investigación sobre los mamíferos silvestres de Guatemala Cristian Kraker, Ana Patricia Calderón, Andrea A. Cabrera, 2019-06-26 Desde hace décadas se han llevado a cabo estudios enfocados a los mamíferos silvestres de Guatemala sin embargo mucha de esta información permanece como literatura gris. Hasta ahora no existía una obra que recopilara trabajos científicos sobre este taxón. Habiendo identificado esta oportunidad decidimos con apoyo de la Asociación Guatemalteca de Mastozoólogos convocar a un grupo de investigadores/as para que desarrollaran con libertad manuscritos en su área de especialización y de esta manera compilar perspectivas, planteamientos y herramientas variadas. Finalmente se logra integrar textos que comprenden a los mamíferos terrestres pequeños, mamíferos terrestres medianos y grandes y mamíferos acuáticos continentales y marinos. Los mismos son inéditos y estuvieron sujetos a revisión por pares cumpliendo de esta manera con una de las premisas más importantes en el ámbito de la publicación científica: la retroalimentación y la validación de la información. Es así que concretamos este proyecto cuyo impacto se puede extender a instituciones académicas y gubernamentales ya que brinda en algunos casos la base de conocimiento así como insumos para las estrategias de conservación de biodiversidad. *Obras completas y correspondencia científica de Florentino Ameghino: Los mamíferos fósiles de la República Argentina* Florentino Ameghino, 1916
