Documenting the Documentary Barry Keith Grant, Jeannette Sloniowski, 1998 Documenting the Documentary features essays by 27 film scholars from a wide range of critical and theoretical perspectives Each essay focuses on one or two important documentaries engaging in questions surrounding ethics ideology politics power race gender and representation but always in terms of how they arise out of or are involved in the reading of specific documentaries as particular textual constructions By closely reading documentaries as rich visual works this anthology fills a void in the critical writing on documentaries which tends to privilege production over aesthetic pleasure As we increasingly perceive and comprehend the world through visual media understanding the textual strategies by which individual documentaries are organized has become critically important Documenting the Documentary offers clear serious and insightful analyses of documentary films and is a welcome balance between theory and criticism abstract conceptualization and concrete analysis Ebony, 1972-08 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine *Asking Questions* Robert Fiengo, 2007-05-03 Asking Questions examines a central phenomenon of language the use of sentences to ask questions Although there is a sizable literature on the syntax and semantics of interrogatives the logic of questions and the speech act of questioning no one has tried to put the syntax and semantics together with the speech acts over the full range of phenomena we pretheoretically think of as asking questions Robert Fiengo not only does this but also takes up some more foundational issues in the theory of language By positioning the findings of contemporary grammatical theorizing within the larger domain of language use Fiengo challenges the use theorist to acknowledge the importance of grammatical form and the grammarian to acknowledge the importance of use In addition to developing an Austinian distinction between four questioning speech acts and a proposal concerning the philosophy of language Asking Questions contains a useful discussion of the type token distinction and how use of language compares with use of other things Fiengo also considers the nature of multiple questions revealing what one must know to ask them and what speech acts one may perform when asking them Asking Questions advances our understanding of a wide range of issues in a number of important respects Scholars and students of linguistics and philosophy will find plenty to interest them in this pioneering work The Velvet Sky Roberto Aguirre-Sacasa, 2009 THE STORY Poor Bethany Palmer hasn't slept in thirteen years When her husband Warren steals their son Andrew away in the middle of the night her already fragile grip on reality starts to weaken even as she sets off after them on a nightmaris
