The Piracy Years Holger Briel, Michael High, Markus Heidingsfelder, 2023-06-15 The Piracy Years Internet File Sharing in a Global Context is the first collection to provide an overview of digital piracy s recent past and its potential futures Combining research essays interviews and overviews the volume brings together leading scholars and infamous digital

pirates from China Germany the Netherlands Nigeria Russia the United Kingdom and the United States In June 1999 the peer to peer P2P file sharing website Napster transformed the availability of online content but the site was quickly sued into oblivion Despite the highly publicised shutdowns of a number of P2P websites many continue to thrive and digital piracy has become a global phenomenon This book argues that any future media theory and research will have to contend with such web practices remaining an integral and politically formative part of the Internet Offline and online piracies thrive on technological affordances in opposition to corporate efforts in music film publishing and academia to label them as threatening to the economy and society Therefore this book explores piracy as a phenomenon navigating the conventions norms and boundaries of legality in digital cultures Pirate networked sociabilities work within and outside the fringes of market economy through the lens of institutional and discursive power By creating new ways that keep society moving and from stagnation they ensure its continued existence including the survival of the very areas they attack The Piracy Years is an essential resource for researchers post graduate students and anyone interested in the global spread and ever increasing importance of digital piracy Why It's Kicking Off Everywhere: The New Global Revolutions Paul Mason,2012 Incisive grassroots account of the new global revolutions by acclaimed BBC journalist The world is facing a wave of uprisings protests and revolutions Arab dictators swept away public spaces occupied slum dwellers in revolt cyberspace buzzing with utopian dreams Events we were told were consigned to history democratic revolt and social revolution are being lived by millions of people In this compelling new book Paul Mason explores the causes and consequences of this great unrest From Cairo to Athens Wall Street and Westminster to Manila Mason goes in search of the changes in society technology and human behavior that have propelled a generation onto the streets in search of social justice In a narrative that blends historical insight with first person reportage Mason shines a light on these new forms of activism from the vast agile networks of cyberprotest to the culture wars and tent camps of the occupy movement The events says Mason reflect the expanding power of the individual and call for new political alternatives to elite rule and global poverty **Politics of the Gift** Frank Adloff,2022-10-28 At the heart of capitalism lies the idea of homo economicus an ever rational human being motivated by self interest which arguably leads societies to economic prosperity Drawing on French sociologist Marcel Mauss influential theory of the gift Frank Adloff shatters this fallacy to show mutual trust is the only glue that holds societies together people are giving beings and they can cooperate for the benefit of all when the logic of maximizing personal gain in capitalism is broken Acknowledging the role of women nature and workers in the Global South in transforming society this book proposes a politics of conviviality from the Latin *con vivere* living together for global and environmental justice as an alternative to the pursuit of profit growth and consumption Beyond Tenderpreneurship MISTRA MISTRA,2020-04-16 Black Economic Empowerment BEE policies have been a central pillar of attempts to overcome the economic legacy of apartheid Yet more than two decades into democracy economic exclusion in South Africa still largely reflects the fault lines of the apartheid era

Current discourse often conflates BEE with the so called tenderpreneurship referred to in the title namely the reliance of some emergent black capitalists on state patronage Authors go beyond this notion to understand BEEs role from a unique perspective They trace the history of black entrepreneurship and how deliberate policies under colonialism and its apartheid variant sought to suppress this impulse In the context of modern South Africa authors interrogate the complex dynamics of class formation economic empowerment and redress against the backdrop of broader macroeconomic policies They examine questions relating to whether B BEE policies are informed by strategies to change the structure of the economy These issues are explored against the backdrop of the experiences of other developing countries and their journeys of industrialisation The relevant black empowerment experiences of countries such as the United States are also discussed The authors identify policy and programmatic interventions to forge the non racial future that the constitution enjoins South Africans to build
