

THE LONG TRIP

A PREHISTORY OF PSYCHEDELIA

PAUL DEVEREUX

Long Trip The Prehistory Of Psychedelia

Simon G. Powell

Long Trip The Prehistory Of Psychedelia:

The Long Trip Paul Devereux, 1997 A wide variety of psychedelics primarily plants and mushrooms have been used consistently by human societies for ritual purposes for centuries This illuminating book presents a pioneering study of the uses of psychedelic drugs from ancient times to the present Illustrations *Deeper Learning with Psychedelics* David J. Blacker, 2024-06-01 In both clinical and informal settings psychedelics users often report they have undergone something profound and even life altering Yet there persists a confounding inability to articulate just what has been imparted Informed by multidisciplinary emerging research this book provides an account of the specifically educational aspects of psychedelics and how they can render us ready to learn Drawing from indigenous peoples worldwide who typically revere these substances as plant teachers and from canonical thinkers in the western tradition such as Plato Spinoza Kant and Heidegger the author proposes an original set of categories through which to understand the educational capabilities of entheogens psychedelics with visionary qualities It emerges that entheogens real power lies not in destabilizing and decentering turning on and dropping out but as powerful aids in restoring and reenchancing our shared worlds *A Transatlantic Political Theology of Psychedelic Aesthetics* Roger K. Green, 2019-04-02 Arguing that we ought to look to psychedelic aesthetics of the 1960s in relation to current crises in liberal democracy this book emphasizes the intersection of European thought and the psychedelic The first half of the book focuses on philosophical influences of Herbert Marcuse and Antonin Artaud while the second half shifts toward literary and theoretical influences of Aldous Huxley on psychedelic aesthetics Framed within an emergent discourse of political theology it suggests that taking a postsecular approach to psychedelic aesthetics helps us understand deeper connections between aesthetics and politics **Tripping** Charles Hayes, 2000-11-01 Provides the much needed coming out of the closet that the psychedelic movement has lacked These stories will captivate inspire caution and educate This courageous book exceeds expectations Rich Doblin President Multidisciplinary Association for Psychedelic Studies MAPS A collection of transformational psychedelic experiences and a guidebook for how to understand them Flash back to a generation ago when the world of psychedelics still coasted in the gritty adventurous do it yourself ethos of Sixties counterculture Hang on for the bumpy thrill ride of the psychedelic experience before it was traded in for the white lab coat of pharmaceutical medicine Read up on the early anecdotes and field reports that have made ketamine and MDMA the newest drugs in mental health treatment In Tripping journalist Charles Hayes compiles fifty narratives of psychedelic odysseys from respectable Baby Boomers and young ravers to renowned Beat poet Anne Waldman and preeminent spokesperson Terence McKenna to give readers a glimpse into this transgressive experimental world of self discovery As he liberates psychedelics from their social stigma Hayes explores ancient Greek rites and ecstasy fueled raves sacred indigenous plants and synthetic smart drugs alien encounters and connections with nature the terrifying and the sublime A history cultural timepiece and resource guide all in one Tripping is a compendium of forbidden memories whose otherworldly

tales and expository advice will provide insight and inspiration to readers even and especially now twenty years after its original publication

Failed God John A. Rush, 2019-04-16 On a 2001 trip to the cathedrals of Europe anthropologist John Rush and his wife entered St Mark's Basilica in Venice and encountered a mosaic depicting Jesus surrounded by mushrooms with an Amanita muscaria cap in his hand Examining the space with new eyes they discovered images of mushrooms and mind altering plants all over the Basilica Intrigued Dr Rush spent seven years researching and reflecting on the profound effects hallucinogens had on the founding of all three major Western religions He concluded that Judaism Christianity and Islam are political constructions evolving out of the use of not only Amanita muscaria but a plethora of mind altering substances Failed God Fractured Myth in a Fragile World re examines the scriptural stories of Judaism Christianity and Islam as told in the Bible and Qur'an and reveals them as concocted mythical charters stemming from drug induced romps with the super natural Rush shows how mind altering substances played an instrumental role in the birth and development of Western religions and explains how they contributed to reports of prophetic experiences including angry and disturbing messages from the divine With chapters on Judaism Christianity and Islam Rush fully addresses the effects of mind altering substances on each tradition convincingly discrediting the idea that they stem from actual human interaction with the divine He also shows how an intoxicated and over zealous Apostle Paul corrupted Jesus's simple message of human decency forming an oppressive religious system based on fear In a thought provoking conclusion Rush asks how we can continue to attribute authority to traditions that were so clearly irrationally founded and incompatible with today's world

