Ryan, 1978 *Gold* Mary Hill, 2000-02-28 The discovery of gold in 1848 catapulted California into statehood and triggered environmental social political and economic events whose repercussions are still felt today Mary Hill combines her scientific training with a flair for storytelling to present the history of gold in California from the distant geological past through the wild days of the Gold Rush to the present The early days of gold fever drew would be miners from around the world many enduring great hardships to reach California Once here they found mining to be backbreaking work and devised machines to help recover gold These machines pawed gravel from river bottoms and tore apart mountainsides wreaking environmental havoc that silted rivers ruined farmlands and provoked the world's first environmental conflict settled in the courts Native Americans were nearly wiped out by invading miners or their diseases and many Spanish speaking settlers Californios were pushed aside Hill writes of gold's uses in today's world for everything from coins to coffins gourmet foods to spacecraft Her comprehensive overview of gold's impact on California includes illustrated explanations of geology and mining in nontechnical language as well as numerous illustrations maps and photographs

Lost Mines and Buried Treasures of the West Thomas Probert, 1977 This large easy to use volume lists the works of more than eleven hundred different authors covering thousands of stories of lost mines and buried treasures supposedly located in fifteen Western and Southwestern states and in Mexico In addition to being a boon to those adventurers who are tempted to search for lost mines and buried treasures it will be an important basic research tool for historians geologists geographers anthropologists archaeologists and folklorists and it will be useful in identifying the man treasure hoards and mining claims all the way from the Lost Adams Diggings in Arizona to the Stagecoach in Wyoming The information given in this important bibliography was acquired through perusal of an unusually large number of books newspapers magazines unpublished manuscripts deposits in private and public libraries holdings of various historical foundations and governmental records and archives The task took Mr Probert three full years of steady patient work Many of these stories of lost mines and buried treasures have resulted in the discovery of some that are rarely acknowledged largely because as Mr Probert points out those who have been so fortunate as to find the pot of gold at the end of the rainbow have deemed it wiser and much safer to keep their own counsel Book jacket
