ancient Mesoamerica the Olmecs Maya Toltecs and Aztecs with 500 sumptuous images **John Lloyd Stephens and Frederick Catherwood** Peter O. Koch, 2013-01-16 Daring exploits and astounding achievements were common for two 19th century adventurers John Lloyd Stephens a New York lawyer and best selling author and Frederick Catherwood a London architect and renowned topographical artist Separately these explorers covered much of the same ground touring Italy Greece Egypt Arabia and the Holy Land in search of ancient sites that were of historical significance Jointly these adventurers endured many life threatening obstacles in a determined effort that led to the discovery of nearly fifty forgotten Mayan cities buried deep in the jungles of Central America and Mexico The vivid accounts penned by Stephens coupled with the magnificent drawings of ruins by Catherwood brought back to life a vanished civilization that both considered equal to the greatness of ancient Egypt Greece and Rome The story concludes with the premature and tragic deaths of the two

Journeys to the United Mexican States Kalman Dubov, 2022-06-22 Mexico's history reaches back 4 000 years beginning with the Olmecs who lived in the Yucatan Peninsula That remarkable civilization created those huge stone heads with developments that spearheaded and vitalized every subsequent Mesoamerican civilization that followed The Olmecs and the Maya who succeeded them created the concept of zero an incredible development in mathematical computation This book begins with the Olmecs tracing successor civilizations to the last Mesoamerican Empire the Aztecs I describe Aztec life ritual cuisine and development until in August 1521 this civilization was conquered by Spanish conquistadors Much of the Aztecs their people and royalty are known today by way of Spanish ethnographers and historians who authored codices writing and describing what they saw even as that civilization was changed That change was permanent Aztec ritual and its polytheism were altered by Spanish missionaries and enforced by the Inquisition From 1521 until 1821 Spanish Colonial authorities imposed forced labor in varying forms Colonialism was overthrown in 1821 and Mexico now entered a new era This book describes those changes as well as the challenges the government today faces in addressing many disparities in its policies Healthcare challenges with systemic poverty as well as the drug war preoccupies much energy in the government's efforts to address them Mexico also has a large Jewish population whose history was marked by secrecy and Spanish efforts to eradicate this ancient religion Today's Zocalo in the heart of Centro Historico was the place where Jews were burned to death in public admonition against Jewish practice Another site for such death was the nearby ex Convento of San Diego opposite the Grand Palace de Belles Artes Today's Jews are thriving and Mexico Israel relations are strong This book would not be complete without describing my visits to the country In My Visit I describe the different ports I visited while aboard cruise ships But many more months in the country were spent in San Miguel de Allende and in Mexico City I describe these visits their people and the many nuances of Mexican life The Mexican constitution recognizes 69 ethnic languages and speakers who are scattered but who primarily live in its southern states Many ethnic languages are so diverse that their dialects are unintelligible to the same language group Language creates the core bonds of society and such multiplicity

provides insight into the huge diversity of identity and of life in Mexico This book is the 14th in the Journey series and is my first book on the American continent I hope I have done justice to the vast complexity of this society *El Regreso a Coatlicue* Grisel Gómez Cano, 2011-06-07 EL REGRESO A COATLICUE *Global Medieval Contexts 500 - 1500* Kimberly Klimek, Pamela Troyer, Sarah Davis-Secord, Bryan Keene, 2021-06-30 *Global Medieval Contexts 500 1500 Connections and Comparisons* provides a unique wide lens introduction to world history during this period Designed for students new to the subject this textbook explores vital networks and relationships among geographies and cultures that shaped medieval societies The expert author team aims to advance a global view of the period and introduce the reader to histories and narratives beyond an exclusively European context Key Features Divided into chronological sections chapters are organized by four key themes Religion Economics Politics and Society This framework enables students to connect wider ideas and debates across 500 to 1500 Individual chapters address current theoretical discussions including issues around gender migration and sustainable environments The authors combined teaching experience and subject specialties ensure an engaging and accessible overview for students of history literature and those undertaking general studies courses Theory boxes and end of chapter questions provide a basis for group discussion and research Full color maps and images illustrate chapter content and support understanding As a result this text is essential reading for all those interested in learning more about the histories and cultures of the period as well as their relevance to our own contemporary experiences and perspectives This textbook is supported by a companion website providing core resources for students and lecturers

The Geologic Model of Religion Andrew Clifford, 2012-07-17 Men are haunted by the vastness of eternity The opening line of the film *Troy* captures the tragic essence of personal mortality ones passing into oblivion and fading from all memory Since the prehistoric dawn of humanity death has shadowed everyone s footsteps Even into the current scientific era religion has long been the only defense The sole comfort against oblivion offering a promise of new life or even immortality The Geologic Model of Religion is a sympathetic study of this defense from its ancient beginnings drawing upon archaeology anthropology and comparative religion to clearly explain one of the most complex subjects known From the study a new model emerges which Decomposes religion into its distinct worldview and afterlife paradigms Categorizes evidence of belief systems held by prehistoric hunter gatherers culminating in the Temples of Rebirth such as Gobekli Tepe Concludes that spirituality began in the Fertile Crescent 11 000 years ago spreading with the Neolithic revolution throughout the world Shows why judgment in afterlife was the keystone in the emerging edifice of civilization and how it enabled hierarchies overcoming Dunbar s number which limited village sizes Overviews the interaction between science and religion and projects the ultimate fate of religion itself There might be 100 000 books written about religion but the Geologic Model of Religion is unlike any other Drawing upon evidence from anthropology archaeology and scripture religion is divided into worldviews and afterlife paradigms This new model evidences several long lost prehistoric religious belief systems and explains the origin of spirituality in settled

