Los Angeles A City Apart:

The ^ADream Endures Kevin Starr, 2002-11-28 What we now call the good life first appeared in California during the 1930s Motels home trailers drive ins barbecues beach life and surfing sports from polo and tennis and golf to mountain climbing and skiing sportswear a word coined at the time and sun suits were all a part of the good life perhaps California's most distinctive influence of the 1930s In *The Dream Endures* Kevin Starr shows how the good life prospered in California in pursuits such as film fiction leisure and architecture and helped to define American culture and society then and for years to come Starr previously chronicled how Californians absorbed the thousand natural shocks of the Great Depression unemployment strikes Communist agitation reactionary conspiracies in *Endangered Dreams* the fourth volume of his classic history of California In *The Dream Endures* Starr reveals the other side of the picture examining the newly important places where the good life flourished like Los Angeles where Hollywood lived Palm Springs where Hollywood vacationed San Diego where the Navy went the California Institute of Technology in Pasadena where Einstein went and changed his view of the universe and college towns like Berkeley We read about the rich urban life of San Francisco and Los Angeles and in newly important communities like Carmel and San Simeon the home of William Randolph Hearst where each Thursday afternoon automobiles packed with Hollywood celebrities would arrive from Southern California for the long weekend at Hearst Castle The 1930s were the heyday of the Hollywood studios and Starr brilliantly captures Hollywood films and the society that surrounded the studios Starr offers an astute discussion of the European refugees who arrived in Hollywood during the period prominent European film actors and artists and the creative refugees who were drawn to Hollywood and Southern California in these years Igor Stravinsky Arnold Schoenberg Man Ray Bertolt Brecht Christopher Isherwood Aldous Huxley Thomas Mann and Franz Werfel Starr gives a fascinating account of how many of them attempted to recreate their European world in California and how others like Samuel Goldwyn provided stories and dreams for their adopted nation Starr reserves his greatest attention and most memorable writing for San Francisco For Starr despite the city's beauty and commercial importance San Francisco's most important achievement was the sense of well being it conferred on its citizens It was a city that magically belonged to everyone Whether discussing photographers like Edward Weston and Ansel Adams hard boiled fiction writers or the new breed of female star Marlene Dietrich Jean Harlow Bette Davis Carole Lombard and the improbable Mae West *The Dream Endures* is a brilliant social and cultural history in many ways the most far reaching and important of Starr's California books [The City in the Distance](#) Jean-Luc Nancy, 2024-10-01 Exploring the ever changing philosophy of city life with Jean Luc Nancy In *The City in the Distance* Jean Luc Nancy embarks on nothing less than a philosophy of the city Drawing on his widely discussed accounts of sense and of the fraught question of community Nancy views the city as the site of a disposition that is constantly undergoing metamorphoses Far from an abstract account Nancy attends in the most concrete way possible to the workings of a city not typically taken as paradigmatic Los Angeles As Jean Christophe Bailly

suggests in his foreword Nancy joins Walter Benjamin in thinking the city not from an external vantage point but on its own terms

Material Dreams Kevin Starr, 1990-04-12 Kevin Starr is the foremost chronicler of the California dream and indeed one of the finest narrative historians writing today on any subject The first two installments of his monumental cultural history *Americans and the California Dream* have been hailed as mature well proportioned and marvelously diverse and diverting The New York Times Book Review and rich in details and alive with interesting and sometimes incredible people Los Angeles Times Now in *Material Dreams* Starr turns to one of the most vibrant decades in the Golden State's history the 1920s when some two million Americans migrated to California the vast majority settling in or around Los Angeles In a lively and eminently readable narrative Starr reveals how Los Angeles arose almost defiantly on a site lacking many of the advantages required for urban development creating itself out of sheer will the Great Gatsby of American cities He describes how William Ellsworth Smyth the Peter the Hermit of the Irrigation Crusade the self educated Irish engineer William Mulholland who built the main aqueducts to Los Angeles and George Chaffey who diverted the Colorado River transforming desert into the lush Imperial Valley brought life supporting water to the arid South He examines the discovery of oil the boosters and land developers the evangelists such as Bob Shuler the Methodist Savanarola of Los Angeles and Aimee Semple McPherson and countless other colorful figures of the period There are also fascinating sections on the city's architecture the impact of the automobile on city planning the Hollywood film community the L A literati and much more By the end of the decade Los Angeles had tripled in population and become the fifth largest city in the nation In *Material Dreams* Starr captures this explosive growth in a narrative tour de force that combines wide ranging scholarship with captivating prose

Sunbelt Cities Richard M. Bernard, Bradley Robert Rice, 2014-06-23

Between 1940 and 1980 the Sunbelt region of the United States grew in population by 112 percent while the older graying Northeast and Midwest together grew by only 42 percent Phoenix expanded by an astonishing 1 138 percent San Diego Houston Dallas Fort Worth Tampa Miami and Atlanta quadrupled in size Even a Sunbelt laggard such as New Orleans more than doubled its population *Sunbelt Cities* brings together a collection of outstanding original essays on the growth and late twentieth century political development of the major metropolitan areas below the thirty seventh parallel The cities surveyed are Albuquerque Atlanta Dallas Fort Worth Houston Los Angeles Miami New Orleans Oklahoma City Phoenix San Antonio San Diego and Tampa Each author examines the economic and social causes of postwar population growth in the city under consideration and the resulting changes in its political climate Major causes of growth such as changing economic conditions

industrial recruitment lifestyle preferences and climate are discussed Particular attention is paid to the role of the federal government especially the Pentagon in encouraging development in the Sunbelt Describing characteristic political developments of many of these cities the authors note shifting political alliances the ouster of machines and business elites from political power and the rise of minority and neighborhood groups in local politics Sunbelt Cities is the first full scale scholarly examination of the region popularly conceived as the Sunbelt As one of the first works to thoroughly examine a wide range of cities within the region it has served as a standard reference on the area for some time
