incisive explanation for the perennial churn in literary study: the constant revolutionizing of its methods and objects and the permanent crisis of its professional identification. It closes with a robust outline of five key rationales for literary study offering a credible account of the aims of the discipline and a reminder to the professoriate of what they already do and often do well.

American and British Poetry Harriet Semmes Alexander, 1984

Berryman's Henry Samuel Fisher Dodson, 2006

Berryman's *Henry: Living at the Intersection of Need and Art* offers scholars and students the first thorough and well-researched vehicle into John Berryman's epic poem *The Dream Songs*. Through a close reading of the text, an examination of the history of its criticism, and some of Berryman's letters, notes, and pertinent manuscripts, Sam Dodson offers the reader a solid starting point to appreciate the presiding structure and thematic focus of this American classic. This structure, resulting from the poet's crafting and the poem's internal growth, is illustrated in the text by more than thirty reproductions of some of the *Dream Song* drafts in progress. No existing critical work examines anywhere near the number of individual *Dream Songs* as this reader's guide, which will enable students and teachers to enter Berryman's difficult poem with confidence and a proper sense of direction. Its purpose is to provide the beginning reader and the scholar with a map for approaching this large work and finding their way through its elegiac structure and appreciating its unity. A close look at the poem's language and stylistic innovations, epic qualities, and author's poetics, and most especially the elegiac movement of the poem, will allow even the novice reader to enter Henry's world. The elegies as a whole provide the note of mourning that is at the core of Berryman's epic.
