Los Duenos De La Argentina Ii Los Secretos Del Verdadero Poder:

Argentinian Telenovelas Gabriela Jonas Aharoni, 2015-07-01 This work explores the way in which telenovelas TV serial dramas give voice to contemporary and historical Argentinian social and political issues Telenovelas have multiple layers of socio cultural message local as well as global and are invariably laden with appealing drama and emotion and sometimes comedy The discussion focuses on how telenovelas reflect society's perception of and adjustment toward issues of globalisation They are a means of portraying how individuals and families rationalize and incorporate rapid social and economic changes The book explores how telenovelas might offer a subversive interpretation of reality or provide a channel of dialogue with the government's political aims The author challenges the assumption that they are merely a reflection of historical political and social circumstance One of the many telenovela examples addressed in this book is whether the serial Padre Coraje constructs a parallel between the current Kirchner government and that of Juan Peron fifty years earlier The serial explores the two leaders relationship with the Church and implicitly presents President Kirchner as Peron's successor Explaining telenovelas as cultural texts they are not soap operas provides the primary basis for this study backed by Argentinian newspaper articles and secondary sources on Latin American history culture and economy as well as TV and cinema studies The result is a more profound and nuanced interpretation than hitherto of Argentinian telenovelas Analysis enables identification of the links between the serials storylines and contemporary political and social events These popular culture texts bring new meaning to the Argentinian historical narrative and for TV viewers puts the processes and effects of economic and social globalisation on a local multi cultural level perspective

Neoliberalism, Accountability, and Reform Failures in Emerging Markets Luigi Manzetti, 2015-10-13 The agenda of neoliberal market reform known as the Washington Consensus which was meant to turn around the economies of developing and postcommunist countries and provide the bedrock of economic success on which stable democracies could be built has largely proved to be a failure with Russia and many Latin American countries like Argentina left in severe economic crisis by the end of the 1990s Some proponents of neoliberal reform such as Anne Krueger have attributed this failure to the piecemeal and incomplete implementation of reform measures while others including Nobel Prize economist and former World Bank vice president Joseph Stiglitz have pointed to technical flaws in the policies While both of these assessments focus narrowly on economic factors Luigi Manzetti highlights the crucial importance of political institutions and processes to a fully adequate explanation His argument is that the ideology of neoliberal reform rooted in the theories of Friedrich von Hayek and Milton Friedman assumed political checks and balances that did not exist in many of these countries undergoing market reform and that only by taking political accountability as an influential variable in the equation for success can we really understand what happened Where accountability was weak patterns of corruption collusion and patronage worked to undermine the intended aims of market reform Manzetti uses both large N statistical analyses and small N case studies of Argentina Chile and Russia

to provide empirical evidence for his argument The Economic Accomplices to the Argentine Dictatorship Horacio Verbitsky, Juan Pablo Bohoslavsky, 2016 This book uncovers how banks individuals and companies worked as economic accomplices to the oppressive Argentinian dictatorship **The Space of Culture** Stewart King, Jeff Browitt, 2004 The essays range from colonial domination and international struggles over territorial claims to a meditation on the politics of location to the issue of spatial representation of mature age women and gay men within a dialectic of visibility invisibility in Spanish theatre and cinema Jacket Nuevos Senderos Diana Campoamor, William A. Diaz, Henry A. J. Ramos, 1998-09-30 These essays provide historical studies sociological surveys and analyses of policies and practices in the philanthropic community not only in the United States but for comparison s sake in Mexico and Argentina as well While descriptive and analytical this collection also identifies for policymakers and practitioners opportunities for more and better involvement in serving Latinos

Latina Mariana Heredia propone entender y discutir las desigualdades contemporáneas desmontando las etiquetas que impiden pensarlas. Así muestra que los ricos de hoy poco tienen que ver con las familias tradicionales: la oligarquía o la burguesía nacional y que constituyen un grupo heterogéneo no siempre blindado ante la inestabilidad. Atenta a los resortes que permiten reproducir el capital, acceder al bienestar y ejercer poder, analiza cómo las reformas desregulatorias de los años sesenta y noventa achicaron los márgenes del Estado nacional como gran integrador social y mercantilizaron bienes que eran públicos como la salud, la educación, la seguridad. Y nos invita a poner en cuestión ciertos lugares comunes del debate: qué expectativas depositar en la puja distributiva entre empleadores y trabajadores; Y en las políticas de ingresos. Puede la búsqueda de equidad descansar en la movilización constante y la capacidad de bloqueo de los sectores populares más golpeados. Se trata de aumentar gravámenes o de afinar los dispositivos para evitar la evasión.Cuál es el poder relativo de la autoridad presidencial para delinear intervenciones públicas que minimicen las injusticias. La obsesión por los ricos sea en clave de fascinación o de repudio activa sensibilidades pero no sirve para entender las causas profundas de la desigualdad. Este libro es un aporte enormemente revelador para conocer los poderes y las impotencias de las elites políticas económicas y sociales y para imaginar cómo salir del callejón sin salida en el que estamos y avanzar hacia una sociedad más integrada.

Cuentas pendientes Horacio Verbitsky, Juan Pablo Bohoslavsky, 2019-11-22. Hasta hoy la justicia argentina tuvo el mérito de investigar los delitos de sangre cometidos durante la última dictadura pero dejó fuera del radar a los actores económicos que la promovieron, es decir a las personas, instituciones y empresas que suministraron bienes y servicios al gobierno o que obtuvieron beneficios a cambio de apoyar la ejecución del plan criminal. Muchas de ellas son en la actualidad actores civiles y económicos de peso integrados al juego democrático. Coautores, socios, instigadores, conspiradores, ejecutores, cómplices, beneficiarios son algunos de los posibles formatos de estos vínculos que deben ser esclarecidos. En lo que constituye una investigación pionera, Horacio Verbitsky y Juan Pablo Bohoslavsky, junto con un equipo de prestigiosos autores, sacan a la luz los casos de complicidad civil y económica con la dictadura. Esos casos involucran empresas como Ledesma, Ford, Acindar, Techint o Mercedes Benz cuyos directivos están acusados o sospechados de entregar trabajadores que luego fueron desaparecidos, así como organismos creados para extorsionar empresarios poco afines y expropiar sus bienes, como sucedió con Papel Prensa y con los hermanos Iaccarino. La trama se completa con corporaciones patronales agropecuarias o industriales, el Colegio de Abogados de la Ciudad de Buenos Aires, los grandes prestamistas internacionales como el Citybank y el Lloyd's Bank, los think tanks como FIEL o CEMA que aportaron hombres e ideas a la dictadura, sectores de la cúpula sindical, operaciones mediáticas de diarios como La Nueva Provincia, Clarín o La Nación o la impactante actitud de la cúpula de la Iglesia católica que mientras bendecía la represión, aprovechaba los cuantiosos beneficios que recibía de los militares. Al ofrecer la primera investigación sólida y sistemática, este libro abre una nueva etapa, además de contribuir a una narrativa más completa de los años del llamado Proceso.