societies

The Dragon in World Mythology and Culture Robert M. Sarwark, 2024-08-13 Dragons are everywhere seemingly hidden in plain sight These mythological reptilian monsters date far into known human history in nearly every part of the world and are still prevalent in today's media and entertainment The wide cultural geographical and linguistic diffusion of dragons or dragon like creatures shows how modern humans have influenced each other through shared tales of monsters while simultaneously hinting at a shared genesis This book introduces dragon myths and legends from around the world by following human culture's shared evolutionary past via language folklore the arts and commerce Dragons in folklore literature and pop culture are analyzed from Eastern and Western perspectives leading to a dual analysis of dragons in today's popular culture and media While other books on the topic have focused primarily on classical sources or on cataloging various dragon tales in general this work identifies the subtle yet profound ways in which the dragon figure or related motifs have slyly entered into our collective psyche as participants in the modern interconnected world

The Return to Coatlicue Grisel Gomez Cano, 2010-09-13 Folklore yields important information about society and culture helping to propagate beliefs morals and values The study of Mesoamerican folklore offers a unique opportunity for understanding the religious syncretism occurring when powerful groups colonize others This work provides insight into a selected number of narratives rituals and artifacts originating from pre Conquest colonial and revolutionary periods The purpose is to disclose issues of militarism religious syncretism resistance and gender relations in Mexican society

The Genesis of Israel and Egypt Emmet Sweeney, 2023-10-01 The Genesis of Israel and Egypt examines the earliest phase of historical consciousness in the ancient Near East looking in particular at the mysterious origins of Egypt's civilization and its links with Mesopotamia and the early Hebrews The book takes a radically alternative view of the rise of high civilization in the Near East and the forces which propelled it The author Emmet Sweeney finds that the early civilizations developed amidst a background of massive and repeated natural catastrophes events which had a profound effect upon the ancient peoples and left its mark upon their myths legends customs and religions Ideas found in all corners of the globe concepts such as dragon worship pyramid building and human sacrifice are shown by Sweeney to have a common origin in the cataclysmic events of the period termed the eruptive age by legendary English explorer Percy Fawcett Terrified and traumatized by the forces of nature people all over the world began to keep an obsessive watch on the heavens and to offer blood sacrifices to the angry sky gods These events which are fundamental to any understanding of the first literate cultures have nonetheless been completely effaced from the history books and an official history of mankind which is little more than an elaborate fiction now graces the bookshelves of the world's great libraries Starting with clues unearthed by history sleuth Immanuel Velikovsky and others Emmet Sweeney takes the investigation further While the Near Eastern civilizations are generally considered to have taken shape around 3300 BC about 2 000 years before those of China and the New World Ages in Alignment demonstrates that they had no 2 000 year head start All the ancient civilizations arose simultaneously around 1300 BC in the wake of a terrible

natural catastrophe recalled in legend as the Flood or Deluge Sweeney points out that the presently accepted chronology of Egypt is not based on science but on venerated literary tradition This chronology had already been established in its present form by the third century BC when Jewish historians utilizing the History of Egypt by the Hellenistic author Manetho sought to tie in Egypt's history with that of the Bible Apparent gaps and weird repetitions resulted Improbable feats like the construction of major cut stone engineering projects before the advent of steel tools or Pythagorean geometry point to the weaknesses of the traditional view Taking a more rigorous approach and pointing to solid evidence Emmet Sweeney shows where names overlap and where one and the same group is mistaken for different peoples in different times Volume 1 The Genesis of Israel and Egypt looks at the archaeological evidence for the Flood evidence now misinterpreted and ignored This volume examines the rise of the first literate cultures in the wake of the catastrophe and goes on to trace the story of the great migration which led groups of early Mesopotamians westward toward Egypt where they helped to establish Egyptian civilization This migration recalled in the biblical story of Abraham provides the first link between Egyptian and Hebrew histories The next link comes a few generations later with Imhotep the great seer who solved the crisis of a seven year famine by interpreting pharaoh Djoser's dream Imhotep is shown to be the same person as Joseph son of Jacob

Romancing the Maya R. Tripp Evans, 2010-06-28 During Mexico's first century of independence European and American explorers rediscovered its pre Hispanic past Finding the jungle covered ruins of lost cities and artifacts inscribed with unintelligible hieroglyphs and having no idea of the age authorship or purpose of these antiquities amateur archaeologists artists photographers and religious writers set about claiming Mexico's pre Hispanic patrimony as a rightful part of the United States cultural heritage In this insightful work Tripp Evans explores why nineteenth century Americans felt entitled to appropriate Mexico's cultural heritage as the United States own He focuses in particular on five well known figures American writer and amateur archaeologist John Lloyd Stephens British architect Frederick Catherwood Joseph Smith founder of the Church of Jesus Christ of Latter Day Saints and the French migr photographers D sir Charnay and Augustus Le Plongeon Setting these figures in historical and cultural context Evans uncovers their varying motives including the Manifest Destiny inspired desire to create a national museum of American antiquities in New York City the attempt to identify the ancient Maya as part of the Lost Tribes of Israel and so substantiate

the Book of Mormon and the hope of proving that ancient Mesoamerica was the cradle of North American and even Northern European civilization Fascinating stories in themselves these accounts of the first explorers also add an important new chapter to the early history of Mesoamerican archaeology *Shifts* Wayne Hammer, 2015-09-15