Cognitive Models and Spiritual Maps Jensine Andresen, Robert K. C. Forman, 2000 This book throws down a challenge to religious studies offering a multidisciplinary approach including developmental psychology neuropsychology philosophy of mind and anthropology

Ploughing the Clouds Peter Lamborn Wilson, 2021-10-20 The Rig Veda written in India about 1500BC praises a holy plant called Soma which is sacrificed and consumed granting the drinker an experience of enlightenment and ecstasy The late Gordon Wasson identified Soma as a magic mushroom Amanita muscaria and he and his followers discovered that such Indo Europeans as the ancient Greeks Iranians and Norse had also used a Soma type plant In Ploughing the Clouds Peter Lamborn Wilson investigates the probability of a Soma cult in ancient Ireland tracing clues in Irish and other Celtic lore By comparing Celtic folktales romances epics and topographic lore with the Rig Veda he uncovers the Irish branch of the great Indo European tradition of psychedelic or entheogenic shamanism and even reconstructs some of its secret rituals He uses this comparative material to illuminate the deep meaning of the Soma function in all cultures the entheogenic origin of poetic frenzy the link between intoxication and inspiration

Marijuana Medicine Christian Rätsch, 2001-03-01 A comprehensive survey of the therapeutic historical and cultural uses of cannabis in traditions around the world The most complete visual record of cannabis culture ever published Christian Ratsch is one of the world's foremost ethnopharmacologists and is the current president of the German Society for Ethnomedicine Marijuana Medicine explores

the role of hemp in medicinal systems spanning the globe Cannabis has accompanied the development of human culture from its very beginnings and can be found in the healing traditions of cultures throughout Africa Asia Europe and the Americas Even today it is an important part of many Asian healing traditions in Ayurveda cannabis is praised for its tonic and aphrodisiac qualities and in traditional Chinese medicine it is cited as a superb antidepressant It also remains a significant part of the healing and visionary traditions of Latin American curanderos and Brazilian Nepalese and Indian folk medicine Modern research has confirmed the effectiveness of marijuana s application in treating such diseases as asthma and glaucoma Christian Ratsch profiles the medicinal historical and cultural uses of cannabis in each of these societies and medical systems providing remedies and recipes for those interested in how cannabis can be used to treat specific conditions

The Re-Enchantment of the West, Vol 2 Christopher Partridge,2006-06-20 Challenging some assessments of religion in the West this study argues that although much organized religion particularly Christianity is in numerical decline in actual fact we are witnessing an alternative spiritual re enchantment of society and culture *Acorns: Windows High-Tide Foghat* Joshua Morris,2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self Having chosen to focus upon ego established securely by the time of Christ much more beta brain wave development will destroy our species and others which process has already begun We create our own realities through beliefs intents and desires and we were in and out of probabilities constantly Feelings follow beliefs not the other way around *A Secret History of Consciousness* Gary Lachman,2003 For the last four centuries science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to Recently this effort was extended to try to include the inner world of human beings Gary Lachman argues that this view of consciousness is misguided and unfounded He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s In this secret history of consciousness consciousness is seen not as a result of neurons and molecules but as responsible for them meaning is not imported from the outer world but rather creates it In this view consciousness is a living evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader more expansive state What that consciousness may be like and how it may be achieved is a major concern of this book Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open As this history unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of consciousness a must read Contents Foreword by Colin Wilson Introduction Consciousness Explained The Search for Cosmic Consciousness Esoteric

