Lords Of The Two Lands:

Lords of the Two Lands Pauline Gedge, 2001 Ancient Egypt is an occupied land a nation usurped by foreigners called the Setiu better known to history as the Hyksos who have gradually taken over a weakened government in a bloodless invasion through commerce and political power Controlling the country for over two hundred years through a superior military force the Setiu Kings plunder the land and slowly subvert its religion and culture Finally one family of the true Egyptian blood is prepared to make a stand to claim back the authority which is rightfully theirs Seqenenra Tao Prince of Weset can trace his descent back to the last rightful King of Egypt When his family s lands their people and their very lives are threatened by the Setiu King Apepa Seqenenra is forced to make a choice between persecution and submission or a rebellion that will change the history of Egypt forever *The Egyptian Heaven and Hell: Volume II (Routledge Revivals)* E. A. Wallis Budge, 2014-08-01 This is the second of three volumes first published in 1906 which explore the Egyptian theology of the afterlife It contains the complete hieroglyphic text of the short form of the m Tuat and of the Book of Gates with translations and reproductions of all the illustrations In the Book of Gates the doctrines of the sophisticated cult of Osiris are prominent they affirm that the beatified live for ever in the kingdom of Osiris and feed daily upon his eternal body The object of all the Books of the Other World was to provide the dead with a guide or handbook containing a description of the regions through which their souls would have to pass on their way to the Kingdom of Osiris and which would supply them with the words of power and magical names necessary for an unimpeded journey from this world to the next **Biographical Texts from Ramessid Egypt** Elizabeth Froom, 2025-05-30 The Ramessid period in Egypt ca 1290 1075 B C E corresponds to the Late Bronze Age a time of great change both in Egypt and the Near East This period of empire dominated by the figure of Ramesses II witnessed crucial developments in art language and religious display Biographical Texts from Ramessid Egypt offers insights into these cultural transformations through the voices of forty five priests artists civil officials and military men who served under the kings of the Nineteenth and Twentieth Dynasties Sixty five biographical texts which were inscribed in tombs on statues and stelae in temples and exceptionally on temple walls give details of their careers and character The metrically arranged translations are introduced by descriptions of the texts monumental contexts and where possible summaries of the careers of their owners The volume provides an introduction to the historical background of the Ramessid period drawing together key themes and interpretive issues raised by the texts and their contexts These include the representation of relationships to deities and the king the thematization of the priestly life and implications of changes in the texts media including new decorative programs of nonroyal tombs This integration of text with context sheds light on the meaning of biographical writing in ancient Egypt as a whole The Book of Gates Sir Ernest Alfred Thompson Wallis Budge, The text of the Book of Gates printed in the following pages is taken from the alabaster sarcophagus of king Seti I B C 1370 which is preserved in the Museum of Sir John Soane at 13 Lincoln s Inn Fields This sarcophagus is undoubtedly one of the

chief authorities for the text of that remarkable book but before any attempt is made to describe the arrangement of the scenes and the inscriptions which accompany them it will be well to recall the principal facts connected with its discovery by Giovanni Battista Belzoni who has fortunately placed them on record in his Narrative of the Operations and recent discoveries within the pyramids temples tombs and Excavations in Egypt and Nubia London 1820 p 233 ff In October 1815 Belzoni began to excavate in the Biban al Muluk i e the Valley of the Tombs of the Kings on the western bank of the Nile at Thebes and in the bed of a watercourse he found a spot where the ground bore traces of having been moved On the 19th of the month his workmen made a way through the sand and fragments of stone which had been piled up there and entered the first corridor or passage of a magnificent tomb which he soon discovered to have been made for one of the great kings of Egypt A second corridor led him to a square chamber which being thirty feet deep formed a serious obstacle in the way of any unauthorized intruder and served to catch any rain water which might make its way down the corridors from the entrance Beyond this chamber are two halls and from the first of these Belzoni passed through other corridors and rooms until he entered the vaulted chamber in which stood the sarcophagus 1 The sarcophagus chamber is situated at a distance of 320 feet from the entrance to the first corridor and is 180 feet below the level of the ground Belzoni succeeded in bringing the sarcophagus from its chamber into the light of day without injury and in due course it arrived in England the negotiations which he opened with the Trustees of the British Museum to whom its purchase was first proposed fell through and he subsequently sold it to Sir John Soane it is said for the sum of 2000 An examination of the sarcophagus shows that both it and its cover were hollowed out of monolithic blocks of alabaster and it is probable as Mr Sharpe says 1 that these were quarried in the mountains near Alabastronpolis i e the district which was known to the Egyptians by the name of Het nub and is situated near the ruins known in modern times by the name of Tell al Amarna In the Yet nub quarries large numbers of inscriptions written chiefly in the hieratic character have been found and from the interesting selection from these published by Messrs Blackden and Fraser we learn that several kings of the Ancient and Middle Empires carried on works in them no doubt for the purpose of obtaining alabaster for funeral purposes The sarcophagus is 9 ft 4 in long 3 ft 8 in wide in the widest part and 2 ft 8 in high at the shoulders and 2 ft 3 in at the feet the cover is 1 ft 3 in high The thickness of the alabaster varies from 21 to 4 inches The skill of the mason who succeeded in hollowing the blocks without breaking or even cracking them is marvellous and the remains of holes nearly one inch in diameter suggest that the drill was as useful to him as the chisel and mallet in hollowing out the blocks When the sarcophagus and its cover were finally shaped and polished they were handed over to an artisan who was skilled in cutting hieroglyphics and figures of the gods c in stone and both the insides and outsides were covered by him with inscriptions and vignettes and mythological sones which illustrated them Both inscriptions and scenes were then filled in with a kind of paint made from some preparation of copper and the vivid bluish green colour of this paint must have formed a striking contrast to the brilliant whiteness of the alabaster when fresh from the

quarry At the present time large numbers of characters and figures are denuded of their colour and those in which it still remains are much discoloured by London fog and soot

Joyful in Thebes Kathlyn M.
