New Architecture Los Angeles, 2019-04-16 This exhilarating and richly

illustrated guide to Los Angeles's most exciting new buildings establishes the city as a mecca for forward thinking and environmentally conscious architecture. Some of the world's leading architects are making their mark on Los Angeles's cityscape with exciting and innovative projects. Fifty of the most striking buildings are profiled in this book that features every type of architecture: houses, municipal structures, art museums, office buildings, performance spaces, and houses of worship. Some of the world's leading design firms, including Diller Scofidio + Renfro, Eric Owen Moss Architects, Selldorf Architects, and wHY Architecture, have contributed to the city's structural vernacular. While the projects here are as varied as the luminous Walt Disney Concert Hall by Gehry Partners and Bestor Architecture's compact housing development named Blackbirds, each building embraces an unmistakably Californian aesthetic reimagined for a new century. With original photography, this is the first book to focus on the surge of creative building that has taken place in Los Angeles in the new millennium.

"Architecture, Design and Craft in Toronto 1900-1940" Alla Myzelev, 2017-07-05 Toronto, the largest and one of the most multicultural cities in Canada, boasts an equally interesting and diverse architectural heritage. *Architecture Design and Craft in Toronto 1900-1940* tells a story of the significant changes in domestic life in the first 40 years of the twentieth century. Adopting a multidisciplinary approach to studies of residential spaces, the author examines how questions of modernity and modern living influenced not only architectural designs but also interior furnishings, modes of transportation, and ways to spend leisure time. The book discusses several case studies, some of which are known both locally and internationally, for example Casa Loma, while others such as Guild of All Arts or Sherwood have been virtually unstudied by historians of visual culture. The overall goal of the book is to put Toronto on the map of scholars of urban design and architecture and to uncover previously unknown histories of design, craft, and domesticity in Toronto. This study will be of interest not only to the academic community—namely architects, designers, craftspeople, and scholars of these disciplines, along with social historians—but also the general public interested in local history and/or visual culture.

Architects who Built Southern California Antonio Gonzalez, 2019 In the early 1900s, the population of Southern California exploded, and the cities grew at such a rapid pace that builders could hardly keep up. Among those who settled in the area were ten architects looking to make their marks on the world. Claud Beelman, a man who never received a college degree, would go on to design the Elks Lodge in Los Angeles. Albert C. Martin, architect of Grauman's Million Dollar Theater, founded a company that is still going strong more than one hundred years later, and Julia Morgan, the first woman architect licensed in California, was hired by William Randolph Hearst to design the Examiner Building. Join author Antonio Gonzalez as he tells the stories of the people behind some of Southern California's most iconic buildings.

California Dreaming Neil Spiller, 2023-02-28 California has historically provided a fertile breeding ground for radical modes of architectural thinking, practice, and building, which from the 1920s onwards was sparked by the presence of eminent migrant architects. It was also central to the birth of cool mid-century Modernism, all in parallel with the intense concentration of design and experimentation in the film, aerospace, and

tech industries This AD issue explores the influential formal tropes generated in the nexus between Los Angeles and the Bay Area as well as the thriving theoretical preoccupations that have brought California's architects global attention Between Hollywood and the Silicon Valley this unique context has nurtured and become the platform for those who not only build buildings around the world but have also founded and directed schools and educated emergent generations of architects Contributors Frances Anderton Jasmine Benyamin Blaine Brownell Courtney Coffman Heather Flood and Aaron Gensler David Freeland and Brennan Buck Craig Hodgetts Max Kuo Eva Menuhin Nicole Meyer Jill Stoner and Grace Mitchell Tada Featured architects Atelier Manferdini Ball Nagues Studio Faulders Studio Freeland Buck Hood Design Studio Oyler Wu Collaborative Preliminary Research Office Stereobot and Synthesis Design Architecture **California Modern** Neil Jackson, 2002 In the 1950s a series of dramatic open and elegant homes made him a media star and interest in the work of his atelier has only increased over time Architecture and Spectacle Gevork Hartoonian, 2012 Focusing on six leading contemporary architects Peter Eisenman Frank Gehry Bernard Tschumi Zaha Hadid Rem Koolhaas and Steven Holl this book puts forward a unique and insightful analysis of neo avant garde architecture It discusses the spectacle and excess which permeates contemporary architecture in reference to the present aesthetic tendency for image making but does so by applying the tectonic of theatricality discussed by the nineteenth century German architect Gottfried Semper In doing so it breaks new ground by opening up a dialogue between the study of the past and the design of the present Portico University of Michigan.