Evolution The Archaeology of Consciousness Participatory Epistemology The Presence of Origin Last Words Playing for Time Selected Bibliography A marvelously exhilarating gallop through every important modern theory of consciousness from Steiner to Maslow from Bucke's cosmic consciousness to Gebser's integral consciousness Colin Wilson author of The Outsider and Access to Inner Worlds Opens up vast vistas of possibility suggesting that what we experience as the earth may in itself be inseparable from our state of mind and that the evolution of human consciousness may be as fundamental a process as our development through genetics A must read for those seeking an escape from our contemporary culture's cul de sac Daniel Pinchbeck author of Breaking Open the Head Thinking outside the box Lachman challenges many contemporary theories by reinserting a sense of the spiritual back into the discussion Profoundly erudite yet easy to read this book is a provocative mind stretcher Leonard Shlain author of Art Physics Alphabet versus the Goddess and Sex Time Power

Neurons of Jesus Abhijit Naskar, All of Christ's philosophical ideas can be compressed into one simple phrase Love thy neighbor It elucidates the innate human kindness in the simplest manner No creed no institution no book can claim the exclusive possession of this simple yet magnificent phrase of human excellence It does not come from any book It was born from the crying urge of humanity to break free from the shackles of orthodox indoctrination Abhijit Naskar is one of twenty first century's most influential minds in Neuroscience and an untiring advocate of global harmony and peace He became a beloved best selling author all over the world with his very first book The Art of Neuroscience in Everything that heralded the advent of a beautiful scientific philosophy Neurons of Jesus is Naskar's rejuvenating neuroscientific investigation of Christ's philosophy With a researcher's flair for fresh approaches to ancient issues he tackles the mystical controversies surrounding Christianity and Christ's divinity In his peerless explanatory ways Naskar boldly reveals Jesus was a glorious human being full of love and compassion who stepped outside the orthodox cocoon of theoretical religion and attempted to make the society get rid of religious dogma

Shamans/Neo-Shamans Robert J. Wallis, 2003-12-08 In popular culture such diverse characters as occultist Aleister Crowley Doors musician Jim Morrison and performance artist Joseph Beuys have been called shamans In anthropology on the other hand shamanism has associations with sorcery witchcraft and healing and archaeologists have suggested the meaning of prehistoric cave art lies with shamans and altered consciousness Robert J Wallis explores the interface between new and prehistoric shamans The book draws on interviews with a variety of practitioners particularly contemporary pagans in Britain and north America Wallis looks at historical and archaeological sources to explore contemporary pagan engagements with prehistoric sacred sites such as Stonehenge and Avebury and discusses the controversial use by neo Shamans of indigenous particularly native American shamanism

Consciousness Susan Blackmore, 2013-11-26 Is there a theory that explains the essence of consciousness Or is consciousness itself just an illusion The last great mystery of science consciousness is a topic that was banned from serious research for most of the last century but is now an area of increasing popular interest as well as a rapidly expanding area of study for students of

psychology philosophy and neuroscience This ground breaking textbook by best selling author Susan Blackmore was the first of its kind to bring together all the major theories of consciousness studies from those based on neuroscience to those based on quantum theory or Eastern philosophy The book examines topics such as how subjective experiences arise from objective brain processes the basic neuroscience of consciousness altered states of consciousness out of body and near death experiences and the effects of drugs dreams and meditation It also explores the nature of self the possibility of artificial consciousness in robots and the question of whether animals are conscious The new edition has been fully revised to include the latest developments in neuroscience brain scanning techniques and artificial consciousness and robotics The new website includes self assessment exercises advanced further reading flashcards and MCQs For all those intrigued by what it means to be to exist this book could radically transform your understanding of your own consciousness

