Get Digital World, With processed foods that are high in fat readily available these days it seems like many individuals have found themselves ballooning As a matter of fact the percentage of people suffering from obesity has been on the rise in recent years While some of these people are nonchalant about the need to lose weight others have found themselves seeking products for weight loss There are various reasons why individuals desire to lose weight one of which would be due to concern for their health Due to various health scares and reports in newspapers people are now more aware that being obese can actually be bad for their bodies As such they may want to shed excess pounds before they have experience health problems and it is too late The market for such products and services has grown with weight loss aids such as slimming programs slimming supplements and pills that are supposed to restrict your body's intake of carbohydrates claiming to be able to help consumers attain their dream weight There are also those who choose to take a more extreme measure by going under the knife to have the size of their stomachs surgically reduced With the numerous options we have today some people are now beginning to think that there are fast and quick ways to lose weight However this may not necessarily be good for your body There are many who have chosen to stick to the more traditional methods of losing weight to diet and to exercise However when it comes to dieting there are so many choices you can choose from that you may find yourself confused as to which diet program will be best for you You may even wonder if diet programs are effective in helping you lose weight If these are some of the questions that you already have on your mind then don't worry You will definitely be able to find answers in the following articles *Weekly World News*, 1990-05-01 Rooted in the creative success of over 30 years of

Reprogramming The Subconscious Mind Robert Dave Johnston, 2014-09-21 Would you like to start a diet stick to it and lose ALL of the weight you wanted Would you like to NOT gain the weight back and remain thin for many years to come Would you like to easily say NO to junk food and other foods that you formerly could not resist Would you like to be able to make healthy eating choices at all times without struggle or feeling deprived Would you like to master your belly and appetites and NEVER be a slave to food and eating Would you like to find the inner strength to always make the best choices for you even if those choices require a bit of sacrifice and or discomfort In short would you like to SOLVE the weight problem

once and for all and enjoy your life thin and with a healthy relationship with food Helping you to accomplish all of these points is what this book is all about Here s the bottom line I was stuck in obesity and binge eating for more than 20 years during which time I trained myself to believe and act upon all sorts of destructive and negative nonsense I ate everything and anything that the mind and belly wanted Even if I was full and my belly felt that it was about to pop I would continue to eat nonetheless Food was my drug I had ZERO ability to resist food I always gave in I was completely trapped overeating day after day becoming more and more obese and sick isolated from life and the world and filled with shame guilt depression and intense self hatred I was in essence trapped in a self made prison where food was the ultimate overseer and lord It was a vicious cycle Sadness rage and self pity fueled more overeating which in turn caused more failure and negativity which caused more overeating I was perpetually sabotaging my weight loss efforts often without realizing it because pain and unhappiness had tragically become second nature THEN I realized that if I wanted to be free of this poisonous mental chatter I would have to work at identifying and overwriting the conscious and subconscious fat patterns that fed the insanity and kept me eating in excess and at the wrong times the patterns that made me weak in the sight of food and caused me to always be nibbling grazing and eating eating and eating I was fed up and wanted to overcome obesity once and for all I had to create a new mental program that supported and facilitated my goals rather than destroy them And none of this is breaking news We ve all have heard of positive thinking affirmations and visualizations Here I take those powerful mental tools and apply them directly to weight loss food and eating If you have tried to lose weight and fallen short then implementing the simple but powerful program I outline here will help you to make measurable progress If you are willing to walk with me and do some work then this book can become a very powerful ally in your journey towards permanent weight loss You will be asked to do some introspective work in a journal You will be asked to put together a reprogramming program tailored specifically to your individual needs and situation If you give yourself to this work and stick to it as I recommend there is no doubt that you will begin to see some remarkable changes in the way you relate to food and eating I had big problems waking up at 3AM and raiding the fridge After some weeks of following this program I went to sleep one night and when I woke up it was 6AM I had not gotten up to eat One lady that was addicted to cream donuts and double sweet latte wrote to tell me that after following this program she abruptly stopped A guy who lived on pizza and beer said that after listening to the tapes for a few weeks he woke up one morning and decided to change his diet And you too can experience the breakthrough IF you make the commitment with yourself
