As A Highway To Hyperinflation Imad A Moosa, 2013-10-07 This book addresses the topical issue of whether the current environment in the US and other major countries where quantitative easing is used to boost the economy is conducive to the emergence of hyperinflation. This is a controversial and highly debated issue. Using both economics and history, the author challenges the view that quantitative easing will not lead to hyperinflation and argues that hyperinflation or at least high inflation is likely to appear eventually. The book examines all the propositions put forward for and against the eventuality of hyperinflation in the US using illustrations based on actual and simulated data. The analysis leads to the conclusion that the current fiscal position of the US government, particularly the levels of external debt and unfunded liabilities, will not be rectified without resorting to inflationary financing. The book would be useful not only for policy makers and economists but also for non-specialist observers.

Understanding Loss Judith Murray, 2015-09-16 Loss and consequent grief permeates nearly every life-changing event from death to health concerns to dislocation to relationship breakdown to betrayal to natural disaster to faith issues. Yet while we know about particular events of loss independently, we know very little about a psychology of loss that draws many adversities together. This universal experience of loss as a concept in its own right sheds light on so much of the work we do in the care of others. This book develops a new overarching framework to understand loss and grief, taking into account both pathological and wellbeing approaches to the subject. Drawing on international and cross-disciplinary research, Judith Murray highlights nine common themes of loss, helping us to understand how it is experienced. These themes are then used to develop a practice framework for structuring assessment and intervention systematically. Throughout the book, this generic approach is highlighted through discussing its use in different loss events such as bereavement, trauma, chronic illness, and with children or older people. Having been used in areas as diverse as child protection, palliative care, and refugee care, the framework can be tailored to a range of needs and levels of care. Caring for people experiencing loss is an integral part of the work of helping professions, whether it is explicitly part of their work such as in counselling or implicit as in social work, nursing, teaching, medicine, and community work. This text is an important guide for anyone working in these areas.

Industrial Relations and Labour Laws, 7th Edition Srivastava S.C., The Seventh revised and enlarged edition of the book *Industrial Relations and Labour Laws* has brought all the important labour legislations within the purview of this book. The notable feature of this edition is inclusion of laws on social security, wages, and minimum standards of employment, including factory contract, child and migrant workers. Another significant feature of this edition is detailed discussion on labour law reforms and more specifically comprehensive analysis of the proposed labour code on industrial relations, social security, wages, and occupational safety, health, and working conditions. This edition also incorporates all the amendments in labour laws and analyses of all important judgments of the Supreme Court and High Courts on labour laws. This edition covers almost all the syllabuses of LLB, LLM, MBA, MPA, MSW.

Company Secretary and masters and diploma courses in personnel management human resource management industrial relations and labour laws Thus the book is an indispensable resource for personnel managers general managers HR and law officers of public and private sectors officials of labour departments of Central and State governments presiding officers of labour courts tribunals trade union officials management associations federations and among others lawyers and NGOs

Feminist Explorations of Paul Ricoeur's Philosophy Annemie Halsema, Fernanda Henriques, 2016-05-19 This book for the first time brings together considerations upon the feminine in relation to Paul Ricoeur's thinking The collection of renowned scholars who have published extensively on Ricoeur and promising younger scholars together shows the rich potential of his thought for feminist theory without failing to critically scrutinize it and to show its limitations with respect to thinking gender differences In the first part Ricoeur's Women and Gender Ricoeur's work is taken as the starting point for the reflection upon the position of women and the feminine and for rethinking the notion of universalism In the second part Ricoeur in Dialogue his work is related to feminist thinkers such as Simone de Beauvoir Judith Butler and Nancy Fraser and to the work of artist Kara Walker These dialogues aim at thinking through socially relevant notions such as discourse recognition and justice In the third part Ricoeur and Feminist Theology Ricoeurian notions and ideas are the starting point for new perspectives upon feminist theology The insights developed in this book will be of particular value to students and scholars of Ricoeur's feminist theory and the limits of hermeneutics and phenomenology