Neurons, Oxygen & Nanak Abhijit Naskar, One of twenty first century s most influential minds in Brain Science investigates the molecular underpinnings of one of the youngest religions of the world Sikhism With the tools of modern Neuroscience at his disposal Abhijit Naskar a globally acclaimed author delves deep into the neuronal basis of the origin of Sikhism He coaxes us to look behind the curtain of a legendary divine experience that led to the rise of this less known religion from India In his peerlessly lucid explanatory ways Naskar takes us inside the protoplasmic realm of the brain of Guru Nanak the founding father of Sikhism and reveals to us how a conscientious man from the 15th century stepped outside the primeval cocoon of religious orthodoxy in order to restore humanism in the heart of humanity

Neurons Oxygen Nanak is the work of a twenty first century humanitarian thinker about another humanitarian thinker from the fifteenth century

The Psilocybin Solution Simon G. Powell, 2011-06-23 How psilocybin mushrooms facilitate a direct link to the wisdom of Nature and the meaning of life Examines the neurochemistry underlying the visionary psilocybin experience Explains how sacred mushrooms help restore our connection to the natural intelligence of Nature Reviews the research on psilocybin s ability to dispel anxiety in the terminally ill and its helpful effects on obsessive compulsive disorder It has been more than 50 years since sacred mushrooms were plucked from the shamanic backwaters of Mexico and presented to the modern world by R Gordon Wasson After sparking the psychedelic era of the 1960s however the divine mushroom returned underground from whence it mysteriously originated Yet today the mushroom s extraordinary influence is once again being felt by large numbers of people due to the discovery of hundreds of wild psilocybin species growing across the globe In *The Psilocybin Solution* Simon G Powell traces the history of the sacred psilocybin mushroom and discusses the shamanic visionary effects it can induce Detailing how psilocybin acts as a profound enhancer of consciousness and reviewing the research performed by the Multidisciplinary Association for Psychedelic Studies MAPS Johns Hopkins University and the Heffter Research Institute on psilocybin s ability to dispel anxiety in the terminally ill and its helpful effects on obsessive compulsive disorder he examines the neurochemistry psychology and spirituality underlying the visionary psilocybin experience revealing the interface where physical brain and

conscious mind meet Showing that the existence of life and the functioning of mind are the result of a naturally intelligent self organizing Universe he explains how sacred mushrooms provide a direct link to the wisdom of Nature and the meaning of life

The Beauty of the Primitive Andrei A. Znamenski,2007-07-12 Publisher description *Testing the Canon of Ancient Near Eastern Art and Archaeology* Amy Gansell,Ann Shafer,2020-01-06 Testing the Canon of Ancient Near Eastern Art and Archaeology invites readers to reconsider the contents and agendas of the art historical and world culture canons by looking at one of their most historically enduring components the art and archaeology of the ancient Near East Ann Shafer Amy Rebecca Gansell and other top researchers in the field examine and critique the formation and historical transformation of the ancient Near Eastern canon of art architecture and material culture Contributors flesh out the current boundaries of regional and typological sub canons analyze the technologies of canon production such as museum practices and classroom pedagogies and voice first hand heritage perspectives Each chapter thereby critically engages with the historiography behind our approach to the Near East and proposes alternative constructs Collectively the essays confront and critique the ancient Near Eastern canon s present configuration and re imagine its future role in the canon of world art as a whole This expansive collection of essays covers the Near East s many regions eras and types of visual and archaeological materials offering specific and actionable proposals for its study Testing the Canon of Ancient Near Eastern Art and Archaeology stands as a vital benchmark and offers a collective path forward for the study and appreciation of Near Eastern cultural heritage This book acts as a model for similar inquiries across global art historical and archaeological fields and disciplines

The Road of Excess Marcus Boon,2005-03-15 From the antiquity of Homer to yesterday s Naked Lunch writers have found inspiration and readers have lost themselves in a world of the imagination tinged and oftentimes transformed by drugs The age old association of literature and drugs receives its first comprehensive treatment in this far reaching work

Breaking Convention Cameron Adams,Anna Waldstein,Ben Sessa,David King,2014 Presents essays and articles exploring the history use and benefits of psychedelics from the international conference of the same name
